Reading Favorite Things Old And New:

Traversing Old and New Literacies Sue Nichols, 2023-01-01 This book re-examines the field of New Literacy Studies and promotes a shift away from binary constructions of literacies as old or new and to encourage critical reflection on the part of readers as to the uses of these constructs First the book examines the entanglement of pasts presents and futures in contemporary literacy practices Second it considers representations of literacies as actors having their own power and consequences Third it critically examines the place of new and old literacies in a marketplace in which social economic and political power advantage is contested The book demonstrates the use of assemblage theory drawing on semiotics geo-semiotics and Actor Network Theory for analyzing literacies as assemblages It provides readers with tools of analysis with which to interrogate claims made for the value of literacy innovations and traditions alike It also discusses implications for literacy policy curriculum teacher education and research
