Pseudo-Manetho, Apotelesmatica J. L. Lightfoot, 2023 The corpus of astrological material ascribed to the Egyptian priest Manetho consists of six books of poetry This book serves as the companion to the one published by OUP in 2020 which was the first commentary in any language on the earliest three books of Manetho s poetry two three and six as they appear in the manuscript This volume supplies the remainder books four one and five Manetho was credited with a series of didactic poems which list outcomes for planetary set ups in a birth chart The books covered in this volume are not as easily dated as those in the first volume but the most recent is probably no later than the fourth century and they are still Egyptian As in the first volume their descriptions of the kinds of person who are born under happy and unhappy configurations of stars speak to the lived realities aspirations and fears of the astrologer s clientele Unlike in the first volume however the individual books treated here have different authors and there is more emphasis on profiling individual poets in terms of style metre and mannerisms As in the first volume there is a Greek text with English translation and an apparatus with parallel material to enable comparison with related works But this volume pays more attention to the transmission of traditional material from one author to another and to the special approach required of an editor of material which being in practical use circulated in unstable and minutely varying textual forms

Jewish Ethnic Identity and Relations in Hellenistic Egypt Stewart Moore, 2015-07-14 In *Jewish Ethnic Identity and Relations in Hellenistic Egypt* Stewart Moore investigates the foundations of common assumptions about ethnicity To maintain one s identity in a strange land was it always necessary to band tightly together with one s coethnics Sociologists and anthropologists who study ethnicity have given us a much wider view of the possible strategies of ethnic maintenance and interaction The most important facet of Jewish ethnicity in Egypt which emerges from this study is the interaction over the Jewish Egyptian boundary Previous scholarship has assumed that this border was a Siegfried Line marked by mutual contempt Yet Jews Egyptians and also Greeks interacted in complicated ways in Ptolemaic Egypt with positive relationships being at least as numerous as negative ones
