New Global Dangers Changing Dimensions Of International Security International Security Readers:

New Global Dangers Michael Edward Brown, 2004 Command of the commons the military foundation of U S Hegemony Barry R Posen Why do states build nuclear weapons Three models in search of a bomb Scott D Sagan Never say never again nuclear reversal revisited Ariel E Levite Preventing nuclear entrepreneurship in Russia's nuclear cities Sharon K Weiner Pathogens as weapons the international security implications of biological warfare Gregory Koblenz Dreaded risks and the control of biological weapons Jessica Stern Beyond the MTCR building a comprehensive regime to contain ballistic missile proliferation Dinshaw Mistry Human security paradigm shift or hot air Roland Paris Security stability and international migration Myron Weiner HIV AIDS and the changing landscape of war in Africa Stefan Elbe Collateral damage humanitarian assistance as a cause of conflict Sarah Kenyon Lischer Market civilization and its clash with terror Michael Moussseau T

Global Dangers Sean M. Lynn-Jones, Steven E. Miller, 1995 Analyses some of the new issues that are raising the temperature of contemporary world politics Environmental scarcity international migration and nationalism **Offense, Defense, and War** Michael E. Brown, Owen R. Cote, Jr., Sean M. Lynn-Jones, Steven E. Miller, 2004-10-15 An overview of offense defense theory which argues that the relative ease of offense and defense varies in international politics Offense defense theory argues that the relative ease of offense and defense varies in international politics When the offense has the advantage military conquest becomes easier and war is more likely the opposite is true when the defense has the advantage The balance between offense and defense depends on geography technology and other factors This theory and the body of related theories has generated much debate and research over the past twenty five years This book presents a comprehensive overview of offense defense theory It includes contending views on the theory and some of the most recent attempts to refine and test it **Nigeria's Resource Wars** Egodi Uchendu, 2021-03-02 Nigeria's Resource Wars reflects on the diversity of conflicts over access to and allocation of resources in Nigeria From the devastating effects of crude oil exploration in the Niger Delta to desertification caused by climate change and illegal gold mining in Zamfara to mention a few Nigeria faces new dimensions of resource related struggles The ravaging effects of these resource conflicts between crop farmers and Fulani herders in Nigeria's Middlebelt and states across Southern Nigeria call for urgent scholarly interventions with the Fulani cattle breeders onslaught altering the histories of many Nigerian families through deaths loss of homes and investments and permanent physical incapacity Currently there is an almost total breakdown of interethnic relations with political commentators acknowledging that Nigeria has never been so divided as it presently is in its history The struggles have now degenerated into kidnaps armed robbery and incessant targeted and random killings across the country compounding the already complex problem of insecurity in Nigeria The chapters in this volume engage with these issues presenting the different arguments on resource conflicts in Nigeria They draw insights from similar conflicts in Nigeria's colonial post independence past and events from around the world to proffer possible solutions to resource related

confrontations in Africa By offering a collection of different intellectual perspectives on resource conflicts in Nigeria this volume will be an important reference material for understanding the diversity of thought patterns that underpin the struggle and policy approaches towards resolving conflict situations in Africa This volume will be of considerable interest to scholars of Africa researchers in the humanities social sciences and conflict studies and policymakers interested in understanding the resource crisis in Africa

Primacy and Its Discontents Michael E. Brown, Owen R. Cote, Sean M. Lynn-Jones, Steven E. Miller, 2009-01-30 Experts consider whether American primacy will endure or if the future holds a multipolar world of several great powers The unprecedented military economic and political power of the United States has led some observers to declare that we live in a unipolar world in which America enjoys primacy or even hegemony At the same time public opinion polls abroad reveal high levels of anti Americanism and many foreign governments criticize U S policies Primacy and Its Discontents explores the sources of American primacy including the uses of U S military power and the likely duration of unipolarity It offers theoretical arguments for why the rest of the world will or will not align against the United States Several chapters argue that the United States is not immune to the long standing tendency of states to balance against power while others contend that wise U S policies the growing role of international institutions and the spread of liberal democracy can limit anti American balancing The final chapters debate whether countries are already engaging in soft balancing against the United States The contributors offer alternative prescriptions for U S foreign policy ranging from vigorous efforts to maintain American primacy to acceptance of a multipolar world of several great powers Contributors Gerard Alexander Stephen Brooks John G Ikenberry Christopher Layne Keir Lieber John Owen IV Robert Pape T V Paul Barry Posen Kenneth Waltz William Wohlforth

Environmental Change and Security Project Report, 1996

Contending with Terrorism Michael E. Brown, Owen R. Cote, Jr., Sean M. Lynn-Jones, Steven E. Miller, 2010-07-09 Experts explore the sources of contemporary terrorism what terrorists want and how the United States and other countries should respond Since the attacks of September 11 2001 scholars and policy analysts in national security have turned their attention to terrorism considering not only how to prevent future attacks but also the roots of the problem This book offers some of the latest research in terrorism studies The contributors examine the sources of contemporary terrorism discussing the impact of globalization the influence of religious beliefs and the increasing dissatisfaction felt by the world's powerless They consider the strategies and motivations of terrorists offering contending perspectives on whether or not terrorists can be said to achieve their goals explore different responses to the threat of terrorism discussing such topics as how the United States can work more effectively with its allies and contemplate the future of al Qaeda asking if its networked structure is an asset or a liability The essays in Contending with Terrorism address some of the central topics in the analysis of contemporary terrorism They promise to guide future policy and inspire further research into one of the most important security issues of the twenty first century Contributors Max Abrahms Daniel Byman Erica Chenoweth Audrey Kurth Cronin Ren e de Nevers Mette

Eilstrup Sangiovanni Hillel Frisch Calvert Jones Andrew Kydd Sean M Lynn Jones Elizabeth McClellan Nicholas Miller Assaf Moghadam Michael Mousseau Rysia Murphy William Rose Paul Staniland Robert Trager Barbara Walter Dessislava Zagorcheva **The Gender and Security Agenda** Chantal de Jonge Oudraat, Michael E. Brown, 2020-05-27 This book examines the gender dimensions of a wide array of national and international security challenges The volume examines gender dynamics in ten issue areas in both the traditional and human security sub fields armed conflict post conflict terrorism military organizations movement of people development environment humanitarian emergencies human rights governance The contributions show how gender affects security and how security problems affect gender issues Each chapter also examines a common set of key factors across the issue areas obstacles to progress drivers of progress and long term strategies for progress in the 21st century The volume develops key scholarship on the gender dimensions of security challenges and thereby provides a foundation for improved strategies and policy directions going forward The lesson to be drawn from this study is clear if scholars policymakers and citizens care about these issues then they need to think about both security and gender This will be of much interest to students of gender studies security studies human security and International Relations in general The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Bulletin of the Atomic Scientists, 2004 **Global Politics in the 21st Century** Robert J. Jackson, 2013-09-16 Objective critical optimistic and with a global focus this textbook combines international relations theory history up to date research and current affairs to give students a comprehensive unbiased understanding of international politics It integrates theory and traditional approaches with globalization and research on such topics as terrorism new economic superpowers and global communications and social networking to offer unusual breadth and depth for an undergraduate course The text is enhanced by box features and Close Up sections with context and further information Critical Case Studies highlighting controversial and complex current affairs that show how the world works in practice and questions to stimulate discussion review key concepts and encourage further study Unlike any other textbook **Global Politics in the 21st Century** demonstrates the significance and interconnectivity of globalization and new security challenges in the twenty first century and illuminates the role of leadership in transnational crises **Understanding International Relations** Chris Brown, 2019-01-10 The fifth edition of this bestselling textbook offers a comprehensive and engaging introduction to International relations and has been fully updated to cover the dramatic changes in recent world politics Written in the author's unique and engaging style the text explores everything from foreign policy and security to global governance and the global economy to show how the theories and concepts Brown outlines are the only way to make sense of contemporary issues and events With reference to such diverse events as Brexit the Russian armed conflict in Ukraine the financial crisis the rise of China and the challenges of identity politics the author expertly shows how the range of theories presented in the book allow for an understanding of the

destabilising events and developments that characterise global politics today and will continue to do so in the future This text remains the definitive guide to understanding international relations and is suitable for undergraduate and postgraduate students of international relations at any stage of their studies New to this Edition Thoroughly updated to showcase the breadth of the latest research and key thinkers in international relations theory Entirely rewritten chapter on the development of human rights and international criminal law Brand new chapter that offers a sophisticated and up to date analysis of the current state of world politics

08-11-2016,□□□□□□ Smart Power 2017 **East Asian Security** Michael Edward Brown,Sean M. Lynn-Jones,Steven E. Miller,1996 East Asian Security examines some of the most important strategic questions about the future of East Asia It includes provocative essays that explore the overall prospects for war peace and stability in the region Other essays focus on the likely strategies that China and Japan will pursue at the dawn of the next millennium Students scholars and analysts of contemporary issues will find East Asian Security to be a stimulating and valuable overview of these questions *America's Strategic Choices, revised edition* Michael E. Brown,Owen R. Cote, Jr.,Sean M. Lynn-Jones,Steven E. Miller,2000-07-18 Contending perspectives on the future of US grand strategy More than a decade has passed since the end of the Cold War but the United States has yet to reach a consensus on a coherent approach to the international use of American power The essays in this volume present contending perspectives on the future of U S grand strategy U S policy options include primacy cooperative security selective engagement and retrenchment This revised edition includes additional and more recent analysis and advocacy of these options The volume includes the Clinton administration s National Security Strategy for a New Century the most recent official statement of American grand strategy so readers can compare proposed strategies with the official U S government position Rational Choice and Security Studies Michael E. Brown,Owen R. Cote, Jr.,Sean M. Lynn-Jones,Steven E. Miller,2000-07-18 Opposing views on the merits of formal rational choice approaches as they have been applied to international security studies Formal theories and rational choice methods have become increasingly prominent in most social sciences in the past few decades Proponents of formal theoretical approaches argue that these methods are more scientific and sophisticated than other approaches and that formal methods have already generated significant theoretical progress As more and more social scientists adopt formal theoretical approaches critics have argued that these methods are flawed and that they should not become dominant in most social science disciplines Rational Choice and Security Studies presents opposing views on the merits of formal rational choice approaches as they have been applied in the subfield of international security studies This volume includes Stephen Walt s article Rigor or Rigor Mortis Rational Choice and Security Studies critical replies from prominent political scientists and Walt s rejoinder to his critics Walt argues that formal approaches have not led to creative new theoretical explanations that they lack empirical support and that they have contributed little to the analysis of important contemporary security problems In their replies proponents of rational choice

approaches emphasize that formal methods are essential for achieving theoretical consistency and precision The Rise of China Michael E. Brown, 2000 Analysts debate the international implications of a newly powerful China China's relentless economic growth in the 1980s and 1990s heralded its emergence as a great power in world politics As its economy expanded China seemed poised to become the second largest economy in the world At the same time it modernized its military and adopted a more assertive diplomatic posture Many observers have begun to debate the international implications of China's rise Some analysts argue that China will inevitably pose a threat to peace and security in East Asia A few even predict a new cold war between Beijing and Washington Others claim that a powerful China can remain benign None believes that China can be ignored The essays in this volume assess China's emerging capabilities and intentions debate the impact that China will have on security in the Asia Pacific region and propose policies for the United States to adopt in its relations with China

Nationalism and Ethnic Conflict, revised edition Michael E. Brown, Owen R. Cote, Jr., Sean M. Lynn-Jones, Steven E. Miller, 2001-09-14 Understanding the roots and causes of ethnic animosity analyses of recent events in Bosnia Kosovo Rwanda Somalia and the former Soviet Union Most recent wars have been complex and bloody internal conflicts driven to a significant degree by nationalism and ethnic animosity Since the end of the Cold War dozens of wars in Bosnia Kosovo Rwanda Somalia the former Soviet Union and elsewhere have killed or displaced millions of people Understanding and controlling these wars has become one of the most important and frustrating tasks for scholars and political leaders This revised and expanded edition of *Nationalism and Ethnic Conflict* contains essays from some of the world's leading analysts of nationalism ethnic conflict and internal war The essays from the first edition have been updated and supplemented by analyses of recent conflicts and new research on the resolution of ethnic and civil wars The first part of the book addresses the roots of nationalistic and ethnic wars focusing in particular on the former Yugoslavia The second part assesses options for international action including the use of force and the deployment of peacekeeping troops The third part examines political challenges that often complicate attempts to prevent or end internal conflicts including refugee flows and the special difficulties of resolving civil wars Perils of Anarchy Michael E. Brown, Sean M. Lynn-Jones, Steven E. Miller, 1995-03-27

Current debates about the nature of international politics have centered on the clash between supporters and critics of realism The *Perils of Anarchy* brings together a number of recent essays written in the realist tradition It includes realist interpretations of the collapse of the Cold War order and of the emerging order that has replaced it the sources of alignment and aggression and the causes of peace A final section provides a counterpoint by raising criticisms of and alternatives to the realist approach Contributors Charles L. Glaser Christopher Layne Peter Liberman Lisa L. Martin John J. Mearsheimer Paul Schroeder Randall Schweller Stephen M. Walt Kenneth N. Waltz William C. Wohlforth Fareed Zakaria *An International Security Reader* *Debating the Democratic Peace* Michael E. Brown, Sean M. Lynn-Jones, Steven E. Miller, 1996-05-10 Are democracies less likely to go to war than other kinds of states This question is of tremendous importance in both academic

and policy making circles and one that has been debated by political scientists for years The Clinton administration in particular has argued that the United States should endeavor to promote democracy around the world This timely reader includes some of the most influential articles in the debate that have appeared in the journal *International Security* during the past two years adding two seminal pieces published elsewhere to make a more balanced and complete collection suitable for classroom use

Introduction to International Relations Robert H. Jackson, Georg Sørensen, 2016 This edition provides a systematic introduction to the principle theories in international relations It focuses on the main theoretical traditions realism liberalism international society and theories of international political economy It also includes two chapters on social constructivism and foreign policy
