

Environment

'Environment' is a word which has two meanings, depending on how we use it. We can talk about our *local* environment or our *work* environment. In this usage, 'environment' means surroundings (the buildings, the people, the noises and smells, the atmosphere).

The second meaning is when we talk about the environment. When we say 'the' environment, then we are talking about the natural world (climate, forests, rivers, oceans, mountains).

Test your vocabulary knowledge of both meanings of 'environment' by completing the gaps in the two summaries.

Fill each gap with one of the eight words or phrases below.

Reading Environment The:

A Broad Guide to Reading and Comprehension Mahmoud Sultan Nafa, 2022-03-11 This book offers core guidance for educationalists in designing and implementing a constructive reading environment and process. It provides a plethora of reading models, theories, and techniques that enable educators to have solid knowledge of coping with managing various reading tasks. In addition, this book will enhance educators' reading teaching abilities by providing them with detailed multi-levelled guidance in terms of professionally designing, introducing, and assessing reading tasks. Furthermore, it also introduces academic and psychological criteria that consider all the parties of the reading educational process for shortlisting of reading tasks.

Encyclopedia of Educational Psychology Neil J. Salkind, 2008-01-17 From applied behavior analysis to vicarious reinforcement, overviews of theories, outline concepts basic to the field of educational psychology. Each of the 275 scholarly articles give sample suggestions for further research. All told, the set provides a useful introduction to a burgeoning area of study and is highly recommended for academic libraries.

John R. M. Lawrence This comprehensive, informative cross-disciplinary and authoritative encyclopedia supports a holistic approach to preschool to adult education and would make a welcome addition to any undergraduate collection.

Library Journal Educational Psychology is a special field of endeavor since it strives to apply what we know about many different disciplines to the broad process of education. In the most general terms, you can expect to find topics in this area that fall into the categories of human learning and development across the life span, motivation, measurement, and statistics, and curriculum and teaching. There are few comprehensive overviews of the field of educational psychology, and the purpose of this two-volume Encyclopedia is to share this information in a way that is above all informative without being overly technical or intimidating. With more than 275 contributions, the Encyclopedia of Educational Psychology opens up the broad discipline of educational psychology to a wide and general audience. Written by experts in each area, the entries in this far-reaching resource provide an overview and an explanation of the major topics in the field of human development. While the Encyclopedia includes some technical topics related to educational psychology, for the most part, it focuses on those topics that evoke the interest of the everyday reader.

Key Features: Addresses topics that are of particular interest to the general public, such as vouchers, Head Start, divorce, learning communities, and charter schools. Shares subjects that are rich, diverse, and deserving of closer inspection with an educated reader who may be uninformed about educational psychology. Draws from a variety of disciplines, including psychology, anthropology, education, sociology, public health, school psychology, counseling, history, and philosophy. Presents many different topics, all tied together by the theme of how the individual can best function in an educational setting, from pre-school through adult education.

Key Themes: Classroom Achievement, Classroom Management, Cognitive Development, Ethnicity, Race, and Culture, Families, Gender, and Gender Development, Health and Well-Being, Human Development, Intelligence and Intellectual Development, Language Development, Learning and Memory, Organizations, Peers and Peer Influences, Public Policy, Research Methods, and Statistics.
