She slapped her hands on the wheel and went very quiet. Mum and Pat got out and pushed the car safely to the side of the road and sat and pushed the car safely to the side of the road and looked around. There was nothing but desert and distant mountains. Not a car in sight. Later, a cold wind started and they both got back in. The sun had disappeared. A few hours went by when Pat finally spotted headlights. Mum was surprised to see the type of car that stopped for them. The driver raised their car up off the ground. Mum and Pat climbed into the truck and were driven to the next town.

Nina perked over her shoulder. She could see dark and heavy clouds creeping towards her. Suddenly, she could hear the trees howling and dancing from side to side. Nina made sure her beanie was firmly on her head before she continued. She pedalled as fast as she could and did not look back. Nina was almost home. All she had to do was cross the bridge and make the long and slow ride up James Street. act of regicide lead to one of the most glorious of all eras in Byzantium These were questions that puzzled Michael Psellos as he looked back at Basil I's assassination of Michael III and the origin of the Macedonian dynasty Might the imperial art of Basil his sons and grandson help to explain how the dynasty overcame its violent beginnings and secured the loyalty of its subjects It has long been recognised that the early Macedonian emperors were active propagandists but royal art has usually been viewed thematically over the span of centuries Official iconography has been understood to project imperial power in ways which were impersonal and unchanging This book instead adopts a chronological approach and considers how Basil justified his seizure of power and how his successors went on to articulate their own ideas about authority It concludes that imperial art did at times reflect the personality of the emperor and the political demands of the moment such as the need for an heir the nature of court politics or the choice of successor This innovative account of the forging of the Macedonian dynasty will appeal to those interested in how early medieval kings and emperors used art to create their own image to differentiate themselves from rivals and to extend the boundaries of their personal power
