Indo-Pacific Strategies Brendon J. Cannon,Kei Hakata,2022-01-14 This book focuses on the Indo Pacific region s growing

prominence as the world's major powers gravitate toward this space to expand their influence. With dynamic shifts taking place in the globe's most strategically volatile region, *Indo Pacific Strategies* aims at clarifying the geopolitics of the Indo-Pacific, expounded both as a strategic concept and nascent region, thus contributing to the burgeoning policy and academic debate. The book offers indispensable insights and appropriate remedies to maintain the rules-based international order as threatened by China's increasingly assertive and bellicose posturing. It offers up-to-date analyses of COVID-19 related geopolitical trends, the strategies of various Indo-Pacific states against the backdrop of great power competition, the increasingly confrontational stance of Indo-Pacific states against China, and the 2020 US election results. This unique book presents deep insights into the roles of Eurasia, small island states, the Middle East, and Africa, in addition to Australia, India, Japan, and the US, thereby providing much-needed comparative studies. It also closely investigates the strategic and tactical operationalization of the Indo-Pacific, making it an essential read for scholars, policymakers, students, and strategists in the field of international politics and Area Studies.

Excerpt from the foreword by ABE Shinzō, former Prime Minister of Japan: "I think this book is the timeliest attempt to bring together the wisdom of eleven people to present a multifaceted view of the FOIP (Free and Open Indo-Pacific). As a reader, I would like to express my gratitude to the editors and contributors for their valuable intellectual contributions. See the preview function on this website to access the full text."

Reported Speech in Chinese and English Newspapers XIN Bin, GAO Xiaoli, 2021-05-25. Reported speech is a universal form across human languages. However, previous studies have tended to be limited because they mostly emphasize on the form and authenticity of reported speech, while its discourse and pragmatic functions have largely been ignored. Meanwhile, the studies mainly focus on English with a comparative perspective with other languages largely missing. Acknowledging these limitations, this book analyzes the textual and pragmatic functions of reported speech in Chinese and English. The authors build a corpus comprising of twelve Chinese and English newspapers, including *China Daily* and *The New York Times*. They examine the classification and distribution of reported speech, the form and function in different news genres and contexts, and the socio-pragmatic interpretation of reported speech in news and other issues. This title can enrich comparative linguistic research, verify the feasibility of combining critical linguistics and corpus technology, and help improve the production and understanding of news reports. Students and scholars of critical discourse analysis, comparative linguistics, corpus linguistics, as well as communication studies, will find this to be an essential guide.

The Legal Image of China in Chinese Legal Tradition Xiaobo Dong, **Danger Zone: The Coming Conflict with China** Michael Beckley, Hal Brands, 2022-08-16. A provocative and urgent analysis of the U.S.-China rivalry. It has become conventional wisdom that America and China are running a superpower marathon that may last a century. Yet Hal Brands and Michael Beckley pose a counterintuitive question: What if the sharpest phase of that competition is more like a decade long?

sprint The Sino American contest is driven by clashing geopolitical interests and a stark ideological dispute over whether authoritarianism or democracy will dominate the 21st century But both history and China s current trajectory suggest that this rivalry will reach its moment of maximum danger in the 2020s China is at a perilous moment strong enough to violently challenge the existing order yet losing confidence that time is on its side Numerous examples from antiquity to the present show that rising powers become most aggressive when their fortunes fade their difficulties multiply and they realize they must achieve their ambitions now or miss the chance to do so forever China has already started down this path Witness its aggression toward Taiwan its record breaking military buildup and its efforts to dominate the critical technologies that will shape the world s future Over the long run the Chinese challenge will most likely prove more manageable than many pessimists currently believe but during the 2020s the pace of Sino American conflict will accelerate and the prospect of war will be frighteningly real America Brands and Beckley argue will still need a sustainable approach to winning a protracted global competition But first it needs a near term strategy for navigating the danger zone ahead Smokeless War Manoj Kewalramani,2021-06-28 In January 2020 the COVID 19 outbreak in China was viewed as a black swan event threatening the Communist Party s rule Two short months later however China appeared to have controlled the virus while the rest of the world struggled to respond As country after country imposed lockdowns of varying strictness and the human cost began to rise geopolitical frictions flared up over the origins of the virus along with Beijing s early failures diplomacy and discourse Smokeless War China s Quest for Geopolitical Dominance offers a gripping account of the Communist Party of China s political diplomatic and narrative responses during the pandemic Drawing on the latest academic research and Chinese language sources it discusses the Party State s efforts to achieve greater discourse power and political primacy as it sought to convert a potentially existential crisis into a historic opportunity In doing so the author provides an insightful account of the Communist Party of China s approaches to cultivating sources of strength and exercise of power Report to Congress of the U.S.-China Economic and Security Review Commission U.S.-China Economic and Security Review Commission,2014
