Standardized Childhood Bruce Fuller, 2008-07-15 A array of childcare and preschool options blossomed in the 1970s as the feminist movement spurred mothers into careers and community organizations nurtured new programs Now a small circle of activists aims to bring more order to childhood seeking to create a more standard state run preschool system For young children already facing the rigors of play dates and harried parents juggling the strains of work and family government is moving in to standardize childhood Sociologist Bruce Fuller traveled the country to understand the ideologies of childhood and the raw political forces at play He details how progressives earnestly seek to extend the rigors of public schooling down into the lives of very young children Fuller then illuminates the stiff resistance from those who hold less trust in government solutions and more faith in nonprofits and local groups in contributing to the upbringing of young children The call for

universal preschool is a new front in the culture wars raising sharp questions about American families cultural diversity and the appropriate role of the state in the lives of our young children Standardized Childhood shows why the universal preschool movement is attracting such robust support and strident opposition nationwide

The Development of Early Childhood Education in Europe and North America Harry Willekens, Kirsten Scheiwe, Kristen Nawrotzki, 2015-07-06

The public provision of early childhood education has developed at different rates across individual countries over the past two centuries This book provides the historical background to explain how these national differences occurred with particular reference to welfare and educational systems to highlight how particular influences grew

Pedagogical Reflections On Learning Languages In Instructed Settings Maria Noelia Ruiz-Madrid, Esther Usó-Juan, 2009-03-26

Pedagogical Reflections on Learning Languages in Instructed Settings is intended to provide the latest pedagogical reflections that derive from research in a variety of key areas within the discipline of language learning Thus this volume aims at helping practising language teachers to update their teaching methodology The book has fifteen chapters that are grouped around five sections The first section of the book includes three chapters which outline past approaches to language learning and highlight advances in our understanding of how languages are likely to be learned and taught These three chapters provide the theoretical grounding for the rest of the volume by discussing outstanding concepts in the language learning field namely those of eclecticism Chapter 1 communication Chapter 2 and learner autonomy Chapter 3 The second section of the book contains three chapters which explore new directions in the field that have recently caught the attention of language researchers and practitioners namely the Information and Communication Technology ICT in language learning Chapter 4 the use of language corpora Chapter 5 and finally the use of the portfolio as a new assessment tool responding to new pedagogical demands Chapter 6 The third section of the book consists of three chapters which discuss the role of learners individual variables such as affect Chapter 7 learning styles Chapter 8 and learning strategies Chapter 9 crucial for understanding the nature of language learning The fourth section of the book has five chapters and provides insights into understanding the nature of the four language skills that is to say listening Chapter 10 speaking Chapter 11 reading Chapter 12 and writing Chapter 13 This section also addresses the issue of assessment with the aim of increasing awareness on the duality teaching assessing and its pedagogical dimension Chapter 14 The book concludes with the fifth section which includes a single chapter that pulls all aforementioned topics together and highlights connections to a student centred approach which involves a reformulation of language teachers teaching practices Chapter 15

Governing Children, Families and Education M. Bloch, Thomas S. Popkewitz, K. Holmlund, I. Moqvist, 2016-09-27 This is a collection of essays that address the international changes in welfare policy The book discusses the new patterns of governing associated with the notions of welfare care and education that emerge during the late Twentieth and early Twenty first centuries The issues examined are among others the role of international donors and their emphasis on efficiency and lower social subsidies international migration and its impact on

welfare policy inclusions and exclusions and national policy change While representing many different locations and traditions contributors work within a variety of critical theoretical perspectives that critique our cultural ways of reasoning about the care and education of the child the role and practice of the state and the social and cultural construction of citizenship and nationhood

Revolution of the Right to Education A. Reis Monteiro, 2021-07-19 The author argues in his essay on the Revolution of the Right to Education that the birth of the human right to education after a millennia long gestation has opened up a new chapter in the History of Education Moreover its normative jurisprudential doctrinal and programmatic developments are constituents of an International Education Law that is now the highest source in the hierarchy of the contemporary normativity on education to which the Education Law in States Parties should conform Therefore it should be recognised and studied as a new legal and educational discipline the source of principles of legitimacy and quality of education This book offers an interdisciplinary and topical introduction to the International Education Law broadly defined It explains in what ways the normative integrity of the right to education carries far reaching revolutionary significance corollary of the Revolution of Human Rights and the Revolution of the Rights of the Child

Children, Home and School Ros Edwards, 2004-08-02 In contemporary western societies there are increasing emphases on children being the responsibility of their parents contained within the home and on their compartmentalisation into separate and protected organised educational settings Thus home and school form a crucial part of children s lives and experiences This book explores the key institutional settings of home and school and other educationally linked organised spaces in children s lives and the relationships between these It presents in depth discussions concerning new research findings from a range of national contexts and focuses on various aspects of children s and sometimes adult s own understandings and activities in home and school and after school settings and the relationship between these The contributors assess children from a variety of backgrounds and circumstances and consider how these children see and position themselves as autonomous within connected to or regulated by home and school Discussion of the impact of policy and practice developments on the everyday lives of these children is also included

European Integration Through Education Ryszard Kucha, 2004

Prospects, 1993

Juan Amós Comenio, 1993

Educational Ills and the (Im)possibility of Utopia Joff Bradley, 2020-05-21 As a bold provocation to reimagine what the philosophy of education might mean in the 21st century this book responds to the exhaustion of present theoretical models and indeed the degradation of fabulative thought in its current prospectus The contributors from Asia the Americas and Europe proffer a frank response to the everyday reality of the classroom where teachers compete with electronic devices for the attention of students whose minds are literally elsewhere cocooned in the noospheric ether Outside of lecture halls the world is suffering the rise of fascism panic and anger driven by precarious employment and a looming fatalism and resignation in the face of ecological calamity These developments have led to an avalanche of psychological woes afflicting young people ranging from trauma the loss of hope and in extremis violence and

suicide The concerned and committed writers of this volume therefore raise the timely question of the return of utopia as a fitting desperate and indeed necessary response to the ecological existential and pedagogical crises spreading across the planet At this most crucial juncture in human history the excellent contributions to this book offer singularly unique perspectives regarding the possibility impossibility of utopia This book was originally published as a special issue of the journal Educational Philosophy and Theory

Contribution de la linguistique à l'enseignement du français Béatrice Pothier, 2012-10-31 T00:00:00-04:00 Lorsqu'un enfant ne réussit pas bien en français la tendance à juger de ses connaissances et de ses compétences en regard du savoir de l'adulte porte les enseignants à le classer systématiquement dans la catégorie des élèves en difficulté Les apports de la linguistique permettent cependant de considérer les erreurs commises par l'enfant sous un autre angle En vertu du code écrit s'éloignent de plus en plus du code oral et cet écart échappe parfois l'adulte qui maltraite parfaitement l'écrit Si l'enseignant tente de se mettre à la place de l'enfant en apprentissage certaines de ces erreurs lui sembleront non seulement compréhensibles mais encore lui révéleront parfois une forme de logique et une réflexion qui ne saurait être ignorées Cet ouvrage met en pratique les théories linguistiques dans l'objectif d'aider la compréhension des erreurs des enfants aussi bien dans leur apprentissage de la langue orale que de la langue écrite voire du passage de l'une à l'autre De cette nouvelle approche découleront une conception renouvelée de l'erreur ainsi que des outils plus appropriés pour y remédier
