Fine,2025-08-19 A razor sharp and quick witted analysis of why we need a new approach to fixing the gender inequality
embedded in work Work remains much as it always has men occupy the vast majority of leadership roles and are
overrepresented in positions from engineer to plumber We see many jobs as male or female with women dominating in
healthcare and childcare professions Pretending that this is the natural state of things or that instead both sexes should
submit to working 24 7 is just not right In Patriarchy Inc Cordelia Fine examines with razor sharp and quick witted analysis
why gender inequality is embedded in the workplace and why it has to change Drawing on theories from evolutionary science
psychology economics and sociology she examines two of the most prominent movements in the corporate world The
Different But Equal viewpoint espouses that women are in the jobs they want despite their lower status and salaries In the
meantime DEI Diversity Equity Inclusion has become a slogan that emphasizes productivity and profit not fair play Fine
shows how both are wrong and the bad effects on everyone when men are still stuck in traditional breadwinner roles and
women are having to fight for their due Offering perceptive and much needed insight into the current state of work
Patriarchy Inc explores how we can get closer to achieving equality even if it means upturning business as usual
