patriarchy that held women in total subjection to men Gender and Sexuality debunks that trope and presents Ghanaian women's dynamism, resilience and vulnerabilities embedded in the diverse cultures in which they live **Sport and English National Identity in a 'Disunited Kingdom'** Tom Gibbons, Dominic Malcolm, 2017-02-17 Given sport's centrality in English society, what role does it play in symbolising contemporary English national identity? This comprehensive study explores the complex set of relationships between sport and what it means to be English in the twenty-first century. The bond between sport and nationalism has long been recognised, but with increasingly vociferous separatist nationalisms threatening the dismantling of the United Kingdom, a closer analysis is timely. Part one addresses key debates regarding English national identity within the specific sporting contexts of association football, cricket, tennis, cycling and rugby. Part two discusses the complex relationship between religion, sport and English national identity, as well as the attitudes and experiences of traditionally marginalized groups, including women, minority ethnic groups and disabled people. Part three considers the perspectives of the other UK nations on the link between sport and English national identity. **Sport and English National Identity in a Disunited Kingdom** is fascinating reading for all those with an interest in the sociology, politics and history of sport and the study of nations, nationalism and national identity. Agricultural Economics Literature United States. Bureau of Agricultural Economics. Library, 1940 **Care in Practice Higher** Janet Miller, Susan Gibb, 2015-09-25 A new edition of the bestselling core textbook *Care in Practice for Higher*. Rubin's book sparked a fierce value controversy with contemporary Soviet economists during the late 1920s. As such, the present translation is conceived as a variorum edition, including for the first time in English all the essential supplementary materials related to this foundational work in Marx's value theory. In addition to Rubin's main work, this edition includes his four most important related publications as well as ten debate articles written and published by his contemporary proponents and opponents. **Ecotourism, NGOs and Development** Jim Butcher, 2007-03-12 This topical book examines the advocacy of tourism as sustainable development in a range of NGOs and within the general literature. It offers a timely critique of key assumptions underlying ecotourism's status as sustainable development. **Classical Sociological Theory** Craig Calhoun, Joseph Gerteis, James Moody, Steven Pfaff, Indermohan Virk, 2012-01-17 This
