Hornig, 2012-12-06 Thirteen years parents ago in June 1988 the Radcliffe Classof1953 celebrated its 35th Reunion Amidst the festivities we who participated repeatedly asked ourselves the same two questions Is Harvard as sexist as it was when we were undergraduates If not what is the status ofwomen at Harvard today To find the answers we formed an ad hoc committee and charged the members to report back to the class in five years The committee interviewed selected senior and junior Harvard faculty Harvard and Radcliffe

administrators students and alumni ae We identified and studied Harvard and Radcliffe reports on their institu tions and on their student organizations We contributed to and participated in a 1990 Radcliffe Focus Group ASurveyofAlumnae and Undergraduate Perceptions We found that the University was not as sexist in 1988 as it had been in 1953 Yet the status ofwomen though improved remained quite unequal to thatofmen Radcliffe College was organizationally separate from Harvard University until 1977 when a non merger merger was implemented However Radcliffe had no fac ulty of its own and employed Harvard faculty to teach its students in strictly separate classes until World War II The merger effort was com pleted in 1999 with the complete integration of the two institutions and the formation of the Radcliffe Institute for Advanced Study a tub on its own bottom like other Harvard graduate and professional schools In 1993 the Class of 53 voted unanimously to form the Commit tee for the EqualityofWomen at Harvard CEWH Lifting a Ton of Feathers Paula J. Caplan, 1993-12-15 Lifting a Ton of Feathers is not only a survival guide it is also a destroyer of academic myths about women s career chances in the university and a revelation of the catch 22 positions in which women find themselves Caplan demonstrates that while many women believe that when they fail it is their fault their fate is more likely to be sealed by their encounter with the male environment and by the manner in which they are tossed about by it She aims to help women avoid self blame and understand the real sources of their problems Readers will find the information about the mine field of academia for women infuriating but the means of telling it highly entertaining Women account for more than half of all undergraduate students in the US and Canada yet they make up only 10 per cent of faculty members at the level of full professor What happens to women between freshman level the tenure track and the ensuing following professional years that keeps them out of the highest levels of academia Paula Caplan is herself a veteran of the academic career struggle and she sets out to explore this question with not only her own observations but also those of many women whom she has interviewed and with a strong backing of established research With these tools she provides a clear eyed assessment of what women who have embarked on an academic career and those who are considering it may expect Forewarned is forearmed and Caplan presents a list of the forms that the maleness of the environment take two of these are the conflict between professional and family responsibilities and sexual harassment In addition her book offers advice on practical techniques of how to prepare a curriculum vitae how to handle job interviews and how to apply for promotions and tenure A final chapter is a unique checklist which serves two purposes to provide guidance in a search for a woman positive institution and to give suggestions for ways individual women and women in groups can work to improve the situation at their own institutions The Good Supervisor Gina Wisker, 2012-07-16 This engaging book outlines effective strategies for supervising students on a wide variety of research projects whether at undergraduate or postgraduate level It covers each stage of the research journey and provides guidance on working with students to define research topics select appropriate methodologies write up theses and prepare for the viva It also supports supervisors in establishing and maintaining good supervisory practices and shows how
