Recent Advances In Peace And Conflict Research:

Peace & Conflict Research Juergen Dedring, 1976-09-01 **Recent advances in peace and conflict research** Juergen Dedring, 1976 **A Question of Values** Peter Lawler, 1995 Places the work of Johan Galtung in the context of past and current debates in international relations political theory and more generally in the social sciences This comprehensive and critical account scrutinises Galtung s conceptual icons such as positive peace and structural violence **Peace & Conflict Research** Juergen Dedring, 1976-09 **The Conflict Helix** R. J. Rummel, This is a book on conflict and consensus aimed at the general reader In active plain and direct language it makes the seemingly abstract and complex issues simple Its view of peace is well rounded tough minded one that well understands the difficult world of social and personal violence and conflict At its heart is a simple finding to wage peace we need to foster freedom The human race can best achieve that simple aim by leaving people alone to form their own communities The Conflict Helix avoids the ambiguous in favor of the categorical the hedged qualified statement for the direct Rummel presents a series of basic principles each concerning an aspect of conflict and peace psychological interpersonal societal international and each aspect having its own master principle These principles are not mere organizational props but are deeply theoretical and empirically fundamental The volume expresses the core ideas results and conclusions of Rummel s major five volume work on Understanding Conflict and War In discarding technical material and focusing on principles and meaning The Conflict Helix presents an executive summary of a lifetime of work in a digestible form In light of recent events in Europe Asia and Latin American this work takes on a special poignancy for the developing no less than the industrialized worlds Hence this book should be of value to the general reader as well as professionals and advanced students of international politics **Conflict Resolution in the Twenty-first Century** Jacob Bercovitch, Richard Dean Wells Jackson, 2009-08-04 In the past arbitration direct bargaining the use of intermediaries and deference to international institutions were relatively successful tools for managing interstate conflict In the face of terrorism intrastate wars and the multitude of other threats in the post Cold War era however the conflict resolution tool kit must include preventive diplomacy humanitarian intervention regional task sharing and truth commissions Here Jacob Bercovitch and Richard Jackson two internationally recognized experts systematically examine each one of these conflict resolution tools and describe how it works and in what conflict situations it is most likely to be effective Conflict Resolution in the Twenty first Century is not only an essential introduction for students and scholars it is a must have guide for the men and women entrusted with creating stability and security in our changing world Cover illustration iStockphoto com **Encyclopedia of Violence, Peace, and Conflict** Lester R. Kurtz, Jennifer E. Turpin, 1999-08-10 The Encyclopedia of Violence Peace and Conflict a three volume set written by more than 200 eminent contributors from around the world takes advantage of increasing worldwide awareness in the public private commercial and academic sectors about manifestations of violence in all segments of society While the contributors do not use these volumes to make specific

arguments they do describe and clarify the developments in thought that have led to current theories about and positions on violence and peace Our reviewers consistently note that while many in depth studies of war peace and aggression exist the attendant specialization keeps scholars from learning about related fields No publication competing with the Encyclopedia of Violence Peace and Conflict can satisfy their need for a vast introductory work to such a diverse and socially important field This major work includes more than 190 multidisciplinary articles with over 1 000 cross references and more than 2 000 bibliography entries for further reading which are arranged alphabetically for easy access More than 190 multidisciplinary articles with over 1 000 cross references Article outline and glossary of key terms begin each article Entries arranged alphabetically for easy access Three volume set with subject index of over 750 entries Articles written by more than 200 eminent contributors from around the world Advancing Peace Research J. Russell Boulding, 2016-11-02 This series of four volumes honors the lifetime achievements of the distinguished activist and scholar Elise Boulding 1920 2010 on the occasion of her 95th birthday This first anthology documents the breadth of Elise Boulding's contributions to Peace Research Peacemaking Feminism Future Studies and Sociology of the Family Known as the matriarch of the twentieth century peace research movement she made significant contributions in the fields of peace education future studies feminism and sociology of the family and as a prominent leader in the peace movement and the Society of Friends **Peace and World Order Studies** Barbara J. Wien, 1978-01-01 **The First Fifty Years of Peace Research** David J. Dunn, 2018-01-18 Peace research first emerged as an explicit academic area of study in the 1950s Pioneers of peace research included Wright Richardson and Lenz and this book examines their contribution and that of the frontiersmen who developed the study further establishing peace research in its own right Assessing the evolution status and significance of peace research after fifty years this novel and comprehensive book is relevant not only to students of peace research but also to the developing debates within international relations and security studies This is where there are real problems associated with the understanding of new problems and issues by reference to traditional concepts and categories The book will attract a broad market in the fields of international relations politics and social theory as well as

scholars in peace studies *In Response to Aggression* Arnold P. Goldstein, Edward G. Carr, William S. Davidson, 2013-10-22

In Response to Aggression Methods of Control and Prosocial Alternatives describes and evaluates comprehensively what has been done in response to aggression with emphasis on aggression controls and alternatives The book is organized into four major parts These parts deal with aggression controls and alternatives specific for individual small group community and societal levels of intervention The book will lead to enhanced utilization of methods for aggression controls and alternatives and hence to widespread prosocial and constructive behaviors in response to aggression Israel The Peaceful Belligerent 1967-79 Yael Yishai, Amnon Sella, 1986-01-20 **Encyclopedia of Violence, Peace, and Conflict** , 1999-08-16 The Encyclopedia of Violence Peace and Conflict a three volume set written by more than 200 eminent contributors from around the world takes advantage of increasing worldwide awareness in the public private commercial and academic sectors about manifestations of violence in all segments of society While the contributors do not use these volumes to make specific arguments they do describe and clarify the developments in thought that have led to current theories about and positions on violence and peace Our reviewers consistently note that while many in depth studies of war peace and aggression exist the attendant specialization keeps scholars from learning about related fields No publication competing with the Encyclopedia of Violence Peace and Conflict can satisfy their need for a vast introductory work to such a diverse and socially important field This major work includes more than 190 multidisciplinary articles with over 1 000 cross references and more than 2 000 bibliography entries for further reading which are arranged alphabetically for easy access More than 190 multidisciplinary articles with over 1 000 cross references Article outline and glossary of key terms begin each article Entries arranged alphabetically for easy access Three volume set with subject index of over 750 entries Articles written by more than 200 eminent contributors from around the world *Unesco Yearbook on Peace and Conflict Studies* , 1985 **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1978 **To Establish the United States Academy of Peace** U.S. Commission on Proposals for the National Academy of Peace and Conflict Resolution, 1981 *An Introduction to Strategic Studies* Barry Buzan, 1987-09-04 An Introduction to Strategic Studies addresses some of the major questions that govern both international relations and human survival This book provides a comprehensive introduction to the core concepts of contemporary strategic thinking It argues that strategic studies is about the impact of military technology on relations between states and that its specialised contribution must always be seen within the broader context of international economic and political relations Palgrave Advances in Peacebuilding O. Richmond, 2010-01-20 The quality of the peace arrived at via liberal peacebuilding approaches has been poor The related statebuilding praxis has generally been unable to respond to its critics What is at stake is a recognition of peacebuilding s everyday political social economic and cultural dynamics This indicates the emergence of a post liberal form of peace **Social Conflicts And Third Parties** Jacob Bercovitch, 2019-07-15 The pressing need to find new ways to settle social disputes and render them less destructive

has led to a concern with the role that outsiders or third parties can play in the conflict resolution process. This book contributes to an increased understanding of the nature and activities of third parties in a wide range of conflict situations. Dr. Bercovitch first describes and interprets the major elements of the third party intervention process, then provides an empirical examination of its structure and characteristics in settings as diverse as family struggles, labor management problems, and international disputes. Throughout, he illustrates the dynamics of the process from the vantage point of the third parties themselves. Finally, he points out the conditions most likely to strengthen this type of conflict management and discusses the means for determining the appropriate forms of intervention at different junctures of a dispute.
