New Forms Of Worship:

New Forms of Worship James F. White, 1971-01-01 **Ways of Worship for New Forms of Mission** Scott Francis Brenner, 1968 **God's Party** David James Randolph, 1975 **Transformative Worship** Laurene Beth Bowers, 2017-02-20

When people felt obligated to attend worship as in 1955 it didn't matter whether or not their religious needs were being met. But since our culture has shifted to giving people a choice they are seeking something meaningful during worship something which helps them to change their lives. In the church we talk a lot about changing people's lives but we do not articulate what it is that the church has to offer to those seeking to do so. The author explores what happens during worship to provide a transformative experience and identifies which forms of worship are most conducive to this process. The focus here is on small groups bible study and forms of interaction between and among leaders and worshippers. For pastors and leaders discerning what forms of worship to experiment with in order to connect with seekers in their community and bring visitors back a second Sunday this book offers easy to implement practical ideas for church growth.

Relying on their many years of experience in this area Jane Thibault and Richard Morgan offer this book to provide a fresh hopeful model of dealing with life and death in the realm of Alzheimer's and other forms of dementia. Caregivers have two basic needs affirmation that caregiving is not in vain and reassurance that the lives of those for whom they care are not being lived in vain. Losing the Sacred Ritual and Liturgy David Torevell, 2004-11-11 This book argues that the liturgical reforms initiated by the second Vatican Council may have seriously undermined contemporary Roman Catholic worship Drawing on important work by Durkheim Bauman Foucault Turner Duffy Flanagan and Pickstock David Torevell focuses on the most crucial element of Catholic worship the experience of the sacred and examines how it has been eroded since pre modern times largely due to the marginalisation of ritual expression and its consequences A devastating critique of the loss of the sacred in worship this striking interdisciplinary study is a call for revitalisation of Roman Catholic liturgy through a reform of the reform and the reclamation of the importance of the body in ritual expression

Belief in Media Mary E. Hess, 2020-07-24 Most works on media developments and Christianity approach the subject from the perspective of the implications of new media technologies for traditional Christian practices or how churches can use new media to further their goals The common framework of analysis is a given reality of traditional institutional Christianity and how it interacts with affects and is affected by media Media are treated as a separate cultural reality This book presents in an accessible form the new directions that approach the interaction of media and religion from a cultural perspective and illustrates these new directions by a number of international and intercultural case studies and explorations Looking at how global media are constructing cultural forms structures and processes the authors show how these have become the life out of which individual and social meaning is created and practised Examining how individuals create religious meaning by interacting with media of various kinds crossing boundaries of traditional religious cultures and contemporary media cultures this book reveals how Christian institutions are also defined in the process of living culturally within their broader media context
