Moody,Jennifer R. Sasser,2017-01-12 Presenting current research in an innovative text reader format Ageing Concepts and Controversies Ninth Edition encourages students to become involved and take an informed stand on the major aging issues we face as a society Not simply a summary of research literature Harry

R Moody and Jennifer R Sasser's text focuses on controversies and questions rather than on assimilating facts or arriving at a single correct view about aging and older people. Drawing on their extensive expertise, the authors first provide an overview of aging in three domains: aging over the life course, health care, and the socioeconomic aspects of aging. Each section is followed by a series of edited readings offering different perspectives from experts and specialists on that subject. New readings focus on whether current federal spending on the elderly is sustainable and fair to other groups, how older consumers are reshaping the business landscape and the challenges of marketing and selling to customers 60 and over. More emphasis is placed on how social class and inequality earlier in life can shape our final years and the number of older Americans living in poverty. The section on Aging and Health Care has been thoroughly updated to reflect the latest data about chronic diseases that affect the elderly, government spending on health care, and policy changes to programs like Medicaid and Medicare. The section on the Social and Economic Outlook for an Aging Society gives the most current picture of the racial and ethnic diversity of older Americans, their participation in the labor force, and their income and wealth.

Handbook of Geriatric Care Management Cathy Jo Cress, 2015-10-26. Handbook of Geriatric Care Management Fourth Edition is a comprehensive and practical guide for care managers that addresses the multiple needs of aging adults and their families. An ideal teaching tool, it guides students and professionals along the journey of becoming a successful care manager. New to this edition are two new chapters on working with older veterans and helping clients with depression. Completely updated and revised, the Fourth Edition provides updated ethics and standards, a focus on credentialing and certification, numerous case studies, sample forms and letters, and tips for building and growing a care manager business. **Handbook of Aging and the Social Sciences** Robert H. Binstock, Linda K. George, Stephen J. Cutler, Jon Hendricks, James H. Schulz, 2011-05-05. The Handbook of Aging and the Social Sciences Sixth Edition provides a comprehensive summary and evaluation of recent research on the social aspects of aging. The 25 chapters are divided into four sections discussing Aging and Time, Aging and Social Structure, Social Factors, and Social Institutions, and Aging and Society. Within this context, aging is examined from the perspectives of many disciplines and professions, including anthropology, bioethics, demography, economics, epidemiology, law, political science, psychology, and sociology. The Sixth Edition of the Handbook is virtually 100% new material. Seventeen chapters are on subjects not carried in the previous edition. Seven topics were carried over from the previous edition but written by new authors with fresh perspectives and brought up to date. Some of the exciting new topics include social relationships in late life, technological change and aging, religion and aging, lifestyle and aging, perceived quality of life, economic security in retirement and aging, and the law. There is also a greater emphasis on international perspectives, particularly in chapters on aging and politics, diversity and aging, and immigration. The Handbook will be of use to researchers and professional practitioners working with the aged. It is also suitable for use as a course text for graduate and advanced undergraduate courses on aging and the social sciences. *Future Survey Annual 1986* Michael Marien, 1987-01-01.
