and Planning References ,1978 The Organic City Patricia Mooney Melvin,2014-07-15 During the late nineteenth century rapid social and economic changes negated the prevailing conception of the city as a uniform whole Confronted with this disparity between the old urban definition and the new city of the late nineteenth century social thinkers searched for a

new concept that would correspond more closely to the divided urban community around them. Borrowing an analogy from natural history, these thinkers conceived of the city as an organism composed of interdependent neighborhoods and sought to translate this concept into ways of dealing with the dislocations and problems in urban life. In this new study of American urban history, Patricia Melvin traces the growth of the idea of the organic city and the developing emphasis on the neighborhood as the basic urban unit. An early expression of the idea was the settlement house movement, but the most effective application of the idea, Melvin shows, was the social unit organization scheme worked out by Wilbur C. Phillips. As a social planner and organizer, Phillips first tried his approach in New York, then in Milwaukee, and finally in Cincinnati. Although initially successful in dealing with specific issues, Phillips's efforts eventually foundered on friction among ethnic groups and on the opposition of city politicians. Finally, in the 1920s, the whole concept of the organic city was supplanted by a new view of the city based not upon a cooperative but upon a competitive model. The Organic City contributes new understanding to an important period of American urban history. Moreover, it shows clearly how important is the role of concepts in shaping the perception of social realities and the attempts to deal with them. **The Columbia University**

School of Social Work Ronald A. Feldman, Sheila B. Kamerman, 2001 Few aspects of American military history have been as vigorously debated as Harry Truman's decision to use atomic bombs against Japan. In this carefully crafted volume, Michael Kort describes the wartime circumstances and thinking that form the context for the decision to use these weapons, surveys the major debates related to that decision, and provides a comprehensive collection of key primary source documents that illuminate the behavior of the United States and Japan during the closing days of World War II. Kort opens with a summary of the debate over Hiroshima as it has evolved since 1945. He then provides a historical overview of the events in question, beginning with the decision and program to build the atomic bomb. Detailing the sequence of events leading to Japan's surrender, he revisits the decisive battles of the Pacific War and the motivations of American and Japanese leaders. Finally, Kort examines ten key issues in the discussion of Hiroshima and guides readers to relevant primary source documents, scholarly books, and articles. *An Interim Guide for Health Education in a Health Care System*, 1978 *Macro Practice in the Human Services*

Thomas M. Meenaghan, Robert O. Washington, Robert M. Ryan, 1982 **Social Action in Group Work** Abe Vinik, Morris Levin, 2012-10-12 One of the most effective ways of dealing with social problems is getting rid of the cause of the problem, not just finding a remedy for the result. *Social Action in Group Work* provides a useful overview of the history, philosophy, theory, and practice of social group work and action in the promotion of societal change. Numerous case examples from a variety of different settings

become models that will be extremely useful for social work students educators professionals and those who work directly with groups This invigorating book is divided into three sections each with a unique focus and tied together by overlapping concepts theories and models The first section Ideas of Social Action examines the history of social action in group work and proposes an integrated global framework for social work organization education and practice Advocacy and Empowerment the middle section is replete with case examples The third section Principles and Practice explores the application of social group work in a variety of situations including inter ethnic conflict and a group of homeless men and women Together the sections make a strong stand for a more sensitive empowerment oriented practice and for more advocacy by the worker and group Everyone involved or interested in the process of social change through social action with groups will find Social Action in Group Work a wealth of practical information
