*A Race of Singers* Bryan K. Garman, 2018-07-25 When Walt Whitman published Leaves of Grass in 1855 he dreamed of inspiring a race of singers who would celebrate the working class and realize the promise of American democracy By examining how singers such as Woody Guthrie Bob Dylan and Bruce Springsteen both embraced and reconfigured Whitman s vision Bryan Garman shows that Whitman succeeded In doing so Garman celebrates the triumphs yet also exposes the limitations of Whitman s legacy While Whitman s verse propounded notions of sexual freedom and renounced the competitiveness of capitalism it also safeguarded the interests of the white workingman often at the expense of women and people of color Garman describes how each of

Whitman's successors adopted the mantle of the working class hero while adapting the role to his own generation's concerns Guthrie condemned racism in the 1930s Dylan addressed race and war in the 1960s and Springsteen explored sexism racism and homophobia in the 1980s and 1990s But as Garman points out even the Boss like his forebears tends to represent solidarity in terms of white male bonding and homosocial allegiance We can hear America singing in the voices of these artists Garman says but it is still the song of a white male America

**Twentieth-Century Sentimentalism** Jennifer A. Williamson, 2013-12-15 Today's critical establishment assumes that sentimentalism is an eighteenth and nineteenth century literary mode that all but disappeared by the twentieth century In this book Jennifer Williamson argues that sentimentalism is alive and well in the modern era By examining working class literature that adopts the rhetoric of feeling right in order to promote a proletarian or humanist ideology as well as neo slave narratives that wrestle with the legacy of slavery and cultural definitions of African American families she explores the ways contemporary authors engage with familiar sentimental clichés and ideals Williamson covers new ground by examining authors who are not generally read for their sentimental narrative practices considering the proletarian novels of Grace Lumpkin Josephine Johnson and John Steinbeck alongside neo slave narratives written by Margaret Walker Octavia Butler and Toni Morrison Through careful close readings Williamson argues that the appropriation of sentimental modes enables both sympathetic thought and systemic action in the proletarian and neo slave novels under discussion She contrasts appropriations that facilitate such cultural work with those that do not including Kathryn Stockett's novel and film *The Help* The book outlines how sentimentalism remains a viable and important means of promoting social justice while simultaneously recognizing and exploring how sentimentality can further white privilege Sentimentalism is not only alive in the twentieth century It is a flourishing rhetorical practice among a range of twentieth century authors who use sentimental tactics in order to appeal to their readers about a range of social justice issues This book demonstrates that at stake in their appeals is who is inside and outside of the American family and nation

*Combating Injustice* Jon Falsarella Dawson, 2022-05-04 In *Combating Injustice* Jon Falsarella Dawson approaches American literary naturalism as a means of social criticism exploring the powerful economic arguments and commentaries on labor struggles presented in novels by Frank Norris Jack London and John Steinbeck Making use of extensive archival research Dawson considers many of the original periodical sources that fueled books from *McTeague* to *The Grapes of Wrath* as Norris London and Steinbeck transformed contemporary materials into illustrations of the socioeconomic forces that shape American life By depicting the operations of powerful individuals and institutions these naturalist writers offered audiences a greater awareness of the plight of labor so that readers might find the inspiration to become agents of change Works such as *The Octopus* *The Iron Heel* *Martin Eden* and *In Dubious Battle* illuminate many of the central economic issues at play in the United States during the late nineteenth and early twentieth centuries including the rise of commodity culture labor disputes involving industrial and agricultural workers widespread poverty extreme inequality and the concentration of

resources and land ownership Norris London and Steinbeck highlighted the dangers of these developments by charting their impact on central characters whose fates result from the predatory tactics of corporate monopolies wealthy individuals and large financial establishments Dawson's lucid analysis shows how all three writers drawing on contemporary events accentuated the need for reform and stressed the potential for change by human action Each author took inspiration from notable events in California ranging from the Mussel Slough tragedy of 1880 to the agricultural strikes in the Central Valley during the 1930s presenting the state as a microcosm for conditions throughout the nation during a period of tremendous upheaval Combating Injustice The Naturalism of Frank Norris Jack London and John Steinbeck provides carefully contextualized readings of three major writers whose works express both the necessity for and the possibility of creating a more egalitarian society *John Steinbeck and the Critics* John Ditsky, 2000 This resource offers a fascinating survey of the changing fortunes of Steinbeck's critical reputation Criticism *Writing Across Worlds* John Connell, Russell King, Paul White, 2002-11 Drawing on a wide range of migrants writings this collection reveals an extraordinary diversity of global migratory experience while illustrating the realities and emotions shared by all who leave their home and culture and must adapt to another **The Angelic Mother and the Predatory Seductress** Ashley Craig Lancaster, 2012-06-20 In *The Angelic Mother and the Predatory Seductress* Ashley Craig Lancaster examines how converging political and cultural movements helped to create dualistic images of southern poor white female characters in Depression era literature While other studies address the familial and labor issues that challenged female literary characters during the 1930s Lancaster focuses on how the evolving eugenics movement reinforced the dichotomy of altruistic maternal figures and destructive sexual deviants According to Lancaster these binary stereotypes became a new analogy for hope and despair in America's future and were well utilized by Depression era politicians and authors to stabilize the country's economic decline As a result the complexity of women's lives was often overlooked in favor of stock characters incapable of individuality Lancaster studies a variety of works including those by male authors William Faulkner Erskine Caldwell and John Steinbeck as well as female novelists Mary Heaton Vorse Myra Page Grace Lumpkin and Olive Tilford Dargan She identifies female stereotypes in classics such as *To Kill a Mockingbird* and in the work of later writers Dorothy Allison and Rick Bragg who embrace and share in a poor white background *The Angelic Mother and the Predatory Seductress* reveals that these literary stereotypes continue to influence not only society's perception of poor white southern women but also women's perception of themselves **American Houses: Literary Spaces of Resistance and Desire**, 2022-08-15 Already in 1854 Henry David Thoreau had declared in *Walden* that Most men appear never to have considered what a house is 225 Like Thoreau many other renowned American writers have considered what houses are and particularly what houses do and they have created fictional dwellings that function not only as settings but as actual central characters in their works The volume is specifically concerned with the structure the organization and the objects inside houses and argues that the space defined by rooms and their contents

influences the consciousness the imaginations and the experiences of the humans who inhabit them Winner of the Spanish Association for American Studies Javier Coy Award 2022 for best edited volume Contributors are Cristina Alsina R squez Rodrigo Andr s Vicent Cucarella Ramon Arturo Corujo Mar Gallego Ian Green Michael Jonik Wyn Kelley Cynthia Lytle Carme Manuel Paula Mart n Salv n Elena Ortells Eva Puyuelo Ure a Dolores Resano and Cynthia Stretch

**Critical Companion to John Steinbeck** Jeffrey D. Schultz, Luchen Li, 2005 Celebrates the American writer who in his works confronted and explored the social fabric of the United States in the early 20th century More than 500 entries include synopses of his novels short stories and nonfiction descriptions of his characters details about family friends and associates

*Northrop Frye and American Fiction* Claude Le Fustec, 2015-01-15 Northrop Frye and American Fiction challenges recent interpretations of American fiction as a secular pursuit that long ago abandoned religious faith and the idea of transcendent experiences Inspired by recent philosophical thinking on post secularism and by Northrop Frye s theorizing on the connections between the Bible and the development of Western literature Claude Le Fustec presents insightful readings of the presence of transcendence and biblical imagination in canonical novels by American writers ranging from Nathaniel Hawthorne to Toni Morrison Examining these novels through the lens of Frye s ambitious account of literature s transcendent or kerygmatic power Le Fustec argues that American fiction has always contained the seeds of a rejection of radical skepticism and a return to spiritual experience Beyond an insightful analysis of Frye s ideas Northrop Frye and American Fiction is powerful testimony of their continued interpretive potential

**The Post-Utopian Imagination** M. Keith Booker, 2002-01-30 In America the long 1950s were marked by an intense skepticism toward utopian alternatives to the existing capitalist order This skepticism was closely related to the climate of the Cold War in which the demonization of socialism contributed to a dismissal of all alternatives to capitalism This book studies how American novels and films of the long 1950s reflect the loss of the utopian imagination and mirror the growing concern that capitalism brought routinization alienation and other dehumanizing consequences The volume relates the decline of the utopian vision to the rise of late capitalism with its expanding globalization and consumerism and to the beginnings of postmodernism In addition to well known literary novels such as Nabokov s *Lolita* Booker explores a large body of leftist fiction popular novels and the films of Alfred Hitchcock and Walt Disney The book argues that while the canonical novels of the period employ a utopian aesthetic that aesthetic tends to be very weak and is not reinforced by content The leftist novels on the other hand employ a realist aesthetic but are utopian in their exploration of alternatives to capitalism The study concludes that the utopian energies in cultural productions of the long 1950s are very weak and that these works tend to dismiss utopian thinking as naive or even sinister The weak utopianism in these works tends to be reflected in characteristics associated with postmodernism
