BioMath in the Schools Margaret B. Cozzens, Fred S. Roberts, 2011 Even though contemporary biology and mathematics are inextricably linked high school biology and mathematics courses have traditionally been taught in isolation But this is beginning to change This volume presents papers related to the integration of biology and mathematics in high school classes The first part of the book provides the rationale for integrating mathematics and biology in high school courses as well as opportunities for doing so The second part explores the development and integration of curricular materials and includes responses from teachers Papers in the third part of the book explore the interconnections between biology and mathematics in light of new technologies in biology The last paper in the book discusses what works and what doesn't and presents positive responses from students to the integration of mathematics and biology in their classes Life, A Better Way John Nolan, 2005-09 Life A Better Way asserts that all of us are in more control of the direction of our lives than we realize and because this is true each of us are in a position to experience a significantly more rewarding life than we have attained up to this point If we stopped for a few moments and thought about what we have accomplished during the day week month we will begin to realize that most of what we do is from habit or to meet standards set by society There seems to be very little if any quality choices available to change our direction and this is the main reason why our society is surrounded by problems unhappiness and chaos Life A Better Way challenges each person to honestly look at their life by examining the activities thoughts and values that are behind our actions The author discusses the core problems that are holding us back from reaching our true potential and how we can eliminate these problems and reach a higher level of

happiness stability and peace of mind The answer is in our thinking through the proper use of our mind which is our greatest asset and the most underused
