## **New Leadership Into The 21st Century:**

**New Leadership into the 21st Century** Yahya ibn Shabazz, 2003-09-17 Imam W Deen Mohammed said in a public address words make people I believe that a word can be anything that leaves an impression on the minds of human society be it spoken acted out or whatever form it may take all creation is to be seen as a word According to scripture all creation is here as a result of a word spoken by G d so again we say words make people If we can go deeper and look at the mind of the human being and look at what kinds of words that are going into the mental makeup of a person we then can get a better picture of what forms the character of that person We must understand that our physical construction only acts as a vehicle that transports the mind which is the real person So just to view the physical makeup of a person is not really seeing that person at all It is the ideas the activities the words etc that comes from that persons mind that helps us to see the real person So now we can see the importance of understanding a word like leader Leader a person that leads or has commanding influence or authority over others The director conductor or guide Ship the state condition or quality of something Art skill of office So now we see that not only do we still need leaders but also we must have leaders that have the best interest of the people at heart Leaders with the vision the wisdom knowledge and the integrity to know when to stay or change courses so that not only will they be able to get the people to the next level but will also give the people the knowledge so that they may guide themselves through the rough waters of society When we talk about leadership we should understand that for the subject to even come up there has to be something lacking in the minds of the people in term of where we as a people or as a society want to go and how we are going to reach the goals we have set for ourselves In todays society we hear some foolish people make the statement I dont need a leader Or I follow my self I make my own decisions We must understand that theres not a thought or an idea that we can think of that is our very own We are influenced by the environment that we live in We should also realize that this society is not hap hazard but rather very orchestrated Therefore many decisions that we make become life determining In todays society we are lead to think that all accomplishments have to be material With this kind of thinking we can easily see how a person can become so limited in terms of growth and development and a non contributor to the positive development of human society as a whole Many are influenced by the all pervasiveness of the media which contrary to what those in media would have us believe media is not art mimicking life but rather it helps to set the trends of life We see many people with lots of money especially those in the field of entertainment with little or no vision reach their peak in the early stages of their development and then suddenly crash as a result of the trials of life Still others who desire to have these material accomplishments although never rise to that level still they see it as their lifes goal and in their quest for it they use illegal methods which eventually leaves them dead in the streets or locked up behind bars for a good deal of their young lives Then there are those who continue to struggle to make ends meet and those who do manage to make it up the higher end of the economic ladder Too many of these tend to lose their identity because they have been lead to believe that

the goal for the African American community is voting rights or integration and once these goals are achieved then the struggle is over As a consequence of this kind of thinking as African Americans we still see ourselves at the bottom of American society Not only here in America but around the world as well It is unfortunate China's Leadership in the 21st Century David Michael Finkelstein, Maryanne Kivlehan, 2003 Between Fall 2002 and Spring 2003 most of the national leadership of China's party state and military will be replaced by a new generation of officials The accession to power of this Fourth Generation leadership will have profound implications This is an introduction to the new leaders **Cultural Intelligence in the 21st Century** Stephan M. Branch, 2023-11-21 Discover how leadership cultural intelligence and inclusion coalesce to create preeminent global leaders and organizations while driving revenue inclusion and ESG If you are a CEO global leader or part of a global organization you can revolutionize every part of your business by raising your cultural intelligence Cultural Intelligence in the 21st Century explores nine crucial cultural competencies that will transform every part of your business including how you drive inclusion revenue and ESG how you lead global teams for better results how you increase sales and operational performance how you communicate across cultures how you build relationships and trust in other countries In recent years organizations have become fixated on raising Environmental Social and Governance ESG because they recognize that the Millennial and Z generations are largely focused on investing in companies that better align with their personal philosophies Global 2000 companies know this and are redirecting much of their focus to ESG in order to make their organizations more attractive to employees and investors The S in ESG isn't only about social equity it's about understanding the importance of how other countries conduct business Did you know you can solve both at the same time while having a transformative financial impact on your organization How can you build a globally inclusive culture in an organization where everyone feels seen heard and respected if you don't understand how cultures communicate build relationships and trust and show respect differently You can learn the cultural competencies to do business in other countries in order to create a more inclusive environment within a global organization which qualifies as a metric within the ESG rating Cultural Intelligence in the 21st Century gives you the competencies you need to do this Nine Practices of 21st Century Leadership Gary A.
