Anthony Blair, Charles A. Willard, A. Francisca Snoeck Henkemans, 2012-12-06 This volume of the Argumentation Library contains a collection of twenty-six theoretical contributions to the study of argumentation Together they provide an overview of recent developments in the theory of argumentation which does justice to the theoretical variety in the field In *Anyone Who Has a View* the subject of argumentation is approached from different angles Both the formal and informal logical approaches and the rhetorical and communicative approaches are represented in various ways We are convinced that the collection of essays as a whole will be of interest not only to those engaged directly in the study of argumentation but also to scholars from a variety of disciplines who are interested in the recent developments in this field The book opens with an essay by the informal logician Robert C Pinto For all the differences between them James B Freeman Harvey Siegel Ralph H Johnson Hans V Hansen and J Anthony Blair are also prominent members of that movement Some informal logicians either eschew or simply do not use formal methods in their approach to argumentation while others such as David Hitchcock use

both formal and informal methods Erik C W Krabbe is a logician who proudly defends a formal dialectical approach to argumentation Daniel H Cohen Frans H van Eemeren Peter Houtlosser Fred J Kauffeld C Scott Jacobs Christian Kock Christian Plantin Sorin Stati Chris Reed Douglas N **James Bond and Philosophy** James B. South, Jacob M. Held, 2012-03-30 Bond James Bond Since Sean Connery first uttered that iconic phrase in Dr No more than one quarter of the world's population has seen a 007 film Witty and urbane Bond seduces and kills with equal ease often it seems with equal enthusiasm This enthusiasm coupled with his freedom to do what is forbidden to everyone else evokes fascinating philosophical questions Here 15 witty thought provoking essays discuss hidden issues in Bond's world from his carnal pleasures to his license to kill Among the lively topics explored are Bond's relation to existentialism including his graduation beyond good and evil his objectification of women the paradox of breaking the law in order to ultimately uphold it like any stupid policeman the personality of 007 in terms of Plato's moral psychology and the Hegelian quest for recognition evinced by Bond villains A reference guide to all the Bond movies rounds out the book's many pleasures Milton Friedman Jennifer Burns, 2023-11-14 An Economist Best Book of 2023 One of The New York Times 33 Nonfiction Books to Read This Fall Named a most anticipated fall book by the Chicago Tribune and Bloomberg Finalist for the 2024 Hayek Book Prize Wherever you sit on the political spectrum there's a lot to learn from this book More than a biography of one controversial person it's an intellectual history of twentieth century economic thought Greg Rosalesky NPR's Planet Money The first full biography of America's most renowned economist Milton Friedman was alongside John Maynard Keynes the most influential economist of the twentieth century His work was instrumental in the turn toward free markets that defined the 1980s and his full-throated defenses of capitalism and freedom resonated with audiences around the world It's no wonder the last decades of the twentieth century have been called the Age of Friedman or that analysts have sought to hold him responsible for both the rising prosperity and the social ills of recent times In Milton Friedman the first full biography to employ archival sources the historian Jennifer Burns tells Friedman's extraordinary story with the nuance it deserves She provides lucid and lively context for his groundbreaking work on everything from why dentists earn less than doctors to the vital importance of the money supply to inflation and the limits of government planning and stimulus She traces Friedman's long-standing collaborations with women including the economist Anna Schwartz his complex relationships with powerful figures such as the Federal Reserve chairman Arthur Burns and the Treasury secretary George Shultz and his direct interventions in policymaking at the highest levels Most of all Burns explores Friedman's key role in creating a new economic vision and a modern American conservatism The result is a revelatory biography of America's first neoliberal and perhaps its last great conservative **A Christian Perspective on Political Thought** Stephen Charles Mott, 1993-05-27 Arguing that Americans make political choices in terms of a general notion of right and wrong yet lack a sound objective foundation for such values evangelical scholar Stephen Mott formulates a Christian political theory that supplies such norms Drawing on

theological and biblical sources Mott thoroughly develops the biblical and theological foundations for politics and political evaluation Mott proposes that political philosophies should be evaluated in light of Christian theological and ethical values specifically the understanding of power human nature the nature of group life justice and love government and time He then applies this critical framework in an evaluation of political ideologies including traditional conservatism liberalism democracy laissez faire conservatism Marxist socialism and democratic socialism He gives special attention to their classical exponents and ideas Asserting that political visions ultimately depend on cultural values that themselves require vigorous religious faith in a particular society Mott's study offers a valuable introduction to Christian political thought as well as an illuminating look at the connection between politics and religion
