New England Mariners Atlas:

Mariner's Atlas A. P. Balder, 1985 Complete charts for mariner s cruising New England waters from Mystic Connecticut to Portsmouth New Hampshire including Narragansett Bay Buzzards Bay Martha s Vineyard Nantucket and the Cape all in one convenient atlas On cover

A Buccaneer's Atlas Basil Ringrose, 1992-01-01 On July 29 1681 a band of English buccaneers that had been terrorizing Spanish possessions on the west coast of the Americas captured a Spanish ship from which they obtained a derrotero or book of charts and sailing directions When they arrived back in England the Spanish ambassador demanded that the buccaneers be brought to trial The derrotero was ordered to be brought to King Charles II who apparently appreciated its great intelligence value The buccaneers were acquitted to the chagrin of the king of Spain who had the English ambassador expelled from the court at Madrid on a seemingly trumped up charge The derrotero was subsequently translated and one of the buccaneers Basil Ringrose added a text to the compilation and information to the Spanish charts The resulting atlas consisting of 106 pages of charts and 106 pages of text is published in full for the first time in this volume Covering the coast from California to Tierra del Fuego the Galapagos and Juan Fernandes Basil Ringrose s south sea waggoner is a rich source of geographical information with observations on navigational physical biological and cultural features as well as on ethnography customs and folklore After almost exactly three hundred years this secret atlas is now made available to libraries and individuals The editors have provided an extensive introduction on historical geographical and navigational aspects of the atlas as well as annotations to the charts and text and they have plotted the coverage of the charts on modern map bases On July 29 1681 a band of English buccaneers that had been terrorizing Spanish possessions on the west coast of the Americas captured a Spanish ship from which they obtained a derrotero or book of charts and sailing directions When they arrived back in England the Spanish ambassador demanded that the buccaneers be brought to trial The derrotero was ordered to be brought to King Charles II who apparently appreciated its great intelligence value The buccaneers were acquitted to the chagrin of the king of Spain who had the English ambassador expelled from the court at Madrid on a seemingly trumped up charge The derrotero was subsequently translated and one of the buccaneers Basil Ringrose added a text to the compilation and information to the Spanish charts The resulting atlas consisting of 106 pages of charts and 106 pages of text is published in full for the first time in this volume Covering the coast from California to Tierra del Fuego the Galapagos and Juan Fernandes Basil Ringrose s south sea waggoner is a rich source of geographical information with observations on navigational physical biological and cultural features as well as on ethnography customs and folklore After almost exactly three hundred years this secret atlas is now made available to libraries and individuals The editors have provided an extensive introduction on historical geographical and navigational aspects of the atlas as well as annotations to the charts and text and they have plotted the coverage of the charts on modern map bases

Annual , 1985 The Mariner's New Calendar Nathaniel Colson, 1753 *Mapping and Charting in Early Modern England*
and France Christine Petto, 2015-03-26 Mapping and Charting for the Lion and the Lily Map and Atlas Production in Early
Modern England and France is a comparative study of the production and role of maps charts and atlases in early modern
England and France with a particular focus on Paris the cartographic center of production from the late seventeenth century
to the late eighteenth century and London which began to emerge in the late eighteenth century to eclipse the once favored
Bourbon center The themes that carry through the work address the role of government in map and chart making In France
in particular it is the importance of the centralized government and its support for geographic works and their makers
through a broad and deep institutional infrastructure Prior to the late eighteenth century in England there was no central
controlling agency or institution for map chart or atlas production and any official power was imposed through the market
rather than through the establishment of institutions There was no centralized support for the cartographic enterprise and
any effort by the crown was often challenged by the power of Parliament which saw little value in fostering or supporting
scholar geographers or a national survey This book begins with an investigation of the imagery of power on map and atlas
frontispieces from the late sixteenth century to the seventeenth century In the succeeding chapters the focus moves from
county and regional mapping efforts in England and France to the paper wars over encroachment in their respective colonial
interests The final study looks at charting efforts and highlights the role of government support and the commercial trade in
the development of maritime charts not only for the home waters of the English Channel but the distant and dangerous seas
of the East Indies
