Paul Froese

Risen Indeed Lessons Of Faith From The U S S R:

Risen indeed Michael Bourdeaux, 1983 The Plot to Kill God Paul Froese, 2008-08-06 The story of the survival of religion in the Soviet Union is one of the great surprises of the end of the twentieth century Indeed it is so surprising that many social scientists write it off attribute it to cultural nationalism or ignore it It is assumed that religion simply was given a temporary reprieve and would shortly succumb to secularization Professor Froese demolishes this assumption Andrew Greeley author of *The Catholic Imagination* *The Plot to Kill God* is refreshingly creative in bringing evidence from a neglected but hugely important case to bear on thinking through social scientific theories of religion This is an important contribution to a field greatly in need of just this kind of solid historical case analysis Christian Smith University of Notre Dame A wonderful book that will break the hearts of Richard Dawkins and all the other angry atheists After more than 70 years of intensive educational efforts and brutal persecution of religion there were no fewer believers in Russia than in the United States Rodney Stark Scientific socialism in communist countries turned out to be a hollow faith incapable of replacing more traditional religions Paul Froese beautifully shows why and how this provides us with useful lessons about the continuing power of religion today Daniel Chirot University of Washington Froese compellingly tests many theories about the causes of religious belief strength and resurgence *The Plot to Kill God* highlights the close link between human nature and religious faith thus making a broad argument about the anthropological foundation of religion while also using the tools of social science to advance our knowledge concepts and theories about religion and society Margarita Mooney University of North Carolina at Chapel Hill **The International Politics of Eurasia: v. 3: The Politics of Religion in Russia and the New States of Eurasia** S. Frederick Starr, Karen Dawisha, 2016-06-16 First Published in 2015 This ambitious ten volume series develops a comprehensive analysis of the evolving world role of the post Soviet successor states Each volume considers a different factor influencing the relationship between internal politics and international relations in Russia and in the western and southern tiers of newly independent states The contributors were chosen not only for their recognized expertise but also to ensure a stimulating diversity of perspectives and a dynamic mix of approaches This is Volume 3 *The Politics of Religion in Russia and the New States of Eurasia* Freedom of Conscience in (Post)Soviet Space Julie K. deGraffenried, Michael Long, Xenia Dennen, 2025-08-15 *Freedom of Conscience in Post Soviet Space* a collection of original essays edited by Julie K deGraffenried Michael Long and Xenia Dennen is inspired by the work of Michael Bourdeaux the holdings of the Keston Archive and continuing questions of freedom of conscience Ranging from England to Siberia and moving chronologically from 1917 to the twenty first century this book reveals the unique organization and methodology behind the Keston s collection of materials and the ways those in the West thought about religion and communism during the Cold War including the connection between religious liberty and human rights The essays demonstrate the depth and breadth of current research on religion in communist and postcommunist contexts a much needed corrective to contemporary political uses of religious

freedom Bourdeaux's activism and preservation of materials influenced many fields of study as reflected by contributing authors varied disciplines history theology sociology languages and literature A preface by the theologian and former Archbishop of Canterbury Rowan Williams comments on Michael Bourdeaux's life and significance *The Cyberunion Handbook* Arthur B. Shostak, 2002 In his original CyberUnion the author presented a bold plan for unions to develop a more significant role in the 21st century by adopting four strategic aids futuristics innovations services and traditions F I S T knit together by cutting edge Info Tech resources CyberUnions in Action expands on the F I S T model and looks at gains and setbacks in pioneering efforts to create CyberUnions It highlights relevant websites and features interviews with key CyberUnion advocates and some critics Shostak reviews overseas union efforts for transferable lessons and pays special attention to the AFL CIO campaign to ensure Labor's advances in the use of computer networks the Internet wireless devices and more

And God Created Lenin Paul Gabel, 2010-10-04 This book examines in depth the conflict between Lenin's logic driven efforts to stamp out religion and the churches passionate attempts to save themselves from obliteration It looks at both sides objectively and admits that they both presented strong cases In this thoroughly researched yet accessible study historian Paul Gabel offers a new understanding of the only effort in world history to upset the universality of religion Besides the main conflict between the Russian Orthodox Church and the atheist state Gabel also considers the tensions that this campaign against religion caused within the Communist Party In addition he discusses the bitter hatred dividing the Orthodox factions that refused cooperation with the government from those that tried to adapt the church to communism Was the failure of Soviet communism to eradicate religion simply a matter of practical miscalculation or was this effort in light of the persistence of religion throughout history ultimately unrealistic and doomed from the start This is the key question that Gabel's fascinating insightful narrative attempts to answer

The Faces of Janus A. James Gregor, 2004-03-04 Attempting to understand the catalogue of horrors that has characterised much of twentieth century history Western scholars generally distinguish between violent revolutions of the right and the left Fascist regimes are assigned to the evil right Marxist Leninist regimes to the benign left But this distinction has left us without a coherent understanding of the revolutionary history of the twentieth century contends A James Gregor in this insightful book He traces the evolution of Marxist theory from the 1920s through the 1990s and argues that the ideology of Marxism Leninism devolved into fascism Fascist regimes and Communist regimes both anti democratic ideocracies are far more closely related than has been recognised Employing wide ranging primary source materials in Italian German Russian and Chinese the book opens with an examination of the first standard Marxist interpretation of Mussolini's fascism in the early 1920s and proceeds through the emergence of fascist phenomena in post Communist Russia A clearer understanding of the relation between fascism and communism provides a sharper lens through which to view twentieth century history as well as the present and future politics of Russia Communist China and other non democratic states Gregor concludes The Cambridge History of

Christianity: Volume 5, Eastern Christianity Michael Angold, 2006-08-17 This volume encompasses the whole Christian Orthodox tradition from 1200 to the present Its central theme is the survival of Orthodoxy against the odds into the modern era It celebrates the resilience shown in the face of hostile regimes and social pressures in this often neglected period of Orthodox history Eastern Orthodox Christianity Daniel B. Clendenin, 2003-10 A clear introduction to Eastern Orthodoxy and key aspects of the tradition Includes new content and an updated bibliography *The Politics of Religion in Russia and the New States of Eurasia* Michael Bourdeaux, 1995 First Published in 2015 Routledge is an imprint of Taylor Francis an Informa company
