Case Studies in Global Health Ruth Levine, What Works Working Group, 2007 One of the greatest human accomplishments has been the spectacular improvement in health since 1950 particularly in developing countries With death rates falling steadily more progress was made in the health of populations in the past half century than in many earlier millennia A careful look at that success can yield important lessons about how to tackle the challenges of HIV AIDS child health and global health inequities in the future This series of twenty case studies illustrates real life proven large scale success stories in global public health Drawing from a rich evidence base the accessible case write ups highlight experiences in scale up of health technologies strengthening of health systems and the use of health education and policy change to achieve impressive reductions in disease and disability even in the poorest countries An overview chapter draws attention to factors that contributed to the successes Discussion questions help to bring out the main points and provide a point of departure for independent student research *Public Health and Nutrition in Developing Countries (Part I and II)* Sheila Chander Vir, 2015-05-05 The book presents an update on public health and nutrition problems of developing countries with a description of approaches used and efficiency of trials undertaken for addressing these Additionally it highlights the experiences emerging from up scaling intervention programme planning and implementation

The Vitamin A Story Richard D. Semba, 2012 Intriguing reading for specialists and the interested public alike This book shows how vitamin A deficiency before the vitamin was known to scientists affected millions of people throughout history It is a story of sailors and soldiers penniless mothers orphaned infants and young children left susceptible to blindness and fatal infections We also glimpse the fortunate ones who with ample vitamin A rich food escaped this elusive stalker Why were people going blind and dying To unravel this puzzle scientists around the world competed over the course of a century Their persistent efforts led to the identification of vitamin A and its essential role in health As a primary focus of today s international public health efforts vitamin A has saved hundreds of thousands of lives But we discover they could save many more were it not for obstacles erected by political and ideological zealots who lack a historical perspective of the problem Although exhaustively researched and documented this book is written for intellectually curious lay readers as well as for specialists Public health professionals nutritionists and historians of science and medicine have much to learn from this book about the cultural and scientific origins of their disciplines Likewise readers interested in military and cultural history

will learn about the interaction of health society science and politics The author s presentation of vitamin A deficiency is likely to become a classic case study of health disparities in the past as well as the present Nutritional Failure in Ecuador,2007-01-01 Malnutrition especially the stunting of children under five is arguably Ecuador s biggest development challenge Like other Andean countries such as Peru and Bolivia Ecuador has a persistently high stunting rate well above what would be expected given its middle income status Even more worrying over the last decade the trend reduction has virtually stopped The study supports the development of a more coherent and effective nutrition strategy in Ecuador through an analysis of the main nutrition issues based on in depth statistical analysis of a large new household survey dataset ENDEMAIN 2004 and other data sources together with a review of qualitative evidence regarding behavioral and program access obstacles to improved nutritional outcomes It also reviews the existing programs and policies which aim to improve nutritional outcomes considered the available evidence on the efficiency effectiveness targeting and inter programmatic coherence of the programs and projects reviewed and suggests an agenda for policy discussions to improve these outcomes Enabling Indigenous Knowledge Systems in Action Research and Action Learning Mapotse, Tomé Awshar,Tetteh, Emmanuel N. A.,Matsekoleng, Tsebo Kgoto,2025-05-29 After centuries of colonialism and imperialism many indigenous knowledge systems have been purposefully disregarded and forgotten to the point that the vast majority of the public but specifically researchers are completely unaware of their existence By utilizing these systems in conjunction with action learning and action research it can be possible to garner perspective and influence from all types of people regardless of their social or economic standing in working towards an inclusive and prosperous global society Enabling Indigenous Knowledge Systems in Action Research and Action Learning encourages researchers the world over to apply Indigenous Knowledge Systems IKS using Action Research and or Action Learning AR AL approaches in their fields of specialization The AR AL framework approaches and methodologies cut across almost all field of studies Covering topics such as action research and learning coloniality and professional development this book is an excellent resource for researchers academicians educators pre service teachers sociologists and more Policy-Oriented Research Impact Assessment (PORIA) case study on the International Food Policy Research Institute (IFPRI) and the Mexican PROGRESA anti-poverty and human resource investment conditional cash transfer program Behrman, Jere R.,2007-12-10 The objective of this study is to attempt to characterize the influence and impact of IFPRI in relation to the Mexican PROGRESA Oportunidades anti poverty and human resource program with its conditional cash transfers CCT conditional on specific investments in education health and nutrition The paper first describes PROGRESA Oportunidades and estimates of the impact and benefits to costs of this program then discusses the challenges in assessing the influence and impact of IPRRI on and through PROGRESA Oportunidades and then presents the information sources used in this study to attempt to identify the influence and impact of IFPRI on PROGRESA Oportunidades including interviews with 39 key informants as well as various published and unpublished studies and memos publications in the

popular media and on the internet and press releases and other documents With this foundation it next explores the apparent influence and impact of IFPRI on PROGRESA Oportunidades by considering four questions Was the PROGRESA program design influenced by prior IFPRI research Why was IFPRI chosen to undertake the initial impact evaluation of PROGRESA How did the IFPRI evaluation of PROGRESA contribute to the program Were there spillovers of the IFPRI evaluation of PROGRESA *SCN News* ,2005 Scientific and Technical Publication ,2000 *Türkiye food literacy strategy and action plan, 2022-2028* Food and Agriculture Organization of the United Nations,2023-08-08 With a view to expand studies on food literacy and increase their effectiveness the food literacy project began in 2021 Under a technical cooperation framework FAO and the Turkish Government have cooperated and developed the Food Literacy Strategy and Action Plan Being one of the main outputs of the project the the Food Literacy Strategy and Action Plan is aimed to support efforts to improve food literacy in T rkiye Present Knowledge in Nutrition John W.
