The Harmony Project Kate Farmer,2003-12 The Harmony Project is a unique concept to give horse lovers a deeper insight into the equine mind The project follows the training and development of a filly foal called Harmony from 6 months and separation from the mare up to 3 and a half years and carrying her first rider Harmony s behaviour and training are explained in terms of her view of the world and show how we can present ourselves to our horses in a way that is more meaningful to them and therefore more effective Harmony is being trained primarily under the

principles of natural horsemanship taught by the top American trainer Richard Thompson who is the mentor of Harmony's owner and trainer Kate Farmer. Date comes from a classical British riding background and aims to show in the Harmony Project that the principles of natural horsemanship are equally relevant to all equestrian disciplines and not as many suppose mostly of help to western riders. Part 1 of The Harmony Project follows harmony from 6 months to 18 months and presents the first stages of her training in a clear easy to follow way. Each chapter focusses on one or two specific aspects of equine psychology and the exercises that relate to them. It offers an excellent introduction to natural horsemanship for newcomers to these methods and a very useful companion for those who have already started working on NH principles.
