

An abstract graphic consisting of several thick, irregular orange brushstrokes or strokes that sweep across the dark brown background. One prominent stroke starts from the top left, curves down and to the right, and then turns back towards the left. Another stroke is more vertical, starting from the middle and extending towards the bottom right. These strokes create a sense of movement and depth behind the text.

Power And Resistance Critical Thinking About Social Issues In Canada:

Power and Resistance Wayne Antony, 2020-05-06T00:00:00Z How do we make sense of the social problems that continue to plague Canadian society Our understanding of issues such as poverty racism violence homophobia crime and pollution stems from our view of how society is structured From the dominant neoliberal perspective social problems arise from individuals making poor choices From a critical perspective however these social troubles are caused by structural social inequalities Disparities in economic social and political power that is relations of power based on class race gender and sexual orientation are the central structural element of capitalist patriarchal colonialist societies The contributors to *Power and Resistance* use this critical perspective to explore Canadian social issues such as poverty colonialism homophobia violence against women climate change and so on This sixth edition adds chapters on the corporatization of higher education the lethal impacts of colonialism democracy the social determinants of health drug policy and sexual violence on campus

Power and Resistance, 7th ed. Jessica Antony, Wayne Antony, 2022-06-30T00:00:00Z *Power and Resistance* debunks the dominant neoliberal hyper individualist approach to society's problems that sees poverty as a result of laziness environmental crises as a result of market demands for products that pollute and Indigenous Peoples' struggles as a result of not assimilating We argue that it is social inequality and oppression that are the underlying causes of social problems In a society like ours powerful groups make choices that benefit them and force those choices onto others creating life problems for others and society as a whole The powerful also have influence over what is and is not called a social problem Solving social problems requires changing the structures of inequality and oppression For example industrial corporate agriculture has created huge profits for a few gigantic food corporations but left much of the world hungry But farmers and their allies are pushing back through agroecology an agriculture based on local small scale ecologically sustainable farming that brings eaters and growers closer to one another The seventh edition of *Power and Resistance* includes new chapters on anti Black racism in schools Indigenous people and mental health food security and sovereignty and work in the gig economy *Power and Resistance*, 1994 *Power & Resistance* Jessica Antony, Wayne Andrew Antony, Leslie Samuelson, 2022 *Power and Resistance* Leslie Samuelson, 1994

Racisms in a Multicultural Canada Augie Fleras, 2014-04-29 In acknowledging the possibility that as the world changes so too does racism this book argues that racism is not disappearing despite claims of living in a post racial and multicultural world To the contrary racisms persist by transforming into different forms whose intent or effects remain the same to deny and disallow as well as to exclude and exploit *Racisms in a Multicultural Canada* is organized around the assumption that race is not simply a set of categories and that racism is not just a collection of individuals with bad attitudes Rather racism is as much a matter of interests as of attitudes of property as of prejudice of structural advantage as of personal failing of whiteness as of the other of discourse as of discrimination and of unequal power relations as of bigotry This multi dimensionality of racism complicates the challenge of formulating anti racism and anti

colonialist strategies capable of addressing it Employing a critical framework that puts politics and power at the centre of analysis this book focuses on why racisms proliferate how they work in contemporary societies and how the way we think and talk about racism changes over time Specifically it examines the working of contemporary racisms in a multicultural Canada that claims to abide by principles of multiculturalism and a commitment to a post racial society Handbook on Global Social Justice Gary Craig,2018-07-27 In the fifty years since Rawls seminal work A Theory of Justice the concept has been debated with those on the political right and left advocating very different understandings This unique global collection written by a group of international experts offers wide ranging analyses of the meaning of social justice that challenge the ability of the market to provide social justice for all The Handbook also looks at how the theory of social justice informs practice within a range of occupations or welfare divisions *Realizing a Good Life* Elizabeth Comack,2023-04-27T00:00:00Z Realizing a good life is almost always defined in material terms typified by individuals usually men who have considerable wealth But classed gendered and racialized social supports enable the self made man Instead this book turns to Indigenous knowledge about realizing a good life to explore how marginalized men endeavour to overcome systemic inequalities in their efforts to achieve wholeness balance connection harmony and healing Twenty three men most of whom are Indigenous share their stories of this journey For most the pathway started in challenging circumstances intergenerational trauma disrupted families and child welfare interventions racism and bullying and physical and sexual abuse Most coped with the pain through drugging and drinking or joining a street gang setting many on a trajectory to jail Caught in the criminal justice net realizing a good life was even more daunting as their identities and life chances became barriers Some of the men however have made great strides to realize a good life They tell us how they got out of the problem with insights on how to maintain sobriety navigate systemic barriers and forge connections and circles of support Ultimately it comes down to social supports and caring As one man put it change happened when he had to care for somebody else in a way he wanted to be cared for The CSI Effect Michele Byers,Val Marie Johnson,2009-08-16 CSI has been heralded in many spheres of public discourse as a televisual revolution its effects on the public unprecedented The CSI Effect Television Crime and Governance demonstrates that CSI s appeal cannot be disentangled from either its production as a televisual text or the broader discourses and practices that circulate within our social landscape This interdisciplinary collection bridges the gap between the study of media particularly popular culture media and the study of crime The contributors consider the points of intersection between these very different realms of scholarship and in so doing foster the development of a new set of theoretical languages in which the mediated spectacle of crime and criminalization can be carefully considered This timely and groundbreaking volume is bound to intrigue both scholars and CSI enthusiasts alike *Racism and Anti-Racism in Canada* David Este,2020-07-10T00:00:00Z Multiculturalism is regarded as a key feature of Canada s national identity Yet despite an increasingly diverse population racialized Canadians are systematically excluded from full participation in society

through personal and structural forms of racism and discrimination Race and Anti Racism in Canada provides readers with a critical examination of how racism permeates Canadian society and articulates the complex ways to bring about equity and inclusion both individual and systemically

Broken Treaties Jill St. Germain,2009-06-01 Broken Treaties is a comparative assessment of Indian treaty negotiation and implementation focusing on the first decade following the United States Lakota Treaty of 1868 and Treaty Six between Canada and the Plains Cree 1876 Jill St Germain argues that the broken treaties label imposed by nineteenth century observers and perpetuated in the historical literature has obscured the implementation experience of both Native and non Native participants and distorted our understanding of the relationships between them As a result historians have ignored the role of the Treaty of 1868 as the instrument through which the United States and the Lakotas mediated the cultural divide separating them in the period between 1868 and 1875 In discounting the treaty historians have also failed to appreciate the broader context of U S politics which undermined a treaty solution to the Black Hills crisis in 1876 In Canada on the other hand the broken treaties tradition has obscured the distinctly different understanding of Treaty Six held by Canada and the Plains Cree The inability of either party to appreciate the other s position fostered the damaging misunderstanding that culminated in the Northwest Rebellion of 1885 In the first critical assessment of the implementation of these treaties Broken Treaties restores Indian treaties to a central position in the investigation of Native non Native relations in the United States and Canada

Solving Poverty Jim Silver,2016-03-30T00:00:00Z Poverty in Canada s inner cities is deep complex racialized and often intergenerational In this collection of essays published over the past decade Jim

Silver argues that urban poverty today includes not only low incomes but in all too many cases also poor housing poor health low educational achievement high levels of neighbourhood violence racism colonialism and social exclusion As a result many poor people experience low levels of self esteem and self confidence and may blame themselves which is reinforced by the dominant blame the victim discourse about poverty Silver argues that today s urban poverty is qualitatively different than the urban poverty of forty years ago and that there are no quick easy or one dimensional solutions In *Solving Poverty* Jim Silver a veteran scholar actively engaged in anti poverty efforts in Winnipeg s inner city for decades offers an on the ground analysis of this form of poverty Silver focuses particularly on the urban Aboriginal experience and describes a variety of creative and effective urban Aboriginal community development initiatives as well as other anti poverty initiatives that have been successful in Winnipeg s inner city In the concluding chapter Silver offers a comprehensive pan Canadian strategy to dramatically reduce the incidence of urban poverty in Canada

Scaling Up Sean Markey, Mark Roseland, 2016-02-15 When citizens take collaborative action to meet the needs of their community they are participating in the social economy Co operatives community based social services local non profit organizations and charitable foundations are all examples of social economies that emphasize mutual benefit rather than the accumulation of profit While such groups often participate in market based activities to achieve their goals they also pose an alternative to the capitalist market economy Contributors to *Scaling Up* investigated innovative social economies in British Columbia and Alberta and discovered that achieving a social good through collective grassroots enterprise resulted in a sustainable way of satisfying human needs that was also by extension environmentally responsible As these case studies illustrate organizations that are capable of harnessing the power of a social economy generally demonstrate a commitment to three outcomes greater social justice financial self sufficiency and environmental sustainability Within the matrix of these three allied principles lie new strategic directions for the politics of sustainability Whether they were examining attainable and affordable housing initiatives co operative approaches to the provision of social services local credit unions farmers markets or community owned power companies the contributors found social economies providing solutions based on reciprocity and an understanding of how parts function within the whole an understanding that is essential to sustainability In these locally defined and controlled democratically operated organizations we see possibilities for a more human economy that is capable of transforming the very social and technical systems that make our current way of life unsustainable
