**Crime and Transition in Central and Eastern Europe** Alenka Šelih, Aleš Završnik, 2012-04-24 Full scale political change affects every level of a society but perhaps nowhere as strikingly as in the areas of crime policy and law enforcement Over the past two decades the European nations that have moved from totalitarianism toward democracy have come to embody this trend yet reliable sources on crime and law enforcement in these countries have not been readily accessible to the West Representing viewpoints seldom available to outsiders the contributors to Crime and Transition in Central and Eastern Europe analyze changes in criminal activities and crime control strategies in the region explain the political background underlying these developments and assess their long term social impact Experts from Slovenia Hungary Croatia Serbia the Czech Republic Poland Bosnia and Herzegovina discuss the politicization of crime the ongoing paradoxes regarding civil liberties and the future of crime policy in comparative and

country specific terms Among the topics featured in the book Crime and crime control in transitional countries politics the media and public perception of crime surveillance from national security to private industry penal policy and political change emerging trends economic and organized crime human trafficking juvenile delinquency new perspectives on corruption in the region With this fascinating insight Crime and Transition in Central and Eastern Europe is a singular reference for researchers and policymakers in criminology and political science and historians with a special interest in European affairs and policy

**Pain in Shoulder and Arm** J.M. Greep,H.A.J. Lemmens,D.B. Roos,H.C. Urschel,2012-12-06 The shoulder hand syndrome or pain in the shoulder or arm is an extremely vital subject for the multi disciplinary approach and usually requires more than one speciality for complete evaluation The proceedings of this symposium organized by the department of general surgery of the University of Limburg cover the field thoroughly with contributions from outstanding specialists from all over the world Rheumatological neuro surgical orthopedic and traumatological aspects are covered Vascular surgeons considering both venous and arterial problems entwine with thoracic surgeons to review the thoracic outlet problem Establishing a diagnosis in this multi disciplinary field is extremely important and encompasses a combination of disciplines including neurology orthopedics surgery and physical medicine Likewise the role of each contributing factor must be assessed when multiple sources were responsible for pain In addition to adequate diagnosis it is important to institute the appropriate therapy and to establish the proper priority and timing of such therapies The follow up techniques particularly regarding thoracic outlet syndrome are extremely important to provide an objective basis for evaluation Although many advances have been made in the field of objective diagnosis and therapy there still is a great deal of overlap and confusion which has to be clarified Professor Greep and his organizing committee have done a wonderful job in composing a program covering all aspects of this field They are to be congratulated on bringing us a timely current status report on pain in the shoulder and arm

*Handbook of Scales for Research in Crime and Delinquency* Stanley L. Brodsky,H. O'Neal Smitherman,2013-06-29 In contrast to the great diversity of other crime and delinquency research measures those drawn from the CPI and the MMPI have much in common They are taken from standardized instruments administered under controlled conditions with known stimulus properties and validity indicators The CPI and MMPI measures will frequently be instruments of choice in research on personality and psychodynamics of offenders CHAPTER 6 Law Enforcement and Police This chapter encompasses a variety of scales that refer to law enforcement or police agencies Unfortunately in the case of many scales these terms are used simply with the assumption that the respondents understand the concepts and use them in the same way as researchers In other cases however specific policing functions are identified and described As noted in Chapter 3 a standard order of scale presentation is followed First the attitudes scales are presented followed by the behavior ratings personality measures milieu ratings prediction measures and finally the very broad category of description After the reviews are completed within

each subcategory other scales in that category are listed See Chapter 2 for a description of the criteria that were used in deciding upon whether a scale would be reviewed or simply listed Listed scales are presented by title and bibliographic reference followed by a very brief description     Theoretical Perspectives on School Crime National Council on Crime and Delinquency,1978     **Readers' Guide to Periodical Literature** ,1922
