McGraw-Hill/Glencoe,Scott, Foresman and Company Staff,1994 **Beyond Productivity** Kim Hensley Owens,Derek Van Ittersum,2023-11-15 In Beyond Productivity a wide range of contributors share honest narratives of the sometimes impossible conditions that scholars face when completing writing projects The essays provide backstage views of the authors varying approaches to moving forward when the desire to produce wanes when deciding a project is not working when working within and around and redefining academic productivity expectations and when writing with ever changing bodies that do not always function as expected This collection positions scholarly writers ways of writing as a form of flexible evolving knowledge By exhibiting what is lost and gained through successive rounds of transformation and adaptation over time the contributors offer a sustainable understanding and practice of process one that looks beyond productivity as the primary measure of success Each presents a fluid understanding of the writing process illustrating its deeply personal nature and revealing how fragmented and disjointed methods and experiences can highlight what is precious about writing Beyond Productivity determines anew the use and value of scholarly writing and the processes that produce it both within and beyond the context of the losses constraints and adaptations associated with the COVID 19 pandemic **Liverpool Beyond the Brink** Michael Parkinson,2019 Liverpool Beyond the Brink describes the extraordinary if incomplete renaissance of Liverpool during the last thirty years Showing how much has been achieved who helped and what its current challenges are this is a fascinating commentary on one of the UKs most iconic cities **Higher Education Accessibility Behind and Beyond Prison Walls** McMay, Dani V.,Kimble, Rebekah D.,2020-04-17 Numerous studies indicate that completing a college degree reduces an individual s likelihood of recidivating However there is little research available to inform best practices for running college programs inside jails or prisons or supporting returning citizens who want to complete a college degree Higher Education Accessibility Behind and Beyond Prison Walls examines program development and pedagogical techniques in the area of higher education for students who are currently incarcerated or completing a degree post incarceration Drawing on the experiences of program administrators and professors from across the country it offers best practices for 1 developing running and teaching in college programs offered inside jails and prisons and 2 providing adequate support to returning citizens who wish to complete a college degree This book is intended to be a resource for college administrators staff and professors running or teaching in programs inside jails or prisons or supporting returning citizens on traditional college campuses Making Writing Meaningful Michele Eodice,Anne Ellen Geller,Neal Lerner,2025-04-22 It seems obvious students will have more meaningful writing experiences if we offer more opportunities for their writing to be meaningful for

them But what does that mean What makes writing meaningful for students What really makes students want to write The authors of this practical little book asked precisely that and the answers they gathered from students across disciplines majors and institutions over several years inform their advice in *Making Writing Meaningful A Guide for Higher Education* The critical lessons that Michele Eodice Anne Ellen Geller and Neal Lerner took from their survey research as well as from their own classrooms and workshops are these Students want their writing to be consequential to build on connections with their lives their world and their futures and to foster an inclusive learning experience The authors delved further into these findings by asking what role identities whether racial ethnic or cultural played in students approach to writing and by exploring what students found meaningful in writing during experiences such as disruption dislocation and loss personal economic and health challenges and political racial and societal conflict The resulting guide pairs a wealth of new data with pedagogical strategies and reflective exercises to help instructors of all kinds connect more effectively with their students and to help students connect their lives and their writing in meaningful and productive ways Meaningful writing makes for a richer more successful learning experience and this book invites students and teachers alike to take advantage of the guidance offered here to foster connections that will serve students and the world well beyond academia
