People Environment And Place An Introduction To Human Geography:

People, Environment, and Place Robert P. Larkin, Gary L. Peters, Christopher H. Exline, 1981 A Guide to Information Sources in the Geographical Sciences Stephen Goddard, 1983-01-01 Geography is a wide ranging discipline and the number of information sources available is truly enormous These include printed books and journal articles maps satellite photographs archives statistical information and much else One particular problem facing geographers is that when one studies a foreign country information may be available only in the foreign country and difficult to obtain This book discusses the information sources available to geographers **Human Geography** Erin H. Fouberg, Alexander B. Murphy, 2020-01-22 Fouberg Murphy Human Geography People Place and Culture 12th Edition teaches students to appreciate the diversity of people places and cultures and understand the role people play in shaping our world The goals of this edition are to provide geographic context to global regional national and local issues and to teach students to think geographically and critically about these issues Human Geography features beautifully designed maps dozens of vibrant photographs taken by the author team and author and guest field notes that help students see how geographers read cultural landscapes and use fieldwork to understand places Fouberg s Human Geography 12th Edition now integrates Threshold Concepts to help students develop their ability to think geographically Once they learn and apply one of these concepts in the context of a given place students integrate it into their thinking and can draw from it as they learn new material and explore other places *International Encyclopedia of Human Geography* , 2019-11-29 International Encyclopedia of Human Geography Second Edition Fourteen Volume Set embraces diversity by design and captures the ways in which humans share places and view differences based on gender race nationality location and other factors in other words the things that make people and places different Questions of for example politics economics race relations and migration are introduced and discussed through a geographical lens This updated edition will assist readers in their research by providing factual information historical perspectives theoretical approaches reviews of literature and provocative topical discussions that will stimulate creative thinking Presents the most up to date and comprehensive coverage on the topic of human geography Contains extensive scope and depth of coverage Emphasizes how geographers interact with understand and contribute to problem solving in the contemporary world Places an emphasis on how geography is relevant in a social and interdisciplinary context Human Geography in Action Michael Kuby, John Harner, Patricia Gober, 2013-01-14 Michael Kuby s 6th edition of Human Geography in Action is comprised of 14 stimulating concept based chapters The text aims to develop geographic problem solving skills that prove valuable to readers Each chapter begins with an introduction to a concept followed by a case study tying the concept into the real world and wraps up with an activity These engaging activities featured throughout the text further its Do Geography approach Human Geography in Action provides the opportunity to use GIS to investigate ethnic distributions and culture regions track the AIDS epidemic over space and time model interstate migration flows simulate India s demographic future add new baseball

franchises animate past urban growth and assess future growth areas **Social Virtual Worlds and Their Places** Merrill L. Johnson, 2022-06-11 This book provides a foundational look at social virtual worlds from the geographer's perspective How can the geographer's craft be applied to social virtual worlds This question is addressed through careful analysis of what social virtual worlds are how interest in these worlds has waxed and waned during the twenty first century and the meaning of their concocted spaces Examining one of the key features of the social virtual world the avatar the book focuses on its user's motivations and identity choices The book draws on the geographical understanding of place to examine where avatars live work and roam and describes how virtual world places resemble and diverge from actual world places A mixed methods survey conducted in Second Life adds additional breadth to the discussion whilst a series of vignettes gives extra life to the subject matter This original exploration of the content and meaning of social virtual worlds is an essential resource for geographers and for anyone interested in the virtual world experience **Human Ecology** Mary A. Vance, 1987 **People and Place** Lewis Holloway, Phil Hubbard, 2014-01-14 An innovative introduction to Human Geography exploring different ways of studying the relationships between people and place and putting people at the centre of human geography The book covers behavioural humanistic and cultural traditions showing how these can lead to a nuanced understanding of how we relate to our surroundings on a day to day basis The authors also explore how human geography is currently influenced by postmodern ideas stressing difference and diversity While taking the importance of these different approaches seriously as ways of thinking about the role of place in people's everyday lives the book also tries to encapsulate what has been so vibrant and exciting about human geography over the last couple of decades By using examples to which students can relate such as how they imagine and represent their home the way they avoid certain spaces how they move through retail spaces where they choose to go to university how they use the Internet how they represent other nations and so on the authors show how geography shapes everyday life in a manner that is seemingly mundane yet profoundly important *Subject Catalog* Library of Congress, 1982 *Library Bulletin* Balme Library, 1987 *Handbook on Aging and Place* Malcolm Cutchin, Graham D. Rowles, 2024-04-12 Moving away from studies of aging in place this forward looking Handbook focuses on aging and place offering a broader scope and more nuanced complex and enlightening understanding of these two intertwined universals of human experience Not only examining the latest literature the chapters also challenge current thinking on the many intersections opportunities and issues around place and aging that need to be addressed through policy and practice

Race, Nature, and the Environment Katie Meehan, 2024-11-01 What might it mean to unsettle our disciplinary understanding of race nature and the environment This book assembles diverse voices and approaches in geographic thinking on race and racialization during an era of climate crisis toxic legacies state violence mass extinctions carceral logics and racial injustices that shape and are shaped by the re production of nature The volume advances new critical scholarship on race and racialization in Anglo American geography reflects on its uneven diffusion and unmet challenges and notes the

unstoppable force of insurgent thinking abolition geography critical race theory Black and Indigenous geographies scholar activism and environmental justice praxis in taking hold and transforming the discipline Together the authors work across the vibrant fields of political ecology and human environment geography grapple with timely questions of land water territory and place making render visible the spatial and socioecological reproduction of power and violence by capital and the state and make space for the enduring politics of struggle on multiple registers body home classroom park city community region and world Race Nature and the Environment will interest students academics and researchers in Geography who are keen to learn about disciplinary approaches and debates in relation to race racialization environmental justice and the politics of nature in a world marked by white supremacy The chapters in this book were originally published as a special issue of the *Annals of the American Association of Geographers* *Sense of Place, Health and Quality of Life* John Eyles, Allison Williams, 2008 This important book brings together work related to sense of place and health broadly defined from the perspective of a variety of fields and disciplines It will give the reader an understanding of both the range of applications of this construct withi Representing Place and Territorial Identities in Europe Tiziana Banini, Oana-Ramona Ilovan, 2021-03-16 This book provides insight into the topic of place and territorial identity which involves both the dimension of collective belonging and the politics of territorial planning and enhancement It considers the social economic and political effects of territorial identity representations among others in terms of mystification spatial fetishism and the creation of place and territorial stereotypes A mixed methodology is employed to research case studies at diverse territorial scales which are relevant to the impact of a variety of factors on place territorial identity processes such as migration political and economic changes natural disasters land use changes etc Visual imagery constructing visual discourses and living within visual cultures are placed in the foreground and refer to among others the changes and challenges introduced by the Internet and social networks in place territory representations and self representations identity politics and its impact on place territorial identity representations discourses in shaping representations and self representations of territorial place based identities related to collective memory cultural heritage invented tradition imagined communities and other key notions Space, Place and Mental Health Sarah Curtis, 2016-04-01 There is a strong case today for a specific focus on mental public health and its relation to social and physical environments From a public health perspective we now appreciate the enormous significance of mental distress and illness as causes of disability and impairment Stress and anxiety and other mental illnesses are linked to risks in the environment This book questions how and why the social and physical environment matters for mental health and psychological wellbeing in human populations While putting forward a number of different points of view there is a particular emphasis on ideas and research from health geography which conceptualises space and place in ways that provide a distinctive focus on the interactions between people and their social and physical environment The book begins with an overview of a rich body of theory and research from sociology psychology social epidemiology social

psychiatry and neuroscience considering arguments concerning mind body dualism and presenting a conceptual framework for studying how attributes of space and place are associated with human mental wellbeing It goes on to look in detail at how our mental health is associated with material or physical aspects of our environment such as natural and built landscapes with social environments involving social relationships in communities and with symbolic and imagined spaces representing the personal cultural and spiritual meanings of places These relationships are shown to be complex with potential to be beneficial or hazardous for mental health The final chapters of the book consider spaces of care and the implications of space and place for public mental health policy offering a broader view of how mental health might be improved at the population level With boxed case studies of specific research ideas and methods chapter summaries and suggestions for introductory reading this book offers a comprehensive introduction which will be valuable for students of health geography public health sociology and anthropology of health and illness It also provides an interdisciplinary review of the literature by the author and by other writers to frame a discussion of issues that challenge more advanced researchers in these fields

Young People, Place and Identity Peter E. Hopkins, 2013-05-13 Young People Place and Identity offers a series of rich insights into young people s everyday lives What places do young people engage with on a daily basis How do they use these places How do their identities influence these contexts By working through common sense understandings of young people s behaviours and the places they occupy the author seeks to answer these and other questions In doing so the book challenges and re shapes understandings of young people s relationships with different places and identities The textbook is one of the first books to map out the scales themes and sites engaged with by young people on a daily basis as they construct their multiple identities The scales explored here include the body neighbourhood and community mobilities and transitions and urban rural settings and how these all shape and are shaped by young people s identities Each chapter explores how social identities such as race gender sexuality class disability and religion are constructed within particular contexts and influenced by multiple processes of inclusion and exclusion These discussions are supported by details of the research methods and ethical issues involved in researching young people s lives Drawing upon research from a range of contexts including Europe North America and Australasia this book demonstrates the complex ways in which young people creatively shape contest and resist their engagements with different places and identities The range of issues topics and case studies explored include ethical and methodological issues in youth research youth subcultures experiences of home territorialism youth and crime political engagement and participation responses to global issues engagements with different institutional contexts negotiating public space the transition to adulthood drinking cultures The author explores these issues through blending together original empirical research theory and policy Individual chapters are supported by key themes project ideas and suggested further reading Details of key authors journals and research centres and organisations are also included at the end of the book This textbook will be pertinent for undergraduate and postgraduate students and academic researchers
