*Policy-Making in the European Union* Laura Cram, 2005-06-28 Laura Cram takes a fresh view at attempts to conceptualize the process of European integration Her book explores the impact of the day to day work of policy maker interest groups and bureaucrats in influencing the environment in which European Treaty formulation and ratification are

taken She sheds new light on the wide range of policy areas in which institutions such as the Commission of the European Union and the European Court of Justice have succeeded in expanding the scope of EU competence despite national government opposition *The Changing Face of European Labour Law and Social Policy* Alan C. Neal, 2004-01-01 In the realm of European employment law tension exists between the concepts of economic policy and social policy During recent years a growing tendency to emphasize the economic at the expense of the social can be discerned What this trend gives us in the views of the leading figures in the field of European labour law and social policy whose considered analyses are presented in this volume is a regime of grand declarations about workers rights but with extremely limited enforcement potential i The Changing Face of European Labour Law and Social Policy presents some of the papers given at a series of colloquia sponsored by the Employment Law Research Unit at the University of Warwick in early 2002 In its assessment of the forces at work in European employment law today these commentaries examine significant initiatives and issues including problems arising in the context of the Nice Charter delivering equality at the workplace under the new EU legal framework the crisis facing workers participation in practice the prospects for trans national collective bargaining employment related aspects of human rights under the ECHR and attempts to establish effective protections in relation to the working environment Invaluable appendices include a report as presented by the late Marco Biagi of a high level group on reform of the European labour market the text of the Social Policy Agenda as approved at the Nice Summit of 2000 and the Commission s scoreboard on the implementation of the Social Agenda as of 2002 With its down to earth analysis of the current status of the floor of rights in the European work environment The Changing Face of European Labour Law and Social Policy will be of inestimable value to all practitioners and scholars seeking to improve the quality of life for Europe s working population and the quality of regulation at the disposal of those charged with confronting the new challenges to social policy resulting from the radical transformation of Europe s economy and society *Social Europe* Joe Bailey, 2014-06-03 Since the first edition of Social Europe was published in 1992 profound social changes have occurred throughout Europe as a result of conflicting pressures on the one hand to become more integrated and on the other to protect national interests and identity This second edition of Social Europe has been fully revised to provide a comprehensive and focused account of basic social issues and structures which provide the context for these changes Each chapter covers a key topic such as education crime gender health and religion and provides valuable comparisons between the key nation states of Western Europe *Comparative Law and Regulation* Francesca Bignami, David Zaring, 2016-09-30 Governance by regulation rules propounded and enforced by bureaucracies is taking a growing share of the sum total of governance Once thought to be an American phenomenon it is now a central form of state action in every part of the world including Europe Latin America and Asia and it is at the core of much international lawmaking In Comparative Law and Regulation original contributions by leading scholars in the field focus both on the legal dimension of regulation and on how this dimension

operates in those places that have turned to regulation to meet their obligations

**European Communities** John Paxton, 1992-01-01 The establishment of the European Economic Community in 1958 was one of the most remarkable developments in the history of the post World War II era It aimed for nothing less than a complete economic union so that goods people and capital would be able to pass over national boundaries of member countries as freely as they move within any one country As the Community's target date of 1992 for economic integration draws closer the need for information both current and historical becomes more urgent The aim of this annotated bibliography is to create a critical and descriptive list of books published mainly in English for businessmen and analysts combining older publications with new The literature on the EC is vast and issues The Community itself nearly 3000 publications a year The range of material covered in this volume is distinguished by its great scope Historical sections provide listings on the postwar years of economic recovery the development of the EC and biographies of the leading personalities involved Policy oriented sections encompass such subjects as labor transportation environment energy and education The political ramifications of economic union financial and fiscal affairs relations between the EC and the Third World and foreign relations in general are dealt with in separate sections The volume concludes with a listing of major European Community publications The sheer bulk of published material on the EC much of it duplication has made keeping up with its developments difficult for small and medium in Europe and elsewhere This invaluable sourcebook will provide the business community and the political establishments with better access to EC information as they grapple with the implications of 1992

*The Political Economy of a 'Social Europe'* M. Kluth, 2015-12-22 The book uses an innovative theoretical framework to explain how the EU social dimension has taken its present form It presents and applies a political economic framework to the European labour market integration process and offers new tools for analysing the dynamics of regional integration The theory is applied to case studies of the EU's approach to social protection health and safety protection at the workplace and maternity leave The topical issues around the future of welfare provision in Europe how a Social Europe may develop and the political and economic consequences of this are discussed

**European Community Social Policy** Sonia Mazey, 1989

Philosophical Foundations of European Union Law Julie Dickson, Pavlos Eleftheriadis, 2012-10-11 The supranational law of the European Union represents a uniquely powerful far reaching and controversial instance of the

growth of international legal governance one that has forever altered the political and legal landscape of its Member States. The EU has attracted significant attention from political scientists, economists and lawyers who have analysed its polity and constructed theoretical models of the integration process. Yet it has been almost entirely neglected by analytic philosophers and the philosophical tools that have been developed to analyse and evaluate the Union are still in their infancy. This book brings together legal philosophers, political philosophers and EU legal academics in the service of developing the philosophical analysis of EU law. In a series of original and complementary essays they bring their varied disciplinary expertise and theoretical perspectives to bear on central issues facing the Union and its law. Combining both abstract thought in legal and political philosophy and more tangible theoretical work on specific legal issues, the essays in this volume make a significant contribution to developing work on the philosophical foundations of EU law and will engender further debate between philosophers, political philosophers and EU legal academics. They will be of interest to all those engaged in understanding the nature and purpose of this unique legal entity.

**EU Social Policy in the 1990s** Gerda Falkner, 2003-07-13. This book offers an analytical overview of schools of thought on European integration which offer useful insights into EU social politics. Building on this framework, the chapters then examine in detail pre-Maastricht social policy and the social partners, the innovations of the Treaty itself and where EU social policy stands at the end of the 1990s. Case studies of European Works Councils, parental leave and atypical work are included to highlight the day-to-day processes at work in social policy formation and the major interest groups and EU institutions involved. This is an up-to-date and accessible study which finds the social policy-making environment in the EU has become increasingly corporatist in the 1990s.

*State-building in Europe* Volker Bornschier, 2000-10-05. Why and how was the process of Western European integration relaunched in the 1980s and 1990s? This volume suggests a new framework of analysis of the European statebuilding tradition. Based on qualitative research including more than 30 interviews with protagonists from EU member states and detailed case studies and policy analyses, the genesis of the Single Market programme and the Single European Act, ESPRIT, technology corporatism, biotechnology, EU regional and social policy, the authors show that new forms of cooperation between political and economic actors have developed both at transnational and supranational level. The book shows how the European Commission, bureaucratic cabinets, national diplomats, transnational companies, pressure groups and representatives of the regions have set in motion a process that is changing statehood in Europe dramatically. This discussion of the origins of this process is a valuable contribution to the debate on the future of Europe in the world system.

*Governance and the European Social Dimension* Paul Copeland, 2019-11-12. Providing a comprehensive and authoritative analysis of the impact of the Eurozone crisis on the European social dimension since 2010, understood as the European Union's EU competence in employment and social policy, this book focusses on developments in five policy areas: employment, poverty and social exclusion, pensions, wages and healthcare, all of which form part of the EU's economic reform strategy.

Europe 2020 It combines original empirical material and uses a unique theoretical approach to analyse the issue of EU governance and reveals that progress under Europe 2020 has its consequences notably a strengthened Brussels led neoliberal prescription for EU social and employment policy problems By drawing insights from political sociology and the strategic relational approach to actors institutions this book will be of interest to students and scholars interested in EU politics EU governance political sociology public policy and European integration

**European Dimensions** John Field, 1998 Field addresses the European Union s desire for a unified approach to education and its content exploring the origin of this interest the tensions that underlie the policies and its impact at national level

*Social Work and Europe* Lynne Berry, Crescy Cannan, Karen Lyons, 1992-10-14 This book presents information and ideas about the role and organisation of social workers in selected EC countries particularly but not exclusively France and Germany Comparisons are made of national policies and practice in relation to specific client groups and new concerns requiring common responses are identified This discussion is put in the context of an emerging social agenda of the European Community The authors argue that EC social policies in relation to citizenship participation and marginalisation are consistent with the aims and concerns of social workers and relevant to its future development at national and European level
