Reflections And Perspectives:

Fieldwork in Geography: Reflections, Perspectives and Actions Rod Gerber, Goh Kim Chuan, 2013-03-14 Geographers regard fieldwork as a vital instrument for understanding our world through direct experience for gathering basic data about this world and as a fundamental method for enacting geographical education The range of international geography and educational experts who contributed to this volume has demonstrated that the concept of fieldwork has a considerable history in the field of geography They have demonstrated that the theoretical aspects of fieldwork have been interpreted differently in regions around the world but the importance of fieldwork remains strong globally A fresh look at the pedagogic implications for fieldwork in formal education offers ideas both for promoting it in geographical education and for maintaining its place in the geography curriculum Audience Forward looking geographers and educators now recognise that alternative strategies especially those involving the use of information technology should be developed to reaffirm the centrality of fieldwork in geographical and wider education *Reflections and perspectives* Elmer Daniel Klemke, 2019-01-29 No detailed description available for Reflections and perspectives □□□□□□□□□□□□, 1994

Good Practices in Doctoral Supervision Mar Reguero,Joan Josep Carvajal,Maria Ercilia García,Mireia Valverde,2017-01-01 Within the European context there are many initiatives for PhD supervisory training already in existence but a more systematic approach to this task would be needed In this landscape we took the initiative of organizing an informal meeting for experts with an interest and expertise on PhD supervisory training the Tarragona Think Tank on PhD supervisory training challenges and good practices hosted by University Rovira i Virgili URV Tarragona This event allowed both the presentation of individual university experiences and the undertaking of a collective reflection on challenges impact assessment and the visualisation of an ideal future for PhD supervisory training Noting the need for more concerted efforts and practices the present book is precisely a first tangible outcome of this concerted effort Looking forward we expect that this book can help setting the basis for the development of a network or alliance between the participating organisations and an ongoing effort aimed at bringing the professionalization of doctoral supervisors to the forefront in education policy at the university level In sum we hope that this contribution can help materialising ideas into actions
