altering tendencies inherent in the novels from *Typee* onward in contrast to Melville's blithely exciting and largely optimistic first six novels of the sea Melville's later works beginning with his pivotal epic *Moby Dick* assume a much darker and increasingly anti-Transcendental philosophical position *The Shame and the Sorrow* Donna Merwick, 2013-03-01 The Dutch through the directors of the West India Company purchased Manhattan Island in 1625 They had come to the New World as traders not expecting to assume responsibility as the sovereign possessor of a conquered New Netherland They did not intend to make war on the native peoples around Manhattan Island but they did they did not intend to help destroy native cultures but they did they intended to be overseas the tolerant pluralistic and antimilitaristic people they thought themselves to be and in so many respects were at home but they were not For the Dutch intruders establishing a settled presence away from the homeland meant the destabilization of the adventurers values and self regard They found that the initially peaceful encounters with the indigenous people soon took on the alarming overtones of an insurgency as the influx of the Dutch led to a complete upheaval and eventual disintegration of the social and political worlds of the natives How are the Dutch to be judged Donna Merwick in *The Shame and the Sorrow* asks this question She points to a betrayal both of their own values and of the native peoples She also directs us to the self delusion of hegemonic control Her work belongs alongside the best of today's postcolonial studies in the description of cross cultural violence and subtle questioning of the nature of writing its history *America's Fatal Leap* Paul W. Schroeder, 2025-02-18 A decisive analytic critique of US foreign policy by one of America's greatest historians America's Fatal Leap deconstructs US geopolitics after the end of the Cold War informed by its author's unsurpassed command of modern history Paul W Schroeder an acclaimed historian of international diplomacy was a conservative and a natural supporter of American leadership in the world But he wrote scathing op eds for the *National Interest* and the *American Conservative* about the hubris and moral failings of the War on Terror warning of damaging long range effects on the international system Schroeder compared 9 11 to the assassination in Sarajevo that sparked the First World War insisting that a great power should never give terrorists a war they wanted He wrote with extraordinary prescience months before the US launched its attack on the Taliban of the risks of victory in Afghanistan characterised the war in Iraq as a failed bid for informal empire and called for disimperialism in the Middle East America's Fatal Leap collects Schroeder's remarkable interventions on America's adventurism in the Middle East from the 1991 Gulf War to the Surge of 2007 It includes an Introduction by Perry Anderson author of *US Foreign Policy and Its Thinkers* and *Ever Closer Union*

McAdams,Martha Craven Nussbaum,2017 Writers of fiction have always confronted topics of crime and punishment This age old fascination with crime on the part of both authors and readers is not surprising given that criminal justice touches on so many political and psychological themes essential to literature and comes equipped with a trial process that contains its own dramatic structure This volume explores this profound and enduring literary engagement with crime investigation and criminal justice The collected essays explore three themes that connect the world of law with that of fiction First defining and punishing crime is one of the fundamental purposes of government along with the protection of victims by the prevention of crime And yet criminal punishment remains one of the most abused and terrifying forms of political power Second crime is intensely psychological and therefore an important subject by which a writer can develop and explore character A third connection between criminal justice and fiction involves the inherently dramatic nature of the legal system itself particularly the trial Moreover the ongoing public conversation about crime and punishment suggests that the time is ripe for collaboration between law and literature in this troubled domain The essays in this collection span a wide array of genres including tragic drama science fiction lyric poetry autobiography and mystery novels The works discussed include works as old as fifth century BCE Greek tragedy and as recent as contemporary novels memoirs and mystery novels The cumulative result is arresting there are killer wives and crimes against trees a government bureaucrat who sends political adversaries to their death for treason before falling to the same fate himself a convicted murderer who doesn t die when hanged a psychopathological collector whose quite sane kidnapping victim nevertheless also collects Justice Thomas reading and

misreading of Biggles Thomas a man who forgives his son's murderer and one who cannot forgive his wife's non-existent adultery fictional detectives who draw on historical analysis to solve murders These essays begin a conversation and they illustrate the great depth and power of crime in literature **Warfare in Europe 1815-1914** Peter H. Wilson, 2017-11-22

The history of nineteenth century European warfare is framed by the end of the Napoleonic Wars in 1815 and the outbreak of the First World War in 1914 The Crimean War and the struggles for Italian and German unification divide this century in two In the first half armies struggled to emerge from the shadow of Napoleon amidst an era of financial retrenchment political unrest and accelerating technological change The mid century wars left an equally problematic legacy including aspects that pointed towards total war The 26 essays in this volume examine these changes from a variety of innovative and fresh perspectives **Melancholy and Fatal Calamities** Matthew Burke Mulcahy, 1999 **Forthcoming Books** Rose Arny, 1991 **AF Press Clips**, 1991
