Right Makes Might David C. Gompert, 1998 The emergence of China begs a fresh look at power in world affairs more precisely at how the spread of freedom and the integration of the global economy due to the information revolution are affecting the nature concentration and purpose of power Chapters freedom power and the rise of China globalization and power politics knowledge and freedom knowledge and national power powers as partners and coda on U S policy Concludes that the U S need not fear a cold war with China China s own priorities economic growth and stability propel it toward legitimacy that can only come through reform and toward the dominant technology **Right Makes Might** David C. Gompert, 1998 The emergence of China begs a fresh look at power in world affairs more precisely at how the spread of freedom globalization knowledge knowledge powers as partners coda on U S policy Concludes that the U S need not fear a cold war with China China s own priorities economic growth stability propel it toward legitimacy that can only come through reform toward the dominant technology *"Right Makes Might"* Wolfgang Mieder, 2019-04-04 A powerful and timely addition to the literature of rhetoric and folklore Choice In 1860 Abraham Lincoln employed the proverb Right makes might opposite of the more aggressive Might makes right in his famed Cooper Union address While Lincoln did not originate the proverb his use of it in this critical speech indicates that the fourteenth century phrase had taken on new ethical and democratic connotations in the nineteenth century In this collection famed scholar of proverbs Wolfgang Mieder explores the multifaceted use and function of proverbs through the history of the United States from their early beginnings up through their use by such modern day politicians as Barack Obama Hillary Rodham Clinton and Bernie Sanders Building on previous publications and unpublished research Mieder explores sociopolitical aspects of the American worldview as expressed through the use of proverbs in politics women s rights and the civil rights movement and by looking at the use of proverbial phrases Mieder demonstrates how one traditional phrase can take on numerous expressive roles over time and how they continue to play a key role in our contemporary moment *Strategic Assessment 1999*, 1999 *Strategic Assessment*,

Mind the Gap David C. Gompert, Richard L. Kugler, Martin C. Libicki, 1999-07 Warns of the growing disparity in combat capability between European and U S forces over the exploitation of the revolution in military affairs RMA The consequences of this transatlantic rift could undermine NATO This book dissects the problem of a growing disparity and rejects its inevitability Instead it lays out a multitiered strategy for its solution which is specific and practical including processes and procedures for implementation Chapters assessing the problem a shared strategic outlook building compatible forces for RMA operations creating a Transatlantic system of systems creating a Transatlantic RMA market *Strategic Appraisal* Zalmay Khalilzad, John P. White, 1999 Advances in information technology have led us to rely on easy communication and readily available information both in our personal lives and in the life of our nation For the most part we have rightly welcomed these changes But information that is readily available is available to friend and foe alike a system that relies on

communication can become useless if its ability to communicate is interfered with or destroyed Because this reliance is so general attacks on the information infrastructure can have widespread effects both for the military and for society And such attacks can come from a variety of sources some difficult or impossible to identify This the third volume in the Strategic Appraisal series draws on the expertise of researchers from across RAND to explore the opportunities and vulnerabilities inherent in the increasing reliance on information technology looking both at its usefulness to the warrior and the need to protect its usefulness for everyone The Strategic Appraisal series is intended to review for a broad audience issues bearing on national security and defense planning
