Old Age and the Search for Security Carole Haber, Brian Gratton, 1993-12-22 Haber and Gratton lay to rest many conventional assumptions concerning the place of older persons in American history Choice Haber and Gratton's meaty little book does more than provide an intelligent synthesis of existing old age history its new interpretations insights and shifts of emphasis will provoke responses and help move historians work away from the now threadbare original disputes in the field toward new questions and approaches American Historical Review Indeed Haber and Gratton give us a refreshingly multidimensional history of the shift in old age security from work assets or children to government annuities Contemporary Sociology the history of old age has finally come of age The authors successfully synthesize the best of the earlier social and cultural studies with new empirical evidence and recent findings of economic historians Journal of Economic History A truly revisionary interpretation of the cultural and structural forces that shaped the elderly's lives from the colonial period to the present Lucid and controversial it is bound to be widely cited and hotly contested W Andrew Achenbaum This social history of the American elderly offers a provocative new view of aging in the United States It revises traditional assumptions about the economic status of the old and challenges the long held contention that industrialization destroyed family relationships

Health Care for an Aging Population Chris Hackler, 1994-07-28 This volume examines one of the most important policy issues to be faced as policymakers address both current and future health care needs the allocation of health care resources for an aging population The first part looks at the role of the aged in society what justice requires of the young toward the old and of the old toward the young the source of rising health care costs and the need to control medical spending The second part focuses on dramatic and controversial proposals by Daniel Callahan and others to control medical spending in the next century by rationing life prolonging treatment according to age Concluding chapters provide concrete proposals for a system that solves our immediate problems of cost and access while preparing for the extraordinary needs of an aging population This book explores proposed changes in the U S health care system to meet unprecedented demand expected early in the next century when the baby boom generation reaches retirement age and eligibility for Medicare A focal point is the possibility of withholding publicly funded life prolonging medical care from the very old

Ethics, Health Policy and (Anti-) Aging: Mixed Blessings Maartje Schermer, Wim Pinxten, 2014-07-08 This volume focuses on the ethical and

philosophical issues that arise in an aging society and the implications of these issues for healthcare and social policy After a brief overview of biomedicine s changing approach of ageing and longevity and of the new expectations that these changes generate various ethical social and policy issues that surround aging and longevity are discussed First the images and social meanings of aging and old age in our society are explored including their normative dimensions and implications for policy Next ethical issues in the care for frail elderly are discussed as well as notion of good care and end of life decisions Finally the ethical and social implications of emerging possibilities for anti aging and lifespan extension are considered The book concludes with an overview of the relevance of the issues discussed for policy making on professional national and international levels

Successful Aging Martin Bloom,Waldo C. Klein,2013-12-01 There is a near universal folk saying that everyone wishes to live a good long life but no one wishes for old age More contemporarily the rock and roll band Little Feat sang You know that you re over the hill when your mind s making promises your body can t fill This book is about the good long life It is a book about primary prevention strategies in the aging process it is not about preventing that process It is not about being old Instead it is about the things that individuals and the helping professionals who provide them with counsel and assistance can do to prevent the preventable problems of advancing age and to better manage those changes in functioning that cannot be prevented In short it is about extending all our capacities to the fullest so that we can better keep all those promises that

we make to ourselves and others Aging is a life long process We focus here on the changes that are taking place in our selves and in our society as we age In particular we focus on what we can do to affect these changes by the choices we make and how we live This book offers primary prevention strategies for mature and older adults with the recognition that mature adulthood starts as soon as we are old enough to truly appreciate our active role in our own aging processes

Economic Security and Intergenerational Justice Theodore R. Marmor,Timothy M. Smeeding,Vernon L. Greene,1994

The Elderly Martin Lyon Levine,2017-05-15 Aging is a public health priority that is becoming increasingly important in both developed and less developed nations with individual health care providers and law makers each facing difficult ethical and policy dilemmas The complex issues physicians deal with include informed consent and patient decision making capacity use of advance care planning and decision making by family and medical staff and withdrawing and withholding life sustaining interventions Broader questions include has aging been over medicalized Is it ethical for older patients to receive less medical care than younger ones through unspoken practice or formal rationing Is there inevitable conflict between the generations over scarce medical resources How should physician patient and family confront end of life decisions How have different nations responded to increasing numbers of the elderly Have social values changed as to family responsibility and individual autonomy This volume brings together the most significant published essays in the field

Set No Limits Robert Laurence Barry, Gerard V. Bradley,1991

Aging and Health Care Marcia G. Ory,Kathleen Bond,2024-05-10 Of all the problems associated with a rapidly growing aging population health care demands top priority Research on health care for older people requires an understanding of the basic principles of aging and its related social processes while popular assumptions on the subject are often ill informed and are based more on misconceptions about aging than on scientific knowledge Originally published in 1989 Aging and Health Care focuses on the most urgent health care problems of older people at the time and explores possible solutions Drawing on up to date social and behavioral research it provides a sound basis on which to build practices and policies on aging and health care The contributors examine the complex relationships among aging persons their health care needs and the current health care and support systems Individual chapters contribute in particular to our understanding of the interactions of the health care system with individual aging processes and the interdependence between the informal and formal care systems With its emphasis on the interrelationships of health care with the biological psychological and social changes that people experience as they grow older Aging and Health Care will still be of historical interest to those studying in social science aging and public health

The Cambridge Handbook of Age and Ageing Malcolm L. Johnson,Vern L. Bengtson,Peter G. Coleman,Thomas B. L.
