Chemically Modified Minds Matthew Hall, Mark Forshaw, Catharine Montgomery, 2020-10-30 This innovative edited collection brings together leading international academics to explore the use of various non prescription and prescription substances From a psychosocial perspective the authors discuss the complex reasons behind their adoption the ways in which they are misused and links between use and cognitive enhancement While

studies on substance use to date have examined the aetiology and effects in the context of sporting performance addiction and recreational use there has been little work which explores their wider misuse to improve cognitive enhancement With medical sociology and social psychology at its core this important volume shows the complex reasons behind the misuse of various substances how these are connected to contemporary desire for increased mental performance and why the potential health risks and possibly harmful side effects do not act as deterrents *Global Ageing in the Twenty-First Century* Zachary Zimmer, 2016-04-22 Population ageing a growth in the proportion of a population that is in older age is now occurring in every region and nearly every country of the world Indeed the growth of older populations is among the important global phenomena of the twenty first century It poses both opportunities and challenges for societies and policy makers but these are far from uniform worldwide Dynamic factors are at work impacting on how ageing will influence people places and policies and there are large variations in the rate and timing of population ageing across countries owing to differing social health and economic circumstances and a variety of policy options from which to choose Given this variation in the context of global ageing as a backdrop this edited book focuses on three overarching themes that are among the most critical to understand if societies are to age successfully in the twenty first century and beyond Healthy ageing and health care the ageing workforce retirement and the provision of pensions shifting intergenerational relations These three themes are cross cut by other dimensions that are intertwined with the dynamic processes of ageing such as immigration emigration contrasting policy regimes and global and national economic forces This ground breaking book will be of interest to all scholars students and policy makers working within this area of study **Bad Medicine** Christopher Wanjek, 2003-04-07 Christopher Wanjek uses a take no prisoners approach in debunking the outrageous nonsense being heaped on a gullible public in the name of science and medicine Wanjek writes with clarity humor and humanity and simultaneously informs and entertains Dr Michael Shermer Publisher Skeptic magazine monthly columnist Scientific American author of *Why People Believe Weird Things* Prehistoric humans believed cedar ashes and incantations could cure a head injury Ancient Egyptians believed the heart was the center of thought the liver produced blood and the brain cooled the body The ancient Greek physician Hippocrates was a big fan of bloodletting Today we are still plagued by countless medical myths and misconceptions *Bad Medicine* sets the record straight by debunking widely held yet incorrect notions of how the body works from cold cures to vaccination fears Clear accessible and highly entertaining *Bad Medicine* dispels such medical convictions as You only use 10% of your brain CAT PET and MRI scans all prove that there are no inactive regions of the brain not even during sleep Sitting too close to the TV causes nearsightedness Your mother was wrong Most likely an already nearsighted child sits close to see better Eating junk food will make your face break out Acne is caused by dead skin cells hormones and bacteria not from a pizza with everything on it If you don't dress warmly you'll catch a cold Cold viruses are the true and only cause of colds Protect yourself and the ones you love from bad medicine the brain you save may be your own [Riding the Diabetes](#)

Rollercoaster Helen Cooper, Robert Geyer, 2018-04-19 This work includes foreword by Ian Botham OBE former England Cricket Captain and father of a daughter with Type 1 Diabetes This groundbreaking book reveals how science and medicine have traditionally tried to make diabetes simple and orderly despite its obvious messiness and complexity The result has left patients carers and health professionals confused and frustrated Using complexity science Riding the Diabetes Rollercoaster provides a radical new approach to understanding and managing diabetes that embraces its uncertainties and challenges From a complexity perspective the diabetes rollercoaster is normal and is a mirror of life itself Learning to embrace and use the tools of complexity can completely alter your approach to diabetes Despite huge amounts of research funding and effort diabetes like many other chronic illnesses refuses to go away or even to get any easier to deal with Health professionals have grown increasingly frustrated with their inability to develop radical improvements patients and carers struggle to comply with complicated self management regimes We believe that Complexity offers a way forward Learning to balance rather than control diabetes is the ultimate goal of diabetes management Helen Cooper and Robert Geyer in the Preface
