**Practical Corporate Planning in Local Government** J. A. Skitt, 1975 The Reorganisation of British Local Government John Dearlove, 1979-09-20 This volume was first published in 1979 just a few years after the Local Government Act of 1972 redrew the map of British local government Local authorities were also encouraged to change their organization and methods of work anxiety was expressed about finance councillor calibre and the credibility of the whole system itself and neighbourhood councils and public participation in planning were introduced John Dearlove s aim is to make sense of these changes and the discussion they generated He does this by showing that both the

official case for reorganization and the academic discussion of it have hindered their own understanding by uncritically accepting superficial traditional wisdoms which fail to reveal the concealed ideological positions behind reorganization. Thus he aims to develop a truly political perspective on reorganisation which is rounded out and given greater depth by the insertion at appropriate points of comparative material drawn from American experience and studies

**Strategic Planning for Local Government** Roger L. Kemp, 1993 You'd think strategic planning would be obvious. It has long been a common practice in the corporate world. It has however only recently been applied to the public sector. Local governments find such planning increasingly useful as they strive to overcome the constraints imposed by traditional short term government planning practices. These 24 articles examine sound proven public sector strategic planning theories. They demonstrate the different kinds of planning used in 16 successful governments and provide assessments of the future of this important tool

Planning Law and Practice in Northern Ireland Stephen McKay, Michael Murray, 2022-10-24 Each of the jurisdictions within the United Kingdom is constantly refining the operational characteristics of its planning system and while there are some common practices there are also substantive divergences. In each territory the planning template is shaped within a dynamic political and legal context and thus students and practitioners require an accessible in depth and up to date literature dealing with this matter. The multi disciplinary contributors to this expanded Second Edition of Planning Law and Practice in Northern Ireland explore the progression of planning within the region and discuss prominent facets of contemporary development management development plans environmental law property law and professional practice. Consideration is given to the consequences of Brexit for planning in Northern Ireland devolved government institutional structures for planning and the post 2015 emergent performance of local authorities in this arena. The book makes an important contribution to the wider literature in this field and with its extensive citing of statutes and cases provides an essential resource for students planning practitioners and researchers
