Tarikhu Farrar, 2020-01-20 The idea of an inherent backwardness of technology and material culture in early sub-Saharan Africa is a persistent and tenacious myth in the scholarly and popular imagination Due to the emergence of the field of African studies and the upsurge in historical and archaeological research in recent decades the stridency of this myth has weakened and the overtly racist content of arguments mustered in its defense have tended to disappear But more important

are transformations in social political and cultural consciousness which have worked to reshape conceptualizations of African peoples their histories and their cultures Precolonial African Material Culture offers a thorough challenge to the myth of technological backwardness V Tarikhu Farrar revisits the early technology of sub Saharan Africa as revealed by recent research and reconsiders long possessed primary historical sources He then explores the ways that indigenous African technologies have influenced the world beyond the African continent

Plant World of the Bible Hans Arne Jensen, 2012-08-03 The dream of paradise and the use of plants in story telling are as old as man The Bible readers need only turn a few pages before meeting a description of paradise and a whole world of known and unknown plants such as aloe barley bdellium cedar fig frankincense pomegranate olive vine and general terms like the lily of the fields Not only Bible readers but everyone interested in botany archaeology or vegetation history can find subjects of interest in the book for references are made both to the rich use of plants in the Bible as well as to use of plants in the surrounding coeval cultures PLANT WORLD OF THE BIBLE includes a comprehensive list of biblical plants found in archaeological excavations in Israel and surrounding countries For the first time it is now possible for most of the biblical plants to refer to archaeological finds dated to the biblical period I find that Dr Jensens work is not only accurate but it is also very interesting This work should be accepted and enjoyed world wide Dr Arnold L Larsen Director and Professor emeritus Colorado State University Ft Collins Colorado USA It is a great pleasure for me to recommend the book PLANT WORLD OF THE BIBLE authored by Hans Arne Jensen This book is a careful description of all plants mentioned in the Bible It provides a botanical description of each plant a discussion of its identification as well as its occurrences in the Bible Furthermore it contains valuable information on archaeological finds of the plants It is well structured and with beautiful colour illustrations and black white drawings The book is a result of the authors thorough botanic knowledge and it is based on recent international scholarly and scientific literature within various fields such as biblical studies archaeology and cultural history Thus the book is the successful outcome of an interdisciplinary work It is an important contribution to the study of the cultural history of the plants as well as the cultural background of the Bible I have no doubt that this book will generate a widespread interest among Biblical readers as well as academics such as botanists archaeologists cultural history scholars and biblical scholars Dr Bodil Ejrnæs Assoc Professor of the Old Testament Faculty of Theology University of Copenhagen Denmark PLANT WORLD OF THE BIBLE is a book of high quality seriously written with knowledge not only from botany but also from archaeology and theology The illustrations deserves a special attention The whole page plates are from about 100 years BC to about 300 years AC and are in that way unique PLANT WORLD OF THE BIBLE is written in a language which is possible to understand without special knowledge in botany or theology it is possible to read for all I highly recommend an English publication of the book Dr Erik Nymann Eriksen Professor emeritus Department of Horticulture University of Copenhagen Denmark a masterpiece that joins the Sacred with Nature and which will delight not only the faithful but also those who have a passion

Textile Production in Pre-Roman Italy Margarita Gleba, 2008-11-05 Older than both ceramics and metallurgy textile production is a technology which reveals much about prehistoric social and economic development This book examines the archaeological evidence for textile production in Italy from the transition between the Bronze Age and Early Iron Ages until the Roman expansion 1000 400 BCE and sheds light on both the process of technological development and the emergence of large urban centres with specialised crafts Margarita Gleba begins with an overview of the prehistoric Appennine peninsula which featured cultures such as the Villanovans and the Etruscans and was connected through colonisation and trade with the other parts of the Mediterranean She then focuses on the textiles themselves their appearance in written and iconographic sources the fibres and dyes employed how they were produced and what they were used for we learn for instance of the linen used in sails and rigging on Etruscan ships and of the complex looms needed to produce twill Featuring a comprehensive analysis of textiles remains and textile tools from the period the book recovers information about funerary ritual the sexual differentiation of labour the spinners and weavers were usually women and the important role the exchange of luxury textiles played in the emergence of an elite Textile production played a part in ancient Italian society's change from an egalitarian to an aristocratic social structure and in the emergence of complex urban communities

Fruits and Nuts Chittaranjan Kole, 2007-03-06 Fruits and Nuts form the largest group among crop plants Several constraints such as long life cycle have caused comparatively slow research progress in the past The chapters on 20 fruit and nut crops authored by 56 renowned scientists from 12 countries include for the first time comprehensive reviews on a variety of fruits and nuts The huge amount of information hitherto dispersed in journals is now available in a clearly structured reference work

The Cambridge History of Ireland: Volume 1, 600-1550 Brendan Smith, 2018-03-31 The thousand years explored in this book witnessed developments in the history of Ireland that resonate to this day Interspersing narrative with detailed analysis of key themes the first volume in The Cambridge History of Ireland presents the latest thinking on key aspects of the medieval Irish experience The contributors are leading experts in their fields and present their original interpretations in a fresh and accessible manner New perspectives are offered on the politics artistic culture religious beliefs and practices social organisation and economic activity that prevailed on the island in these centuries At each turn the question is asked to what extent were these developments unique to Ireland The openness of Ireland to outside influences and its capacity to influence the world beyond its shores are recurring themes Underpinning the book is a comparative outward looking approach that sees Ireland as an integral but exceptional component of medieval Christian Europe

Fruit from the Sands Robert N. Spengler, 2020-09-22 A comprehensive and entertaining historical and botanical review providing an enjoyable and cognitive read Nature The foods we eat have a deep and often surprising past From almonds and apples to tea and rice many foods that we consume today have histories that can be traced out of prehistoric Central Asia along the tracks of the Silk Road to

kitchens in Europe America China and elsewhere in East Asia The exchange of goods ideas cultural practices and genes along these ancient routes extends back five thousand years and organized trade along the Silk Road dates to at least Han Dynasty China in the second century BC Balancing a broad array of archaeological botanical and historical evidence Fruit from the Sands presents the fascinating story of the origins and spread of agriculture across Inner Asia and into Europe and East Asia Through the preserved remains of plants found in archaeological sites Robert N Spengler III identifies the regions where our most familiar crops were domesticated and follows their routes as people carried them around the world With vivid examples Fruit from the Sands explores how the foods we eat have shaped the course of human history and transformed cuisines all over the globe

From Foragers to Farmers Ehud Weiss,2009-08-01 This volume celebrates the career of archaeobotanist Professor Gordon C Hillman Twenty eight papers cover a wide range of topics reflecting the great influence that Hillman has had in the field of archaeobotany Many of his favourite research topics are covered the body of the text being split into four sections Personal reflections on Professor Hillman s career archaeobotanical theory and method ethnoarchaeological and cultural studies and ancient plant use from sites and regions around the world The collection demonstrates as Gordon Hillman believes that the study of archaeobotany is not only valuable but vital for any study of humanity

Archaeology: An Introduction Kevin Greene,2002-11-01 This fourth edition constitutes the most extensive reshaping of the text to date In a lucid and accessible style Kevin Greene explains the discovery and excavation of sites outlines major dating methods gives clear explanations of scientific techniques and examines current theories and controversies New features include a completely new user friendly text design with initial chapter overviews and final conclusions key references for each chapter section an annotated guide to further reading a glossary refreshed illustrations case studies and examples bibliography and full index a new companion website built for this edition providing hyperlinks from contents list to individual chapter summaries which in turn link to key websites and other material an important new chapter on current theory emphasizing the richness of sources of analogy or interpretation available today This new edition provides students with a sound introduction to the field of archaeology and guides them towards further study

Environmental Archaeology Chris Turney,Matthew Canti,Nick Branch,Peter Clark,2014-05-12 Environmental Archaeology Theoretical and Practical Approaches outlines and assesses the various methods used to reconstruct and explain the past interaction between people and their environment Emphasising the importance of a highly scientific approach to the subject the book combines geoarchaeological bioarchaeological archaeobotany and zooarchaeology and geochronological information and examines how these various aspects of archaeology may be used to enhance our knowledge and understanding of past human environments Drawing from both the practical experiences of the authors and cutting edge research Environmental Archaeology Theoretical and Practical Approaches is a valuable contribution to the subject It will be essential reading for students and professionals in archaeology geography and anthropology

Anglo-Saxon England:

Volume 32 Michael Lapidge, Malcolm Godden, Simon Keynes, 2004-07-05 Throughout the centuries of its existence Anglo Saxon society was highly if not widely literate it was a society the functioning of which depended very largely on the written word All the essays in this volume throw light on the literacy of Anglo Saxon England from the writs which were used as the instruments of government from the eleventh century onwards to the normative texts which regulated the lives of Benedictine monks and nuns to the runes stamped on an Anglo Saxon coin to the pseudorunes which deliver the coded message of a man to his lover in a well known Old English poem to the mysterious writing on an amulet which was apparently worn by a religious for a personal protection from the devil The usual comprehensive bibliography of the previous year's publications in all branches of Anglo Saxon studies rounds off the book Environmental Archaeology in Ireland
Eileen M. Murphy, Nicki J. Whitehouse, 2007-10-10 This edited volume of 16 papers provides an introduction to the techniques and methodologies approaches and potential of environmental archaeology within Ireland Each of the 16 invited contributions focuses on a particular aspect of environmental archaeology and include such specialist areas as radiocarbon dating dendrochronology palaeoentomology human osteoarchaeology palynology and geoarchaeology thereby providing a comprehensive overview of environmental archaeology within an Irish context The inclusion of pertinent case studies within each chapter will heighten awareness of the profusion of high standard environmental archaeological research that is currently being undertaken on Irish material The book will provide a key text for students and practitioners of archaeology archaeological science and palaeoecology
