New England Village Everyday Life In 1810:

New England Village Robert H. Loeb, 1976-01-01 Describes New England village life in 1810 as based on visits to Old Sturbridge Village Massachusetts and Old Slater's Mill in Pawtucket Rhode Island *Living History Museums* Scott Magelssen, 2007 Living history museums are cultural institutions that merge historical exhibits with live costumed performance While unique and vitally important they often compromise historical accuracy and authenticity for the sake of tourism and entertainment value Many also pursue methods of performance and historiography that are becoming increasingly outdated Living History Museums Undoing History Through Performance examines the performance practices used by institutions such as Plimoth Plantation and Colonial Williamsburg and offers a new genealogy of living history museum performance in the U S and Europe Currently existing scholarship on living history museums addresses the subject from a museum studies or anthropology perspective Author Scott Magelssen however approaches the material from a background in theatre history and theory analyzing living history museums using postmodern methodology Considering performance as a method for the study of history and exploring emergent non traditional theatrical practices the book offers suggestions for performance in an increasingly postmodern landscape Concluding with an international listing of living history institutions and a complete list of sources Living History Museums is a valuable resource for students and teachers of theatre and performance studies cultural studies folklore popular culture American studies and museum studies **Catalog of Copyright Entries. McClelland, 2018-09-05 Contrary to those who regard the economic transformation of the West as a gradual process spanning centuries Peter D McClelland claims the initial transformation of American agriculture was an unmistakable revolution He asks when a single crucial question was first directed persistently pervasively and systematically to farming practices Is there a better way McClelland surveys practices from crop rotation to livestock breeding with a particular focus on the change in implements used to produce small grains With wit and verve and an abundance of detail he demonstrates that the first great surge in inventive activity in agronomy in the United States took place following the War of 1812 much of it in a fifteen year period ending in 1830 Once questioning the status quo became the norm for producers on and off the farm according to McClelland the march to modernization was virtually assured With the aid of more than 270 illustrations many of them taken from contemporary sources McClelland describes this stunning transformation in a manner rarely found in the agricultural literature How primitive farming implements worked what their defects were and how they were initially redesigned are explained in a manner intelligible to the novice and yet offering analysis and information of special interest to the expert **New England** David D.
