Matthew R. Alan Culpepper, 2022-03-01 In this new critical commentary for the New Testament Library series R Alan Culpepper sets the Gospel of Matthew in the context of the competing Jewish and early Christian voices of the first century bringing greater clarity to Matthew s own proclamation of the gospel and inviting readers to give up perhaps long held assumptions about the book In Culpepper s treatment Matthew emerges as a Gospel for a Jewish community distinguishing itself from the Pharisees on one side and other early Christian traditions and leaders especially Paul and his followers on the other side In this framework Matthew calls his community to faithful observance of the law a law observant mission to both Jews and Gentiles and repentance and the practice of forgiving in preparation for the coming judgment Accordingly Matthew takes readers back to an early period before the separation of Jewish Christians from the synagogues By taking seriously Matthew s Jewishness this volume also enables readers to hear the historical Jesus more clearly Excursuses on Matthew s social setting include Jesus as healer Sabbath observance Roman taxation the Pharisees the tithes ancient weddings and the Sanhedrin as well as many shorter units on Second Temple Judaism synagogues and first century Galilean society The New Testament Library series offers authoritative commentary on every book and major aspect of the New Testament providing fresh translations based on the best available ancient manuscripts critical portrayals of the historical world in which the books were created careful attention to their literary design and a theologically perceptive exposition of the biblical text The contributors are scholars of international standing The editorial board consists of C Clifton Black Princeton Theological Seminary John T Carroll Union Presbyterian Seminary and Susan E Hylen Candler School of Theology Emory University

Primordial Landscapes, Incorruptible Bodies Dag Øistein Endsjø, 2008 As the first monk in the desert Antony became an early Christian superstar eclipsing his many ascetic predecessors The introduction of asceticism into the wilderness also represented an encounter between Christian and Hellenistic ideas For centuries Greeks had considered the uncultivated geography intrinsically primordial a chaotic place where man struggled to remain human The wilderness represented an eternal ordeal where man always faced fierce beasts

disorder and death but also where simultaneously he could attain boundless wealth wisdom and even physical immortality Through Athanasius of Alexandria s fourth century biography of Antony we learn how the Christian appropriation of Greek ideas on geography bodies and immortality raised asceticism to an entirely new level Placed in his uncultivated landscape Antony became a true martyr an athlete of God and a holy man able to retrieve the bodily incorruptibility lost in the Fall which all Christians could look forward to at the end of times In this way Athanasius employed a traditional Greek worldview to demonstrate the superiority of Christianity over Paganism which never promised ordinary people anything but an eternal existence as dead and disembodied souls The Peloponnese Ephē Karpodinē-Dēmētriadē,2001 **Old Lands** Christopher Witmore,2020-04-13 Old Lands takes readers on an epic journey through the legion spaces and times of the Eastern Peloponnese trailing in the footsteps of a Roman periegete an Ottoman traveler antiquarians and anonymous agrarians Following waters in search of rest through the lens of Lucretian poetics Christopher Witmore reconstitutes an untimely mode of ambulatory writing chorography mindful of the challenges we all face in these precarious times Turning on pressing concerns that arise out of object oriented encounters Old Lands ponders the disappearance of an agrarian world rooted in the Neolithic the transition to urban styles of living and changes in communication movement and metabolism while opening fresh perspectives on long term inhabitation changing mobilities and appropriation through pollution Carefully composed with those objects encountered along its varied paths this book offers an original and wonderous account of a region in twenty seven segments and fulfills a longstanding ambition within archaeology to generate a polychronic narrative that stands as a complement and alternative to diachronic history Old Lands will be of interest to historians archaeologists anthropologists and scholars of the Eastern Peloponnese Those interested in the long term changes in society technology and culture in this region will find this book captivating **The Oxford History of the Archaic Greek World** Robin Osborne,2025-05-04 The ancient Greek world consisted of approximately 1 000 autonomous polities scattered across the Mediterranean basin and each one developed its own unique set of socio political institutions and social practices The Oxford History of the Archaic Greek World offers twenty two detailed studies of key sites from across the Greek world between c 750 and c 480 BCE a crucial period when much of what is now seen as distinctive about Greek culture emerged All the studies in this seven volume series use the same structure and methodology so that readers can easily compare a wide range of Greek communities The series thus offers a new and unique resource for the study of ancient Greece that will transform how we study and think about a crucial era in ancient Greek history Volume VI contains detailed and up to date studies of Rhodes Sicyon Syracuse Thebes and Western Sicily *The Peloponnese* Ephē Karpodinē-Dēmētriadē,1984 **The ^AOxford History of the Archaic Greek World** Paul Cartledge,Paul Christesen,2025-05-16 The ancient Greek world consisted of approximately 1 000 autonomous polities scattered across the Mediterranean basin and each one developed its own unique set of socio political institutions and social practices The Oxford History of the Archaic Greek World offers twenty two

Genesis Satan and the beast of Revelation The column was inserted into Christian sacred history symbolizing creation and the end times The most enduring interpretation of the column which is unrelated to religion and therefore survived the Ottoman capture of the city is as a talisman against snakes and snake bites It is this tale that was told by travellers to Constantinople throughout the Middle Ages and it is this story that is told to tourists today who visit Istanbul In this book Paul Stephenson twists together multiple strands to relate the cultural biography of a unique monument Minoan Earthquakes Simon Jusseret, Manuel Sintubin, 2017-06-09 Interdisciplinary study on the role of earthquakes in the eastern Mediterranean Does the Minoan myth still stand up to scientific scrutiny Since the work of Sir Arthur Evans at Knossos Crete Greece the romanticized vision of the Cretan Bronze Age as an era of peaceful prosperity only interrupted by the catastrophic effects of natural disasters has captured the popular and scientific imagination Its impact on the development of archaeology archaeoseismology and earthquake geology in the eastern Mediterranean is considerable Yet in spite of more than a century of archaeological explorations on the island of Crete researchers still do not have a clear understanding of the effects of earthquakes on Minoan society This volume gathering the contributions of Minoan archaeologists geologists seismologists palaeoseismologists geophysicists architects and engineers provides an up to date interdisciplinary appraisal of the role of earthquakes in Minoan society and in Minoan archaeology what we know what are the remaining issues and where we need to go Contributors Tim Cunningham Universit catholique de Louvain Jan Driessen Universit catholique de Louvain Charalampos Fassoulas Natural History Museum of Crete University of Crete Christoph Gr tzner RWTH Aachen University University of Cambridge Susan E Hough U S Geological Survey Simon Jusseret The University of Texas at Austin Universit catholique de Louvain Colin F Macdonald The British School at Athens Jack Mason RWTH Aachen University James P McCalpin GEO HAZ Consulting Inc Floyd W McCoy University of Hawaii Windward Clair Palyvou Aristotle University of Thessaloniki Gerassimos A Papadopoulos National Observatory of Athens Klaus Reicherter RWTH Aachen University Manuel Sintubin KU Leuven Jeffrey S Soles University of North Carolina Greensboro Rhonda Suka Research Corporation of the University of Hawaii Eleftheria Tsakanika National Technical University of Athens Thomas Wiatr RWTH Aachen University German Federal Agency for Cartography and Geodesy
