## **Machine Labor Confronts The Future:**

Following the Sun Robin Tennant-Wood, 2012-10-01 In 1970 a small group of physicists at The Australian National University decided to veer away from the accepted and expected directions in energy research and pursued the emerging discipline of solar energy Over the next decade ANU joined a small cluster of research institutions including the CSIRO UNSW and the University of Sydney to emerge as a world leader in solar energy technology This book traces the history of solar energy research at ANU over 35 years from its origin its sometimes controversial early stages through its flagship projects to its current status as one of the world's best known solar energy research establishments It is as much a story of the future as it is a history Following the sun is the story of how an idea to pursue what was in 1970 a new and unpopular research path has come to underpin sustainable development in the 21st Century

The Ayes Have It John Wanna, Tracey Arklay, 2010-07-01 The Ayes Have It is a fascinating account of the Queensland Parliament during three decades of high drama politics It examines in detail the Queensland Parliament from the days of the Labor split in the 1950s through the conservative governments of Frank Nicklin John Bjelke Petersen and Mike Ahern to the fall of the Nationals government led briefly by Russell Cooper in December 1989 The volume traces the rough and tumble of parliamentary politics in the frontier state The authors focus on parliament as a political forum on the representatives and personalities that made up the institution over this period on the priorities and political agendas that were pursued and the increasingly contentious practices used to control parliamentary proceedings Throughout the entire history are woven other controversies that repeatedly recur controversies over state economic development the provision of government services industrial disputation and government reactions electoral zoning and disputes over malapportionment the impost of taxation in the low tax state encroachments on civil liberties and political protests the perennial topic of censorship as well as the emerging issues of integrity concerns about conflicts of interest and the slide towards corruption There are fights with the federal government especially with the Whitlam government and internal fights within the governing coalition which eventually leads to its collapse in 1983 after which the Nationals manage to govern alone for two very tumultuous terms On the non government side the bitterness of the 1950s split was reflected in the early parliaments of this period and while the Australian Labor Party eventually saw off its rivalrous off shoot the QLP DLP it then began to implode through waves of internal factional discord

Howard's Agenda Marian Simms, John Warhurst, 2000 No Marketing Blurb

**Labor's Conflict** Tom Bramble, Rick Kuhn, 2010-11-22 Once widely regarded as the workers greatest hope for a better world the ALP today would rather project itself as a responsible manager of Australian capitalism Labor's Conflict provides an insightful account of the transformations in the Party's policies performance and structures since its formation Seasoned political analysts Tom Bramble and Rick Kuhn offer an incisive appraisal of the Party's successes and failures betrayals and electoral triumphs in terms of its competing ties with bosses and workers The early chapters outline diverse approaches to understanding the

nature of the Party and then assess the ALP's evolution in response to major social upheavals and events from the strikes of the 1890s through two World Wars the Great Depression and the post war boom The records of the Whitlam Hawke Keating Rudd and Gillard governments are then dissected in detail The compelling conclusion offers alternatives to the Australian Labor Party for those interested in progressive change

**The A to Z of Australia** James C. Docherty, 2010-04-01 The last continent to be claimed by Europeans Australia began to be settled by the British in 1788 in the form of a jail for its convicts While British culture has had the largest influence on the country and its presence can be seen everywhere the British were not Australia's original populace The first inhabitants of Australia the Aborigines are believed to have migrated from Southeast Asia into northern Australia as early as 60 000 years ago This distinctive blend of vastly different cultures contributed to the ease with which Australia has become one of the world's most successful immigrant nations The A to Z of Australia relates the history of this unique and beautiful land which is home to an amazing range of flora and fauna a climate that ranges from tropical forests to arid deserts and the largest single collection of coral reefs and islands in the world Through a detailed chronology an introduction appendixes a bibliography and cross referenced dictionary entries on some of the more significant persons places and events institutions and organizations and political economic social cultural and religious facets author James Docherty provides a much needed single volume reference on Australia from its most unpromising of beginnings as a British jail to the liberal tolerant democracy it is today

Labour History, 2005

**The New Progressive Dilemma** D. O'Reilly, 2007-04-12 The New Progressive Dilemma documents the international diffusion ideological meaning and long term political implications of the ideas that informed the late twentieth century revolution in thinking inside the British Labour Party a revolution that had important antecedents in Australia

Social Democracy After the Cold War Ingo Schmidt, Bryan Evans, 2012 Despite the market triumphalism that greeted the end of the Cold War the collapse of the Soviet empire seemed initially to herald new possibilities for social democracy In the 1990s with a new era of peace and economic prosperity apparently imminent people discontented with the realities of global capitalism swept social democrats into power in many Western countries The resurgence was however brief Neither the recurring economic crises of the 2000s nor the ongoing War on Terror was conducive to social democracy which soon gave way to a prolonged decline in countries where social democrats had once held power Arguing that neither globalization nor demographic change was key to the failure of social democracy the contributors to this volume analyze the rise and decline of Third Way social democracy and seek to lay the groundwork for the reformulation of progressive class politics Offering a comparative look at social democratic experience since the Cold War the

volume examines countries where social democracy has long been an influential political force Sweden Germany Britain and Australia while also considering the history of Canada's NDP and the emergence of New Left parties in Germany and the province of Quebec The case studies point to a social democracy that has confirmed its rupture with the postwar order and its role as the primary political representative of working class interests Once marked by redistributive and egalitarian policy perspectives social democracy has the book argues assumed a new role that of a modernizing force advancing the neoliberal cause

**Abbott's Gambit** Carol Johnson, John Wanna, Hsu-Ann Lee, 2015-01-21 This book provides a truly comprehensive analysis of the 2013 federal election in Australia which brought the conservative Abbott government to power consigned the fractious Labor Party to the Opposition benches and ended the hung parliament experiment of 2010-13 in which the Greens and three independents lent their support to form a minority Labor government It charts the dynamics of this significant election and the twists and turns of the campaign itself against a backdrop of a very tumultuous period in Australian politics Like the earlier federal election of 2010 the election of 2013 was an exercise in bipolar adversarial politics and was bitterly fought by the main protagonists It was also characterised again by leadership changes on Labor's side as well as the entry of new political parties anxious to deny the major parties a clear mandate Moreover the 2013 election continued the trend whereby an increasing proportion of the electorate has chosen not to vote for one of the main two political parties While the 2013 election delivered a clear victory to the Coalition in the Lower House it simultaneously produced a much more mixed outcome in the Senate where the Greens managed to record their largest ever representation and a new party the Palmer United Party initially secured three Senate positions at its first attempt together with the election of Clive Palmer to a Queensland seat in the House of Representatives With minor and micro parties also winning Senate seats amounting to a total of 18 Senators on the cross benches the Abbott government's ability to govern and pass legislation was placed in some doubt The 2013 election result suggested that far from ending the preceding tumultuous period of Australian politics it merely served to prolong this era indefinitely The 2013 campaign was one of the longest on record arguably commencing when the besieged Prime Minister Julia Gillard announced the date for the election in late January 2013 then over seven months away This unconventional tactic overshadowed the election from that date onwards providing a definite timeline for Labor infighting influencing the largely negative tactics of the Opposition and encouraging new parties to proliferate to contest the election This volume traces these formative influences on the campaign dynamics and explains the electoral outcome that occurred including the 2014 re-election for the Western Australian Senate seats ordered by the High Court

**Abbott's Gambit** includes insightful contributions from academic experts campaign directors and electoral watchers political advisers and professional psephologists Contributors utilise a wide range of sources and approaches including the Australian Election Survey to provide a detailed analysis of this important federal election

**Australian Politics in the Twenty-First Century** Stewart Jackson, Joff Lelliott, Shannon Brincat, Josephine Bourne, Nick Economou, 2022-09-02 The global political
