Christianity Considered John M. Frame,2018-05-16 Christianity is more than a religion it is also a complex intellectual tradition Christians and non Christians who want to understand the world as it is today have to understand Christianity too Christianity makes objective claims but also presents a new way of thinking about the world In A Guide to Christianity for Skeptics and Seekers renowned theologian Dr John Frame introduces the reader to the Christian religion and its unique intellectual framework describing the key pillars of Christian thought and how these shape the Christian worldview Covering a range of topics from the resurrection to the Christian posture toward politics A Guide to Christianity for Skeptics and Seekers is a valuable guide to understanding the Christian faith as an intellectual tradition Useful for both the Christian

reader looking for a better understanding of the faith and the skeptical reader who seeks to understand the intellectual tradition that has done much to shape the modern world *Thoughts to Enlighten and Empower the Mind* Errol A. Gibbs, Philip A. Grey, 2011-06-16 *Thoughts to Enlighten and Empower the Mind* is a compilation of two thousand and one questions and philosophical thoughts extracted from the authors seminal work *Five Foundations of Human Development*. These thoughts follow the same chronology of information that helps to promote fulfilling lives through human development from spiritual moral social intellectual and physical perspectives. The authors proffer that human beings possess the capacity to rise to a higher state of civilization when we allow our thoughts to permeate our minds with hope and optimism for the future of humanity. Gibbs and Grey support the premise put forward by many great writers who contend that our thoughts determine happiness and effectiveness in life. Our thoughts and our emotions have a great influence on our carnal impulses and desires. We nurture good and bad thoughts and human effort alone is insufficient to properly manage them. Negative thoughts establish barriers to communications and harmonious living. Positive thoughts radiate harmony among individuals and nations. More importantly those in positions of great power who lead humanity must by their thoughts help to create a better world or inadvertently plunge humanity into great chaos as has been recorded in six thousand years of human history. Only a mind that is free of unhealthy thoughts transcends a life of fulfillment. Positive thoughts permeate our beings and open up new frontiers of positive leadership for the modern age. The global significance of this book is that it informs a more communal view of our world by virtue of the conditioning of our thoughts. It will help inform enlighten and empower the minds of leaders to embrace every field of endeavor including engineering science religion politics the military and the environment. This will be accomplished with the most vital creative and positive thoughts that rise to a high level of responsibility for the betterment of all humanity.

Skepticism in the Modern Age, 2009-08-31 Since the publication of the first edition of Richard Popkin's classic *The History of Scepticism* in 1960 skepticism has been increasingly recognized as a major force in the development of early modern philosophy. This book provides a review of current scholarship and significant updated research on some of the main thinkers and issues related to the reappraisal of ancient skepticism in the modern age. Special attention is given to the nature importance and relation to religion of Montaigne's and Hume's skepticisms to the various skeptical and non skeptical sources of Cartesian doubt to the skeptical and anti skeptical impact of Cartesianism in the seventeenth and eighteenth centuries and to philosophers who dealt with skeptical issues in the development of their own various intellectual interests.

The Debaters of This Age Steven H Propp, 2019-02-05 It is June 2018 as an unusual group of scholars professors lecturers and students gather in a California hotel. They are all attendees of an Apologetics conference intended to join qualified representatives of Christian Deist and Atheist thought for a two week no holds barred debate and discussion of their respective positions that will ultimately be included in a book published after the conference. Evangelical Christianity is represented by advocates of Evidentialist and Presuppositionalist approaches to

Apologetics Catholicism liberal Christianity and Deism are also well supported The Atheist perspective is advocated by a polemical author and a college professor notorious for attacking the views of his Christian students As the participants argue over controversial issues such as cosmology evolution The Bible historical evidence for Jesus the resurrection biblical prophecies and the problem of evil intellectual fireworks result But what will result when such a volatile and eclectic group is placed face to face for more than two weeks The Debaters of this Age is the tale of what happens inside a California hotel in 2018 when a group of intellectuals gather to vigorously discuss the religious issues of our time
