Modern Chinese History is a collection of short essays on aspects of the history of the Qing dynasty a regime dominated by
Manchus that ruled China from 1644 to 1911 Using sources from that period and earlier it addresses key themes on the
nature of Qing rule These include the defeat by the British in the Opium Wars the twin track administration of Manchus and
Han Chinese the rise of Chinese military leaders in southern China the purchase of office and endemic corruption the
challenge of the Taiping Heavenly Kingdom and the failure of political reform There are new insights on all the Qing
emperors and the Empress Dowager Cixi who ruled China between 1861 and 1908 **The Indigenization of Christianity
in China I** Qi Duan, 2022-11-30 As the first volume of a three volume set on the indigenization of Christianity in modern
China this book focuses on the presence of Christianity during the late Qing dynasty and the early twentieth century
discussing the early waves of Christian influence key watersheds in its history Over the course of its growth in modern China
Christianity has faced twists and turns in its embedding in Chinese society and indigenous culture This three volume book
delineates the genesis and trajectory of Christianity's indigenization in China over the course of the nineteenth and twentieth
centuries highlighting the actions of Chinese Christians and the relationship between the development of Christianity and
modern Chinese history In this volume the author discusses early missionary works from both foreign missionaries and local
churches both of which were influential in rendering Christianity more present and influential in China and which paved the
way for further indigenization The book then expounds on the thoughts and practices of indigenizing Christianity prompted
by historical events in the early twentieth century including the independent movement of the Chinese Christian Church and
religious reforms that were undertaken to reach greater accommodation with Chinese society The book will appeal to
scholars and students interested in the history of Christianity in China and modern Chinese history **A History of
Modern Chinese Popular Literature** Boqun Fan, 2020-07-30 The first English translation of one of the most authoritative
and significant studies in the field of modern Chinese literature **Disability and Impairment in Early China** Avital H.
Rom, 2025-03-31 This book is the first collection of scholarly works fully dedicated to exploring disability and impairment in
early Chinese history Early Chinese understandings of disability are effectively revealed through investigations of a wide
range of aspects such as terminological legal political and etiological The volume explores how early Chinese disability was
socially negotiated as a means for creating enabled and at times empowered identities It shows how oppression and
empowerment when viewed through the prism of such negotiations of identity were not mutually exclusive Through such
examinations the volume demonstrates how an approach sensitive to both the separability and the interconnectedness of
disability and impairment enables a more nuanced understanding of Chinese disability history specifically and Chinese

notions of embodiment more generally Bringing together international academics to examine a plethora of topics relating to disability and bodily impairment in early Chinese history with an eye on their socio political implications this book will appeal to students and scholars of Chinese History History of Medicine and Disability Studies A Historical Study of Early Modern Chinese Fictions (1890—1920) Pingyuan Chen,2021-01-28 This book contains a classic guide to historical study of early modern Chinese fiction from the late Qing Dynasty till early republican China It does not merely study the new fiction writing in China which was strongly influenced by the western fiction but also draws a comparison between classical Chinese fiction and the early modern Chinese fiction This book is an excellent reference in the study of early modern Chinese literature since it conveys a point of view to the readers with abundant and solid historical materials At the heart of the book it is the matter of a specific value in trans cultural studies between the western world and China **Brunei - History, Islam, Society and Contemporary Issues** Ooi Keat Gin,2015-12-14 Brunei although a relatively small state is disproportionately important on account of its rich resource base In addition in recent years the country has endeavoured to play a greater role in regional affairs especially through ASEAN holding the chair of the organisation in 2013 and also beyond the region fostering diplomatic political economic and educational ties with many nations This book presents much new research and new thinking on a wide range of issues concerning Brunei largely drawn from Bruneian academics Subjects covered include Brunei s rich history the sultanate formerly had much more extensive territories and was a key player in regional affairs the country s economy politics society and ethnicities and resource issues and international relations
