Adam Mickiewicz in World Literature is a sweeping tribute to one of Poland's most revered poets illustrating his profound impact on global literature and culture. Celebrating the centennial of Mickiewicz's death, this work delves into the poet's lasting influence across diverse literary traditions from Europe to the far reaches of China, emphasizing his unique role as both a Polish national figure and a universal symbol of resilience, poetic genius, and the quest for freedom. With contributions from experts worldwide, the book examines Mickiewicz's interactions with literary greats like Pushkin and Goethe, highlighting how these relationships deepened his impact across nations and literatures while enriching his own work. Divided into sections that chronicle Mickiewicz's life journey and literary influence, *Adam Mickiewicz in World Literature* explores the poet's reception in countries where he lived or visited: Russia, Germany, France, Italy, and Switzerland, as well as in regions connected by cultural or linguistic ties. Essays extend to Slavic, Scandinavian, Anglo-Saxon, and even Chinese literatures, revealing a common admiration for Mickiewicz's poetic vision. This volume celebrates Mickiewicz not only as a poet of Poland but as an embodiment of hope for unity and brotherhood among nations, making this book essential for readers interested in cross-cultural studies, comparative literature, and the enduring power of poetry to transcend borders. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Anny Wardy *Existence, Aesthetics, Criticism. Studies in Polish Romanticism* MIROSŁAW STRZYŻEWSKI, 2020 Romanticism in Poland was the first modern era which created the earliest modern intellectual class calling for cultural, political and civilizational changes which is similar to the situation in France, Germany and England. The rebellious spirit of Romanticism in Poland is characterized by stronger foundations and arguments of historiosophical nature. Rebellion in Romanticism was not limited to fighting for the individual freedom of men as people also fought in the name of national and social freedom. It was a struggle that encompassed many aspects of life and imagination. Romanticism is the child of youth. The youth shaped a new worldview, rebelled against the world order in literature and art and proposed a new definition of freedom including not only politics but also aesthetics, philosophy, music, science as well as lifestyle, thus imparting on everyday life the qualities of freedom and authenticity.
