Looking Into Paintings:

Looking Into Paintings Norbert Lynton, 1985-01 **Learning to Look at Paintings** Mary Acton, 1997 This accessible guide to the study and appraisal of paintings shows how you can learn to look at and understand an image by analysing how it works what its pictorial elements are and how they relate to each other *The Art of Looking at Art* Gene Wisniewski, 2020-10-04 A readable guide to the art of looking at art There s an art to viewing art A sizable portion of the population regards art with varying degrees of reverence bewilderment suspicion contempt and intimidation Most people aren t sure what to do when standing before a work of art besides gaze at it for what they hope is an acceptable amount of time and even those who visit galleries and museums regularly aren t always as well versed as they wish they could be This book will help remedy that situation and answer many of the most frequently asked questions pertaining to the matter of art in general When was the first art made Who decides which art is for the ages What is art s purpose How do paintings get to be worth tens of millions of dollars Where do artists get their ideas And perhaps the most pressing question of all have human cadavers ever been used as art materials Yup The Art of Looking at Art addresses these and countless more of the issues surrounding this frequently misunderstood microcosm in a highly informative yet conversational tone History fascinating and altogether human backstories and information pertaining to every conceivable aspect of visual art are interwoven in twelve concise chapters providing all the information the average person needs to comfortably approach analyze and appreciate art Readers with a background in art will learn a few new things as well This beautiful full color book includes 45 full page reproductions **Looking into Walt Whitman: American Art, 1850Ð1920** ,2006 **Looking at Paintings** Tiarna Doherty, Anne T. Woollett, 2009 Fully revised and updated here is a concise and authoritative guide to the technical terms most commonly used in painting What is tempera What is foreshortening What is fresco These are just some 100 terms that are explained and illustrated in this authoritative volume **Paintings and Sculptures: Where Do We Look First?** Magali Seille, Zoi Kapoula, 2023-05-16 The book presents three studies in which eye tracking data were collected at the Mus e des Beaux Arts in Rouen in June and July 2013 Overall the results of those three studies highlight the knowledge gained from the analysis of the very first saccade in a museum context when people look at paintings and statues The first study analyzes how viewers orient their first saccade on paintings This study shows that in a museum the first saccade is attracted toward the center of paintings This attraction toward the paintings center is found in all the subjects groups that we have studied Noteworthy this effect is significantly less pronounced in individuals who never visit museums It is among amateurs who often visit museums that the center attracts the most the first saccade Among experts painters or art history teachers and to a lesser extent among amateurs the pictorial composition largely determines the orientation of the first saccade We indeed found that as soon as the first saccade experts orient their gaze toward the main subject This phenomenon seems to be explained by the fact that experts immediately orient their gaze here measured as the first saccade

toward the paintings location conveying the most meaning It can either be the center or a peripheral area depending on whether the paintings most meaningful subject is located centrally or peripherally The second study shows that the center does not attract the first saccade in 5 year old children This behavior appears later in 8 to 10 year old children However noticeably the 8 10 year old children orient significantly less frequently their first saccade toward the paintings center as adults do and this is also true when one considers non expert adult viewers The results of the third study focus on statues and reveal a very different oculomotor behavior Indeed rather than looking at the center statues viewers exhibit a clear tendency to saccade first at the statues contours This stands in contrast with the behavior that we observe with paintings Our study concludes that statues trigger a specific oculomotor behavior The latter appears to be mostly driven by the physical presence that stone bodies incarnate The movement and the climax of this movement that sculptors manage to convey thus turn out to attract the gaze in a unique fashion The book concludes that the first saccade is a powerful indicator of the oculomotor behavior that greatly improves our comprehension of the unique relationship between a viewer and artworks

GLOSSARY INDEX AND ACKNOWLEDGMENTS *Studies in the Spectator Role* Michael Benton,2000 Develops the concept of spectatorship as an answer to the question how are literature and the visual arts related and how can cross curricular studies be developed Seeing Rothko Glenn Phillips,Thomas E. Crow,2005 I am interested only in expressing basic human emotions tragedy ecstasy doom Mark Rothko 1903 1970 said of his paintings If you are moved only by their colour relationships then you miss the point Throughout his career Rothko was concerned with what other people experienced when they looked at his canvases As his work shifted from figurative imagery to luminous fields of colour his concern expanded to the setting in which his paintings were exhibited Perception and Agency in Shared Spaces of Contemporary Art Cristina Albu,Dawna Schuld,2017-12-15 This book examines the interconnections between art phenomenology and cognitive studies Contributors question the binary oppositions generally drawn between visuality and agency sensing and thinking phenomenal art and politics phenomenology and structuralism and subjective

involvement and social belonging. Instead they foreground the many ways that artists ask us to consider how we sense, think and act in relation to a work of art.

Radical Coherency David Antin, 2012-03-15 We got to talking so David Antin begins the introduction to *Radical Coherency* embarking on the pursuit that has marked much of his breathless brilliantly conversational work. For the past forty years, whether spoken under the guise of performance artist or poet, cultural explorer or literary critic, Antin's innovative observations have helped us to better understand everything from Pop to Postmodernism. Intimately wedded to the worlds of conceptual art and poetics, *Radical Coherency* collects Antin's influential critical essays and spontaneous performed lectures or talk pieces for the very first time, capturing one of the most distinctive perspectives in contemporary literature. The essays presented here range from the first serious assessment of Andy Warhol published in a major art journal, as well as Antin's provocative take on Clement Greenberg's theory of Modernism, to frontline interventions in present debates on poetics and fugitive pieces from the 60s and 70s that still sparkle today and represent a gold mine for art historians of the period. From John Cage to Allan Kaprow, Mark Rothko to Ludwig Wittgenstein, Antin takes the reader on an idiosyncratic personal journey through twentieth century culture with his trademark antiformalist panache, one that will be welcomed by any fan of this consummate trailblazer.
