Reflections of a Cold Warrior Richard M. Bissell, Jr., 1996-05-29 Richard M Bissell Jr the most important CIA spymaster in history singlehandedly led America s intelligence service from the age of Mata Hari into the space age Under his guidance the U 2 spy plane the SR 71 Blackbird and the Corona spy satellite were developed and the agency rose to the pinnacle of its power Bissell was also however the architect of the infamous Bay of Pigs operation that failed to overthrow Castro in 1961 and led to the decline of the CIA In this compelling memoir Bissell gives us an insider s view of the personalities policies and historical forces surrounding these and other covert operations and the lessons learned during those times of conflict Bissell begins by describing his early years as a member of America s unofficial aristocracy Born in a house that his father bought from Samuel Clemens he was educated at Groton and Yale and befriended by Charles and Anne Morrow Lindbergh among others Bissell recounts how he became acting head of the Economic Cooperation Administration the agency in charge of the Marshall Plan after World War II and helped to create the European Payments Union Bissell was brought into the CIA in 1954 where he initiated a revolution in intelligence gathering techniques He reveals the details of these developments as well as of the unique CIA Lockheed partnership he pioneered his participation in the CIA sponsored coup to overthrow Arbenz in Guatemala and his involvement in crises in Laos and the Congo Bissell s memoir sheds light not only on pivotal points of American foreign policy but also on America s evolution from isolationist to interventionist superpower

The Bay of Pigs Howard Jones, 2008-08-08 A masterful account of one of the most disastrous missteps in American foreign policy The Bay of Pigs gives the engrossing story of the US backed invasion of Cuba in April of 1961 by 1400 exiled Cubans Designed to overthrow the communist regime of Fidel Castro the invasion now known simply as the Bay of Pigs was a complete failure that had far reaching implications in shaping John F Kennedy s Cold War attitudes and presidential agenda

A Military History of the Cold War, 1944-1962 Jonathan M. House, 2014-04-28 The Cold War did not culminate in World War III as so many in the 1950s and 1960s feared yet it spawned a host of military engagements that affected millions of lives This book is the first comprehensive multinational overview of military affairs during the early Cold War beginning with conflicts during World War II in Warsaw Athens and Saigon and ending with the Cuban Missile Crisis A major theme of this account is the relationship between government policy and military preparedness and strategy Author Jonathan M House tells of generals engaging in policy confrontations with their governments political leaders among them Anthony Eden Nikita Khrushchev and John F Kennedy many of whom made military decisions that hamstrung their own political goals In the pressure cooker atmosphere of atomic preparedness politicians as well as soldiers seemed instinctively to prefer military solutions to political problems And national security policies had military implications that took on a life of their own The invasion of South Korea convinced European policy makers that effective deterrence and containment required building up and maintaining credible forces Desire to strengthen the North Atlantic alliance militarily accelerated the

rearmament of West Germany and the drive for its sovereignty In addition to examining the major confrontations nuclear and conventional between Washington Moscow and Beijing including the crises over Berlin and Formosa House traces often overlooked military operations against the insurgencies of the era such as French efforts in Indochina and Algeria and British struggles in Malaya Kenya Cyprus and Aden Now more than fifty years after the events House describes understanding the origins and trajectory of the Cold War is as important as ever By the late 1950s the United States had sent forces to Vietnam and the Middle East setting the stage for future conflicts in both regions House s account of the complex relationship between diplomacy and military action directly relates to the insurgencies counterinsurgencies and confrontations that now occupy our attention across the globe

Civil-Military Relations and Shared Responsibility Dale R. Herspring, 2013-06-01 A provocative approach to evaluating civil military relations Dale R Herspring considers the factors that allow some civilian and military organizations to operate more productively in a political context than others bringing into comparative study for the first time the military organizations of the U S Russia Germany and Canada Refuting the work of scholars such as Samuel P Huntington and Michael C Desch Civil Military Relations and Shared Responsibility approaches civil military relations from a new angle military culture arguing that the optimal form of civil military relations is one of shared responsibility between the two groups Herspring outlines eight factors that contribute to conditions that promote and support shared responsibility among civilian officials and the military including such prerequisites as civilian leaders not interfering in the military's promotion process and civilian respect for military symbols and traditions He uses these indicators in his comparative treatment of the U S Russian German and Canadian militaries Civilian authorities are always in charge and the decision on how to treat the military is a civilian decision However Herspring argues failure by civilians to respect military culture will antagonize senior military officials who will feel less free to express their views thus depriving senior civilian officials most of whom have no military experience of the expert advice of those most capable of assessing the far reaching forms of violence This issue of civilian respect for military culture and operations plays out in Herspring's country case studies Scholars of civil military relations will find much to debate in Herspring's framework while students of civil military and defense policy will appreciate
