The Snake in the Clinic Guy Dargert, 2018-05-08 This book is for psychotherapists and would make a wise companion for anyone starting out in the profession It entreats readers to be mindful of symptoms how not to confuse symptoms with illness and how both can be read as paths to the deeper reaches of the psyche where the cause of illness lies *Communication And The Transformation Of Economics* Robert E Babe, 2018-10-08 This book proposes that infusing mainline economics with more expansive and realistic conceptions of information communication transforms static neoclassicism into evolutionary political economy It results in modes of analysis that when applied through policy can lead to a sustainable future *The Ascent of Society* John S. Hatcher, 2007 In *The Ascent of Society The Social Imperative in Personal Salvation* author John S Hatcher answers questions that have been explored by spiritual seekers for many years how does personal spiritual development translate into social experience Is there a social imperative connected with individual spiritual growth Is involvement with others necessary for one to evolve spiritually This penetrating study describes the objective of personal spiritual growth as an ever expanding sense of self that requires social relationships in order to develop Hatcher focuses on the Bahá'í belief that human history is a divinely guided process in which spiritual principles are gradually and progressively expressed in social institutions He demonstrates that the aspirant to spiritual transformation cannot view personal health and development as being possible apart from the progress of human society as a whole
