In the nineteenth century, restaurants served French food to upper-class Americans with aristocratic pretensions, but by the turn of the century, even the best restaurants cooked ethnic and American foods for middle-class urbanites. In Turning the Tables, Andrew P. Haley examines how the transformation of public dining that established the middle class as the arbiter of American culture was forged through battles over French language, menus, scientific eating, cosmopolitan cuisines, unescorted women, un-American tips, and servantless restaurants. **Ethnic American Food Today: A Cultural Encyclopedia** Lucy M. Long, 2015-07-17. Ethnic American Food Today introduces readers to the myriad ethnic food cultures in the U.S. today. Entries are organized alphabetically by nation and present the background and history of each food culture along with explorations of the place of that food in mainstream American society today. Many of the entries draw upon ethnographic research and personal experience, giving insights into the meanings of various ethnic food traditions as well as into what, how, and why people of different ethnicities are actually eating today. The entries look at foodways, the network of activities surrounding food itself, as well as the beliefs and aesthetics surrounding that food and the changes that have occurred over time and place. They also address stereotypes of that food culture and the culture's influence on American eating habits and menus, describing foodways practices in both private and public contexts, such as restaurants, groceries, social organizations, and the contemporary world of culinary arts. Recipes of representative or iconic dishes are included. This timely two-volume encyclopedia addresses the complexity and richness of both ethnicity and food in America today.
