**Power to the People** Laura Ingraham, 2008-08-26 If you're like most Americans you've had enough. You're fed up with sell-out politicians who won't defend our borders, a Hollywood that peddles profanity pornography and Al Gore and Rosie O'Donnell as entertainment schools that teach our kids more about condoms than about the Constitution and snooty judges who think it's their job to legislate for us. But there's a way to stop the madness and return power to the people where it belongs. Laura Ingraham, the most listened-to woman in political talk radio, shows us how to take back what is ours. In **POWER TO THE PEOPLE** she provides a riotous take-no-prisoners journey through our besieged culture and gives us a battle plan to remake it anew the way the Founders intended: strong, patriotic, pro-family and unapologetically God-fearing. **El-Hi Textbooks & Serials in Print, 2005** PEOPLE AND PLACES (Scott Foresman Social Studies Grade 2) (S/B) □□□, 2005 **The Trouble with Textbooks** Gary A. Tobin, Dennis R. Ybarra, 2008-01-01 Our elementary middle and high school teaching about Jews, Judaism and Israel is driven by textbook misstatements about Jewish theology, social structure and the history of Israel that comprise an unsavory picture of Jews and Israel. This book will be an extremely valuable reference tool for educators and members of the public interested in religion and the Middle East. *The New Social Studies* Barbara Slater Stern, 2009-11-01 This volume *The New Social Studies: People, Projects and Perspectives* is not an attempt to be the comprehensive book on the era. Given the sheer number of projects, that task would be impossible. However, the current lack of knowledge about the politics, people and projects of the NSS is unfortunate as it often appears that new scholars are reinventing the wheel due to their lack of knowledge about the history of the social studies field. The goal of this book then is to sample the projects and individuals involved with the New Social Studies (NSS) in an attempt to provide an understanding of what came before and to suggest guidance to those concerned with social studies reform in the future, especially in light of the standardization of curriculum and assessment currently underway in many states. The authors who contributed to this project were recruited with several goals in mind, including a broad range of ages, interests and experiences with the NSS from participants during the NSS era through new young scholars who had never heard much about the NSS. As many of the authors remind us in their chapters, much has been written of the failure of the NSS. However, in every chapter of this book the authors also point out the remnants of the projects that remain. *The Social Studies Professional*, 2005 **Handbook of Research in Social Studies Education** Linda S.
