Right To Learn Alternatives For A Learning Society:

The Right to Learn Ken Brown, 2002-11 The Right to Learn raises questions about the future of the learning society It suggests that the rights of children and parents are not being addressed by the UK Government's concentration on a highly centralized education system

The Human Rights-Based Approach to Higher Education Jane Kotzmann, 2018-04-05 A human right to higher education was included in the International Covenant on Economic Social and Cultural Rights ICESCR which came into force in 1976 Yet the world has changed significantly since the ICESCR was drafted State legislation and policies have generally followed a neoliberal trajectory shifting the perception of higher education from being a public good to being a commodity able to be bought and sold This model has been criticized particularly because it generally reinforces social inequality At the same time attaining higher education has become more important than ever before Higher education is a prerequisite for many jobs and those who have attained higher education enjoy improved life circumstances This book seeks to determine Is there still a place for the human right to higher education in the current international context In seeking to answer this question this book compares and contrasts two general theoretical models that are used to frame higher education policy the market based approach and the human rights based approach In the process it contributes to an understanding of the likely effectiveness of market based versus human rights based approaches to higher education provision in terms of teaching and learning This understanding should enable the development of more improved sophisticated and ultimately successful higher education policies This book contends that a human rights based approach to higher education policy is more likely to enable the achievement of higher education purposes than a market based approach In reaching this conclusion the book identifies and addresses some strategic considerations of relevance for advocates of a human rights based approach in this context

Making Sense of Lifelong Learning Norman Evans, 2003-12-16 This book looks beyond the current rhetoric about lifelong learning and asks long overdue questions on the motives of institutions employers and the Government in promoting it and who says what is or is not lifelong learning

Inside the Learning Society Stewart Ranson, 1998-11-01 As an approach to the diverse and shifting learning needs of today the learning society labours under a definitional generosity which has led to three different models evolving with competing claims This book traces the history of the concept and lucidly lays out these three interpretive models learning for work learning for citizenship and learning for democracy The book's close scrutiny concludes with an analysis that synthesizes and sharpens our understanding of the learning society With due consideration given to the emerging critique and with chapters from public bodies engaged in implementing learning society principles Inside the Learning Society offers a comprehensive appraisal of ideas and practices This is a book of great significance for anyone concerned about or involved in the future of education

Transforming Education in Practice Wai-yan Ronald Tang, 2021-12-09 This book inspires educational practitioners with special regard to the way how practice in the frontline service is able to inform leadership and policy

decision It empowers them to identify what features are counted as professional and how they could be turned into sources for developing wise judgment and eliciting creative acts in teaching lesson planning and course design collaboration and knowledge excavation to shape policy decision and planning In addition for those who are used to conceive the world and their practice from a positivist tradition may find the insights of this book illuminating particularly when they are looking for a paradigm shift in understanding their practice Last but not least educators and teacher educators in particular will find the ideas in this book more promising in escalating the awareness of teachers of the next generation towards what is good phronesis in terms of their professional attitude and actual performance informed by both techne and episteme in their relevant settings

Oketch, Maurice Nyamanga Amutabi, 2009 Examines and decodes African ways of thinking and learning and beliefs and value systems This work uses pedagogical historical and sociological thinking and postmodern postcolonial and feminist theoretical approaches to interrogate ways to analyze lifelong learning in Africa

Authentic Professional Learning Ann Webster-Wright, 2010-08-05 There is considerable and growing interest in professionals learning across their working lives The growth in this interest is likely premised upon the increasing percentage of those who are being employed under the designation as professionals or para professional workers in advanced industrial economies Part of being designated in this way is a requirement to be able to work autonomously and in a relatively self regulated manner Of course many other kinds of employment also demand such behaviours However there is particular attention being given to the ongoing development of workers who are seen to make crucial decisions and take actions about health legal and financial matters Part of this attention derives from expectations within the community that those who are granted relative autonomy and are often paid handsomely should be current and informed in their decision making Then like all other workers professionals are required to maintain their competence in the face of changing requirements for work Consequently a volume that seeks to inform how best this ongoing learning can be understood supported and assisted is most timely and welcomed This volume seeks to elaborate professional learning through a consideration of the concept of authentic professional learning What is proposed here is that in contrast to programmatic approaches towards professional development the process of continuing professional learning is a personal complex and diverse process that does not lend itself to easy prescription or the realisation of others' intents *Education and*

Development G. Pankajam, 2006-12 With reference to India **Resources in Education**, 1999-10 Research Anthology on Adult Education and the Development of Lifelong Learners Management Association, Information Resources, 2021-03-19 Whether it is earning a GED a particular skill or technical topic for a career taking classes of interest or even returning to begin a degree program or completing it adult learning encompasses those beyond the traditional university age seeking out education This type of education could be considered non traditional as it goes beyond the typical educational path and develops learners that are self initiated and focused on personal development in the form of gaining some sort of education Essentially it is a voluntary choice of learning throughout life for personal and professional development While there is often a large focus towards K 12 and higher education it is important that research also focuses on the developing trends technologies and techniques for providing adult education along with understanding lifelong learners' choices developments and needs The Research Anthology on Adult Education and the Development of Lifelong Learners focuses specifically on adult education and the best practices services and educational environments and methods for both the teaching and learning of adults This spans further into the understanding of what it means to be a lifelong learner and how to develop

adults who want to voluntarily contribute to their own development by enhancing their education level or knowledge of certain topics This book is essential for teachers and professors course instructors business professionals school administrators practitioners researchers academicians and students interested in the latest advancements in adult education and lifelong learning **Alternative Solutions to Higher Education's Challenges** Laura M. Harrison, Peter C. Mather, 2015-08-27 Moving beyond critique *Alternative Solutions to Higher Education's Challenges* uses an appreciative approach to highlight what is working in colleges and universities and offers an examination of how institutions can improve practice Drawing on examples and cases from real higher education institutions this book offers a solution focused framework that challenges the negative assumptions that have plagued higher education Chapters explore how current narratives have perpetuated and maintained systematic flaws in our education system and have hindered reform This invaluable resource breaks from the substantial literature that only highlights the many problems facing higher education today and instead provides alternative strategies and essential recommendations for moving higher education institutions forward *Fourth International Handbook of Globalisation, Education and Policy Research* Joseph Zajda, 2024-12-04 This handbook provides a global synthesis of on going research in education and policy change during the last decade It examines discourses of globalisation from the perspectives of the global North and global South Major theories of globalisation and education policy reforms employed in the handbook are classified into two broad categories structuralist and post structuralist The handbook while examining the impact of global trends in different societies cultures and educational settings attempts to synthesise different meta theories of globalisation and their impact on societies and educational systems It discusses the continued interaction of global national and local forces and influences especially the importance of standards and quality driven education reforms the need to overcome inequality of access to quality schools and aims at providing quality education for all students In addition the impact of neo liberal ideology on education is examined in terms of its impact on ongoing standards driven education reforms globally The handbook analyses neo liberalism in education and its focus on increasing global competitiveness accountability efficiency quality standards driven policy reforms and educational stratification The impact of globalisation on education policy and reforms is a strategically significant issue for us all The unifying conceptual framework used in the handbook to critique strategic significance of globalisation is grounded in discourse CDA and critical theory The work offers the latest findings concerning major issues in education and policy directions such as global social and economic inequality neo liberal standard driven education and policy reforms performing schools in the performing culture education for human rights and social justice new perspectives on education for sustainability dominant and effective models of values education in schools and the ubiquitous impact of ICTs on education systems *Alternative Education Options* United States.
