Training Wheels for Teachers Steve McKeehan, 2019-07-12 You got into the teaching profession to make a difference You had some exceptional teachers growing up and you thought you had what it took to make a similar impact on young people Yet from the moment you inherited your first group of students you have been struggling to keep your head above water During each period of the day while you attempt to deliver quality instruction there are a handful of loud and obnoxious students that make it their mission to disrupt your lessons and cause chaos in the classroom Because of your inability to take control others have joined in the insurrection There is no teacher 911 number to dial and you feel frustrated and helpless Your dream job has turned into a fight for survival As a new instructor you'll need the knowledge and practical experience to set up your classroom design and teach lesson plans and communicate with the parents of your students Your top priority however is to establish classroom management strategies and get students to buy into your rules and governance If you can convince them to do so you'll set the table for a successful school year Become the leader of your classroom and help students discover the educational opportunities that await
