Ethnicity and Party Politics in Turkey Berna Öney, 2019-07-12 Delving into Turkey's political playing field this book examines how an ethnic party increased its vote shares The case study looks at the rise of the Kurdish party in Turkey's 2011 national elections in relation to the mainstream political parties strategies The research explores the strategy of the dominant Justice and Development Party that garnered the majority in three consecutive elections introduced a new political issue and even initiated an opening process Investigating the reasons behind why such a dominant party would put itself at

risk with this bold strategy and why it still lost votes to the ethnic party in the process the book traces Turkey's handling of the Kurdish issue Combining a detailed analysis of election results speeches and social survey findings the volume offers a novel approach and a rare example of the application of process tracing methodology Additionally the study is one of the first to utilize unsupervised model of scaling texts on the ethnic issue dimension As the first systematic analysis of the Kurdish opening process the book will be of interest to students and scholars researching in qualitative methodology text analysis ethnic and party politics Turkey and the Middle East *Democratic Phoenix* Pippa Norris, 2002-09-02 Conventional wisdom suggests that citizens in many countries have become disengaged from the traditional channels of political participation Commentators highlight warning signs including sagging electoral turnout rising anti party sentiment and the decay of civic organizations But are these concerns justified This book compares systematic evidence for electoral turnout party membership and civic activism in countries around the world and suggests good reasons to question assumptions of decline Not only is the obituary for older forms of political activism premature but new forms of civic engagement may have emerged in modern societies to supplement traditional modes The process of societal modernization and rising levels of human capital are primarily responsible although participation is also explained by the structure of the state the role of agencies and social inequalities
