How to Be Good with Words Don LePan, Laura Buzzard, Maureen Okun, 2017-02-28 In recent decades the contested areas of English usage have grown both larger and more numerous English speakers argue about whether we should say man or humanity fisher or fisherman whether we ought to speak of people as being disabled or challenged or differently abled whether it is acceptable to say that's so gay More generally we ask can we use language in ways that avoid giving expression to prejudices embedded within it Can the words we use help us point a way towards a better world Can we ask such questions with appropriate seriousness while remaining open minded and while retaining our sense of humor To all these questions this concise and user friendly guide answers yes while offering clear headed discussions of many of the key issues

The Broadview Book of Common Errors in English - Fifth Edition Don LePan, 2003-04-17 The Broadview Book of Common Errors in English offers full coverage of such common mistakes as commas splices sentence fragments words frequently confused words frequently misspelled mixed metaphors and subject verb agreement errors In each case the problem is clearly explained with examples illustrating both the nature of the trouble and how to put it right Unlike many guides to grammar and usage The Broadview Book refrains from dogmatism it treats correctness in English not as an unchanging objective standard laden with moral overtones but rather as a code of convenience that is extraordinarily useful in helping humans to communicate effectively and even elegantly It thus retains an openness to the inevitable process of change in the English language and recognizes that change does not imply debasement The fifth edition has been updated throughout and includes new material on capitalization on the connections between clear writing and clear arguments on academic citation systems on business writing and on particular difficulties experienced by those whose first language is not English
