Florence Tamagne, 2004 Just crawling out from under the Victorian blanket Europe was devastated by a gruesome war that consumed the flower of its youth Tamagne dissects the strands of euphoria rebellion exploration nostalgia and yearning and the bonds forged at school and on the battlefield in a scholarly treatise charting the early days of the homosexual and lesbian scene The period between the two world wars was crucial in the history of homosexuality in Europe It was then that homosexuality first came out into the light of day Berlin became the capital of the new culture and the center of a political movement seeking rights and protections for what we now call gays and lesbians In England the confrontation was brisk to

undermine the structures and strictures of Victorianism whereas in France which was more tolerant over all homosexuality remained more subtle and nonmilitant Tamagne's 2 volume work outlines the long and arduous journey from the shadows toward acceptability as the homosexual and lesbian community sets out to find a new legitimacy at various levels of society She weaves together cultural references from literature songs and theater news stories and private correspondence police reports and government documents to give a rounded picture of the evolving scene

Michael Costa: England's First Conductor John Goulden, 2016-04-22 Among the major changes that swept through the music industry during the mid nineteenth century one that has received little attention is how musical performances were managed and directed Yet this was arguably the most radical change of all from a loose control shared between the violin leader musical director and maestro al cembalo to a system of tight and unified control under a professional conductor manager This process brought with it not only baton conducting in its modern form but also higher standards of training and discipline a new orchestral layout and a more focused rehearsal regime The resulting rise in standards of performance was arguably the greatest achievement of English music in the otherwise rather barren mid Victorian period The key figure in this process was Michael Costa who built for himself unprecedented contractual powers and used his awesome personal authority to impose reform on the three main institutions of mid Victorian music the opera houses the Philharmonic and the Sacred Harmonic Society He was a central figure in the battles between the two rival opera houses between the Philharmonic and the New Philharmonic and between the venerable Ancient Concerts and the mass festival events of the Sacred Harmonic Society Costa's uniquely powerful position in the operatic symphonic and choral world and the rapidity with which he was forgotten after his death provide a fascinating insight into the politics and changing aesthetics of the Victorian musical world
